Request for Information / Questions for Van Jones:

Since the advent of European / Jewish Military and Financial World Domination:

Do you know of any Non-European: African, African American, Latino, Muslim etc; who has:

- personally or legally directly approached European / Jewish Human Factory Farming Slave Master Oppressors; requesting them to engage in a public political and/or legal conversation that has never been had before; a conversation about abolishing the Masonic Left/Right Wing Human Factory Farm; a conversation about cooperating to implement an Ecology of Peace international law social contract; that requires all the worlds citizens to procreate and consume below ecological carrying capacity limits; or be exterminated from the planetary genepool?

Do you know of any 'progressive' Non-European: African, African American, Latino, Muslim lawyer, religious, philosophic advisor who has advised 'progressive' Non-European or European 'Progressive' political leaders to:

- personally or legally directly approach 'conservative' European / Jewish Human Factory Farming Slave Master Oppressors; requesting them to engage in a public political and/or legal conversation that has never been had before; a conversation about abolishing the Masonic Left/Right Wing Human Factory Farm; a political and legal conversation about cooperating to implement an Ecology of Peace international law social contract; that requires all the worlds citizens to procreate and consume below ecological carrying capacity limits; or be exterminated from the planetary genepool?

I have not been able to find any such historical information about any 'progressive' Non-European: African, African American, Latino, Muslim lawyer, religious, philosophic advisor or religious or political leader?

My working hypothesis is that the reason I have not been able to find such a 'progressive' Non-European lawyer, religious, philosopher advisor or political leader; is because they all secretly believe that Non-Europeans are – in terms of their procreation capabilities and skills: sexual discipline, responsibility and fully informed consent gender relations restraint – about as sexually 'superior/inferior' equal to cockroaches on viagra.

Put differently they secretly believe that the majority of Non-Europeans are incapable of procreation discipline.

Put simply: They think Non-Europeans are inferior beings; are not and never will be 'equal' to a European or Asian or Jew; a significant majority of whom are capable of procreation discipline; and who are not remotely threatened by an international law social contract; that would require them to procreate below ecological carrying capacity limits.

In 'progressive' terminology: Progressives know they are racists – according to their own definition of 'racist -- because of their secret beliefs about Non-Europeans cockroaches on Viagra behaviours; but do not have the integrity to admit it to themselves. They also don't love or care for Non-Europeans enough to believe that Non-Europeans deserve to know the brutal in your face truth; about what they believe about Non-Europeans 'cockroach on viagra' behaviours. Non-Europeans are quite simply nothing more than economic and political welfare vote farm cannon fodder to them in their fuck honour desire for power.

If love is defined as buck stops here brutal honesty:

Do you love Non-Europeans enough to think that Africans, Muslims, Latino's addicted to fornicating like cockroaches on Viagra; deserve an honourable public honest conversation about whether they are capable of procreation discipline?

Do you think Donald Trump loves European and Jewish Consumptionist addicted elite addicted to consuming like bling n*ggers on crack enough to think that they deserve a public honest conversation about whether they are capable of consumption discipline?

If neither of you love your respective followers enough to engage them in a buck stops here honest conversation about their procreation / consumption addiction sources of racism, nazims, etc; then what exactly is the difference between the two of you?

The fuck honour flavour of your Fuck Honour Masonic War is Peace cultural Flavour Aid?

To think that we can advocate for human rights, peace, and social justice while ignoring their necessary ecological basis—is both intellectually dishonest and ultimately self-defeating.

The longer we put off choosing the nicer methods of achieving demographic stability, the more likely the nasty ones become, whether imposed by nature or by some fascistic regime. Urine Good Company might represent a mild version of what could actually be in store if we let the marketplace, corporations, and secretive, militaristic governments come up with eugenic solutions to our population dilemma.

If the nail you are hammering is to abolish the Masonic War is Peace social contract and replace it with an Ecology of Peace social contract; then that nail is simultaneously addressing a multitude of ecological overshoot problems: whether crime and violence, unemployment and poverty, food shortages, inflation, political instability, loss of political freedoms, conformist political correctness, vanishing species, garbage and pollution, urban sprawl, traffic jams, toxic waste, resource depletion, etc.

Put simply the nail is in the bulls eye target zone, and each hammer strike, sends problem solving solution ripples to each of all of these problems; whereas if you find a nail and stick it in only one of these problem areas; each hammer strike is pointless; because in the absence of addressing the root cause of the problem: Masonic War is Peace ‘right to breed/consume with total disregard for ecological carrying capacity limits’ social contract; the particular problem you are focussed on is only going to get worse; as the tap of overpopulation / overconsumption-ecological overshoot resource scarcity grows and grows and grows.

Quite simply: Do you know of any Muslim and African military, political, corporate or religious leader; or any of their European military, corporate, political or religious white guilt liberal Masonic slavemasters who thinks that Muslims and/or Africans are intellectually, religiously and/or physically capable of conquering thier ego's and penis/vagina's to practice Ecology of Peace responsible freedom procreation practices.

I doubt it. I imagine if the majority of Muslim and African military, political, corporate or religious leaders were brutally honest with their Muslim and/or African followers they would tell them: When it comes to your breeding practices; you are not equal to the average white man or woman; you are not even equal to many animals in the wild who are capable of practicing responsible freedom procreation practices and do not breed like cockroaches on viagra. When it comes to procreation equality; the majority of Muslims and Africans could be equal to cockroaches; except for the fact that cockroaches don't pretend they want to be called 'humans'.

Imagine there were one or more, a dozen or a few dozen such Muslim and African military, political, corporate or religious leaders who wanted to or were willing to be brutally honest with their Muslim and/or African followers about adopting a 'jihad / struggle' to conquer thier own penis/vagina's and start to breed like humans not cockroaches on viagra; what would be the response of these Muslim and African's white guilt two faced liberal Masonic European corporate, political and particularly media slavemasters?

Sustainable Problem Solving vs Unsustainable Violent Colonialism: Patriarchal Capitalism and Communism

There are some who view a superior civilization as one in which the men do not suffer from fragile ego addictions, and can discuss a matter honourably and based upon reason and logic, if or where they find their reasoning to be in error, to admit such, and amend their working hypothesis conclusion.... such a society is capable of problem solving most problems... such as for example the Mosuo culture in SW China who have no murder, no rape, no suicide, no homelessness, no unemployment, who live in harmony with nature.

A gender balanced culture based on logic and reason concludes that we live on a finite resource earth, and hence if we wish to avoid conflict from resource scarcity, then we must consume and reproduce at a level below carrying capacity. Put differently we do not have the right to ‘fuck’ and ‘consume’ to our hearts content. No patriarchal culture on planet earth has ever been based on logic and reason and required their tribe to breed and consume below carrying capacity.

Then you have patriarchal societies/cultures where men suffer from fragile ego's and are incapable of resolving issues by means of logic and reason. Put differently, they do not want to take control of their penis, either physically, by breeding below carrying capacity, or psychologically, by consume below carrying capacity (social status symbols which psychologically are equivalent to their belief in an extension of their penis/virility). They consider superiority, not superiority of logic and reason and honour and intellect and integrity, but superiority of violence and force.

However they do not have the honour or integrity to admit their addiction to violence as a symptom of their masculine insecurity to evaluate their ‘status’ in terms of honesty or honour. Violence is simply another patriarchal status symbol. It is one of the masculine insecurity social status symbols by which they measure any other patriarchal male’s worth, or another tribe’s superiority/inferiority.

I have large respect for a man who is honest about his view of violence being the pinnacle of any civilization, even though I disagree with them... but at least he is honest, and his enemies know.. that is the measure of his values. He has no regard for ‘rule of law’ or ‘logic and reason’. He settles every dispute with his fists. And when he is beaten by a stronger opponent, he does not turn into a victim and starts whining about how he is now oppressed, since he takes responsibility for his choices; that he lost the game of violence is superiority.

I have no respect, and a huge amount of disgust for men who do not have the honour and integrity to admit that they measure a culture's superiority by the level of its inflicted violence, happy to be earning the fruit of the culture’s colonialist violence, while their violence is winning the raping, pillaging wars, breeding and consuming wars... but all of a sudden turning into whining victims when they lose the game of violence and are now oppressed.

To test whether a man or woman support violence as superiority; or rule of law/reason and logic, ask them whether they procreate and consume below carrying capacity. If they do, they support rule of law/reason and logic. If they consume or procreation above carrying capacity, they support – consciously or unconsciously – patriarchy’s definition of superiority: violence!

Either you support the rule of law, i.e. logic and reason, which means you must confront that we live on a finite resource planet, and all tribes must breed and consume below carrying capacity, to avoid scarcity and internal or inter-tribal conflict.

Or you support the patriarchal breeding and consuming game of violent superiority. If so, then at least be honest and admit it, and if you lose, don’t whine. Why do you think your patriarchal political and religious and cultural leaders are not having this discussion publicly with all citizens and members of their tribes?

Lincoln did not 'free the slaves'; Lincoln abolished honest overt American slavery; and did sweet goddamn fuck all about covert dishonest American slavery.

I have only met one 'progressive' who gives a fuck about abolishing covert dishonest slavery. See: comment response to Stan Goff: 25 Feb 2016: Chasin Jesus: *Enemies – A Confession*.

Excerpt: EoP v WiP NWO negotiations Comments Correspondence [[PDF](#)]: Chasin Jesus:

"I profited from hatred. I won a small measure of notoriety from it, once as a soldier, again as a kind of semi-professional leftist. During the build-up for the Bush II invasion of Iraq, I penned an angry response to the intemperate remark, "Bring it on," by George W. Bush which went viral. Suddenly I was being invited to speak - getting paid to speak - all over the country, and even as far afield as Sydney, Australia. What people responded to with the greatest enthusiasm was not my recounting of the costs of war, but when I channeled their rage."

"I worked for a time with veterans 'peace' groups, within which there were genuine pacifists, but also many like me - who were against imperialism, and whose pacifism only extended to our own imaginary borders. At the endgame of my leftist schema was revolutionary civil war, imagined as a great rising and cleansing."

If your socio-cultural or religious 'peace advocacy' does not clearly, simply and explicitly educate on behalf of an international law social contract that requires all the worlds citizens, from all races, classes, cultures and religions to procreate and consume below ecological carrying capacity limits:

- You are monumentally bullshitting yourself – not an act of love or honour to yourself; and your fuck honour dumbfuck fanclub – that you give a fuck about peace.
- You are not an advocate for genuine peace based upon living – procreating and consuming below ecological carrying capacity limits – peaceful racial, cultural or religious co-existence.
- You are a Masonic War is Peace whore addicted to a dumbfuck fanclub believing the 'peace' bullshit you spew to yourself and them.

If 'hatred' is defined as lying and deceiving another to manipulate them for socio-psychological 'attention' or economic profit; you are still PROFITTING FROM HATE.

In my culture; buck stops here brutal honesty is considered 'love'. It is a form of respect; and honour to be brutally honest with everyone, family, friends or enemies.

Furthermore you cannot solve any problem; whether the problem is sexual, economic, psychological, socio-political, military, etc; if you are not willing to be brutally honest about what the problem is; and what its root causes are; then to prohibit the behaviours that are the root causes of the problem; and either punish those who refuse to amend their behaviours or exterminate them from the genepool; which can be done humanely and orderly or violently and inhumanely.

If you have procreated or consumed above ecological carrying capacity limits:

- You are profiting from Masonic War is Peace Black / White / Capitalist / Communist / Neoliberal / Neoconservative Power resource theft privilege.

Put differently you have profited from 'right to breed/consume with total disregard for ecological carrying capacity limits' Masonic War is Peace clauses in the international law social contract.

1. Overconsumption and overpopulation are a direct consequence of humans procreating and consuming above ecological carrying capacity limits.
2. Economic inequality; psycho-social resource conflict conformity pressures; climate change, food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, nation states standing army or dissident guerrilla army 'terrorism' resource war military aggression, etc – are a direct and indirect consequence of overpopulation and overconsumption.
3. Humans procreate and consume above ecological carrying capacity limits because the current international law social contract; allows nation states to provide their citizens with the implied 'right to breed and consume with total disregard for ecological carrying capacity limits'.
4. Humans will stop procreating and consuming above ecological carrying capacity limits when legislators amend the current international law and national constitutional social contract statutes that enable procreation and consumption above ecological carrying capacity limits; to specifically require all the worlds/their nations citizens to procreate and consume below ecological carrying capacity limits.

Regarding so called 'genuine pacifists in veteran peace groups'.

In my life I have met one individual who called themselves a liberal who could be considered a 'genuine pacifist': [Demian Johnson](#). When faced with brutal In Your Face information and evidence; that contradicted his worldview; he had the courage to admit he made a mistake and to flush his mental beliefs toilet; of the shit beliefs he formerly held.

He has been in a California Prison since 1982. Although he is African American; with former family members who were members of the Black Power: Black Panthers; after confronting his Black Guerrilla Family bigotry towards 'Aryan Brotherhood' gang members; he had sweet fuck all problems engaging in brutal honest conversations with the Aryan Brotherhood; who joined with Correctional Officers to setup a 'Scared Straight' like group; to mentor youngsters at risk. The courts recommended juveniles who had gotten into trouble with the law; to them; and those youngsters would go to the Maximum Security Prison; and meet with Demian, some of his African friends who joined, the Aryan Brotherhood and Correctional Officers; and be put through their 'scared straight' program; which included some brutal In Your Goddamn fucking face discussions; which generally ended up with these 'tough' juvenile gangsters ready to engage in horrific acts of violence, including rape, gang rape or murder to join some street gang; sitting in the Scared Straight Group Therapy discussion bawling and sobbing about their insecurities and fears, like babies. Tears were spent not only by the juvenile gangsters; but the Aryan Brotherhood and Black Guerrilla Family and Prison Correctional Officers also.

Perhaps if Jacob George had gone to Demian's Aryan Guerrilla Prison Group Therapy class; instead of this [fuck honour progressive liberal toxic shit group therapy](#); he may have found some sincere male bonding healing. Instead of committing suicide out of pain; he may have committed suicide with a few buddies on Helium laughing gas with an attitude of 'fuck this fucking kaffir planet hellhole. We are off to fucking hitchhike the Milky Way and find some planet where they give a fuck about honesty, honour and buck stops here relationships; and living in harmony with ecological carrying capacity limits.'

Or he may have found Ecology of Peace information; and decided to become an Ecology of Peace warrior.

Don't know.

I suspect Demian's Aryan Guerilla Prison Group Therapy was shut down by some fuck honour "You hurt my fuck honour fragile ego feelings' progressive liberal; because poor black and white men; do not deserve buck stops here honesty; and real healing; all they deserve is to be fuck honour liberal politicians or bankers sperm donor and brood sow military and economic house and field nigger human factory farming cannon fodder.

"Simplistically Military Biological / Chemical etc Warfare is simply a form of culling and resource theft warfare between tribes living on a finite resource planet, managed by a 'flat earth social contract'. Put simply it is the result of an absence of an international Ecology of Peace social contract, requiring all the worlds tribes to breed and consume below carrying capacity limits. A peace or reconciliation treaty that ignores finite resource reality as the foundation for its procreation and consumption social contract duties imposed on all signatory parties; is not a sincere peace or reconciliation treaty, because it totally and utterly ignores the ecological finite resource reality foundation and citizen procreation and consumption duties required for peaceful co-existence amongst tribes. To the contrary, such a 'War is Peace' peace or reconciliation treaty is simply a psycho-polegal – soma-pacification, or Trojan horse bullshit the public relations psychological warfare – resource theft tactic."

Suggested Definitions:

Breeding/Consumption Scarcity Combatant Parties to the Conflict:

Any individual, organisation or nation whose procreation or consumption footprint violates its commons carrying capacity limits; should be designated as a 'breeding/consumption' scarcity combatant party to any local, regional, national or international resource scarcity related conflict.

Breeding/Consumption Weapons of War:

“We must all understand that the most potent weapons of war are the penis, the womb, and the ego. Therefore, if you cannot convince a group to control its population and consumption, to below carrying capacity limits; by discussion, debate, intelligent analysis, etc.; you must consider their action in using the penis and the womb to increase population; or using the ego to consume in violation of carrying capacity limits; an Act of War” – Amended version of quote by Judge Jason G. Brent, in *Humans: An Endangered Species*.

Biological Warfare:

Biological Warfare is simply a symptom of breeding and consumption biological behaviours. The most dangerous root cause biological warfare ingredients are (a) male sperm; (b) female ovaries; and (c) ego-gender insecurity memplexes that have hijacked our brain-matter/minds; to engage in breeding war and consumption warfare behaviour; resulting in ecological overshoot, standing armies and finally military biological warfare.

Chemical Warfare:

Chemical Warfare is simply a symptom of breeding and consumption chemical behaviours. The most dangerous root cause chemical warfare ingredients are (a) male sperm; (b) female ovaries; and (c) ego-gender insecurity memplexes that have hijacked our brain-matter/minds; to engage in breeding war and consumption warfare behaviour; resulting in ecological overshoot, standing armies and finally military chemical warfare.

Fraud of UN ‘Peace’ and ‘War’ Treaties:

Any United Nations endorsed international treaty related to ‘war’ or ‘peace’ that ignores specifically addressing the breeding war and consumption war violation of carrying capacity limits root causes of ecological overshoot, which subsequently manifests as cannon fodder standing armies and their creation of military chemical, biological, technological, electronic and other related warfare ingredients, is based upon deception and fraud..

It was about some newly established party in Germany. Two weeks ago an attempted discussion of this subject led to one death, sixty injuries and GBP 3,000 damages to beer glasses, tables, chairs, windows and chandeliers in Chemnitz. Last night Dr Goebels tried the experiment in Berlin and only police intervention prevented a repetition of the Chemnitz affair. On Dr. Goebels assertion that Lenin was the greatest man, second only to Hitler, and that the difference between communism and the Hitler faith were very slight, a faction war opened with whizzing beer glasses." Sincere EoP or WiP Fraud: Never Had Before Democratization Discussion?:

If the nail-problem you are hammering is to abolish the Masonic War is Peace social contract and replace it with an Ecology of Peace social contract; then that nail is simultaneously addressing a multitude of ecological overshoot problems: whether crime and violence, unemployment and poverty, food shortages, inflation, political instability, loss of political freedoms, conformist political correctness, vanishing species, garbage and pollution, urban sprawl, traffic jams, toxic waste, resource depletion, etc. Put simply the nail is in the bulls eye target zone, and each hammer strike, sends problem solving solution ripples to each of all of these problems;

whereas if you focus your nail-problem hammering in War is Peace 'racial, ideological, cultural, religious, economic etc' symptom zones; each hammer strike is pointless; because in the absence of addressing the root cause of the problem: Masonic War is Peace 'right to breed/consume with total disregard for ecological carrying capacity limits' social contract; the particular problem you are focused on is only going to get worse; as the tap of overpopulation / overconsumption-ecological overshoot resource scarcity grows and grows and grows.

Sincere Honour EcoFootprint Shrinking Lifeboat Ethics Root Cause Problem Solving Legal Discussion:

I don't know if you are aware of this information; but [Ecology of Peace culture has been having a legal discussion that has never been had before, since 18 June 2002](#); focused on the root causes of all the aforementioned socio-economic and psycho-political problems being whined about; i.e. about reforming or abolishing the 'right to breed and consume with total disregard for ecological carrying capacity limits' clauses of the international law social contract; and [options for implementing an Ecology of Peace international law social contract](#); that requires all the worlds citizens from all races, religions and cultures to procreate and consume below ecological carrying capacity limits.

Here follow excerpts:

Are you willing to change the conversation; to have a conversation that has not been had before; to have a conversation about – [ecological overshoot](#) resource depletion [tipping points](#) and [resource conflict](#) – national resource shrinking lifeboats decision-making about 'whom should be removed from the lifeboat aka national genepool; how should they be removed; how many should be removed; by whom and when should they be removed'?

Put Simply: Do you want a Culture Change by reaching for the faucet to engage in an EoP Honour EcoFootprint Shrinking Lifeboat Ethics discussion; or is your 'culture change' rhetoric just verbal diarrhea pretend culture change; while you stay stuck in your 'Suck my - WiP human sacrifice to the EgoPhallic Gods – Dick; bitch' fragile ego Masonic culture?

In Garrett Hardin's: [Living on a Lifeboat](#) and [Lifeboat Ethics: The Case Against Helping the Poor](#); the basic access to resources leadership decision was 'nations resource lifeboat is not full yet, whom of those drowning in the water; should we give the opportunity to get into our national lifeboat; and whom should we just allow to drown'.

In US Army's Lifeboat Ethics while not explicitly stated in the course material; that – in terms of [ecological overshoot](#) resource depletion [tipping points](#) and [resource conflict](#) – all nations on Earth's resource lifeboats are not only full; but shrinking so now the decision is not 'whom to let in' but 'whom should be removed from the lifeboat aka national genepool; how should they be removed; how many should be removed; by whom and when should they be removed'?

The Ecology of Peace culture's answer to these shrinking lifeboat questions:

Summary:

Whom should be removed from the lifeboat/national genepool & how many should be removed:

- All citizens from whatever nation, race, religion or class whose procreation and/or consumption has been and is above ecological carrying capacity limits; who refuse to commit in writing to reduce their consumption and/or procreation to ecological carrying capacity limits; should be evacuated from the planetary genepool lifeboat by national criminal justice government departments.

How should they be removed from the national genepool; by whom, how many and when should they be removed'?

- Worlds Attorney Generals should cooperate to implement an Ecology of Peace international law social contract that requires all the worlds citizens to procreate and consume below ecological carrying capacity limits.
- Once implemented: all citizens from whatever nation, race, religion or class whose procreation and/or consumption has been and is above ecological carrying capacity limits; who refuse to commit in writing to reduce their consumption and/or procreation to ecological carrying capacity limits; should be evacuated from the planetary genepool lifeboat by national criminal justice government departments.

- If or where any nation's Attorney General obstructs the implementation of Ecology of Peace international law social contract; they should provide reasons for their legal obstruction behaviour to the International Criminal Court; and/if or when they refuse to do so; should be coerced into doing so by the implementation of EoP Axis Military Necessity Mutual Coercion Psychotronic Evacuation processes which shall psychotronically evacuate lotto nations scarcity combatant and breeding/consumption war citizens who have not signed EoP Axis Oaths from the planetary genepool.

“If you can't explain it simply, you don't understand it well enough.” - Albert Einstein

1. Economic inequality; psycho-social resource conflict conformity pressures; climate change, food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, nation states standing army or dissident guerrilla army 'terrorism' resource war military aggression, etc – are a direct and indirect consequence of overpopulation and overconsumption.
2. Overconsumption and overpopulation are a direct consequence of humans procreating and consuming above ecological carrying capacity limits.

3. Humans procreate and consume above ecological carrying capacity limits because the current international law social contract; allows nation states to provide their citizens with the implied 'right to breed and consume with total disregard for ecological carrying capacity limits'.
4. Humans will stop procreating and consuming above ecological carrying capacity limits when legislators amend the current international law and national constitutional social contract statutes that enable procreation and consumption above ecological carrying capacity limits; to specifically require all the worlds/their nations citizens to procreate and consume below ecological carrying capacity limits.

In the – amended – wording of Dr. Al Bartlett: Living on a planet where cultures are based upon Masonic War is Peace right to breed/consume social contract principles is like buying a ticket on the Titanic; if you're smart you go Capitalist first class; or you can go cheap Communist or Primitivist steerage third class. In all cases, the sinking of the culture from ecological overshoot resource depletion result is the same. But if the social contract gives the people the choice, most people would go fast, flashy and first class.

As reported in Nasa funded [Human \(Predator\) and Nature \(Prey\) Dynamics \(HANDY\) studies](#): Humans who engage in [totalitarian agriculture](#), engage in Predator-Prey Growth and Collapse of Civilization/Empire cycles: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan. Collapses result from (1) Ecological Strain and (2) Economic Stratification and include the disappearance of between 90-99% of the populations (from famine, disease and organized violence resource wars) including their kings, Gods, calendars and other complex political and cultural institutions.

Economic Stratification Collapse occurs due to unequal consumption of resources generating Elites vs Commoners. As Elites become sizable and keep growing, they consume more; their over-exploitation results in collapse of resources to the Commoners; who experience famine and collapse. Elites -- due to their wealth -- do not suffer the detrimental effects of environmental collapse until much later than Commoners, which allows them to continue 'business as usual', despite the impending catastrophe; explaining how historical collapses were allowed to occur by seemingly oblivious elites (eg Roman & Mayan cases).

As clarified by Garrett Hardin in [Tragedy of the Commons](#); in the absence of a social contract that eliminates 'breeding/consumption' cheaters from the genepool; a social contract that provides for no 'elimination from the genepool' consequences for 'breeding / consumption war cheaters; effectively results in other members of the culture being forced to engage in breeding / consumption war cheating; for offence or defence of their resources purposes; which sets in motion a breeding / consumption war ratrace. This reality was observed shortly after the invention of totalitarian agriculture; and the elite of the time decided rightly or wrongly that their only option was for the elite to [divide and conquer](#) manage and profit from the 'breeding / consumption war'; which is one of the '[human sacrifice](#)' 'secrets' of '[oroborous mystery phallic worship religions](#)'.

If economists and journalists are sincere about establishing an economic system based upon resource footprint morality; and abolishing the [human factory farming slavery](#) system; they need to confront Ecology of Peace Factual Reality: (a) Earth is not flat; (b) Earth renewable and

non-renewable resources are finite; (c) When humans breed or consume above ecological carrying capacity limits, it results in resource conflict; (d) To sustainably protect and conserve natural resources in accordance to [local and national carrying capacity limits](#); and restrict [national and international inter-cultural resource war conflict](#); humans must implement an [Ecology of Peace](#) international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

AnthroCorpocentric Jurisprudence’s Innocence for Sale Indulgence Legal Matrix:

“Corporations are a Frankenstein monster which States have created by their corporation laws.” - Supreme Court Justice Louis D. Brandeis, 1916

“Every right must be evaluated in the network of all rights claimed and the environment in which these rights are exercised. If we hold that every right, “natural” or not, must be evaluated in the total system of rights operating in a world that is limited, we must inevitably conclude that no right can be presumed to be absolute, that the effect of each right on the suppliers as well as on the demanders must be determined before we can ascertain the quantity of right that is admissible. From here on out, ours is a limited world. Rights must also be limited. The greater the population, the more limited the per capita supply of all goods; hence the greater must be the limitation on individual rights, including the right to breed. At its heart, this is the political meaning of the population problem.” – Garrett Hardin, Limited World, Limited Rights

Civilized Patriarchy’s Legal Matrix Reality doctrine -- the Inalienable ‘Right to Breed and Consume, but you need a License to Own a Gun, a License to Drive a Car, a License to Practice Law, a television license, a credit license, a license to earn a living, a university exemption license, a license to fish, a license to hunt, a liquor license, a business license, a marriage license, in some U.S. states, five year olds, even need to get a license to run a lemonade stand on their front lawn -- hypocritically referred to as the ‘rule-of-law’ is a legal world of lawyers, politicians and priests, who prefer to negligently ignore, plausibly deny, or socio-psycho-phallicly benefit from the conquer-and-multiply and divide and conquer control over the means of human reproduction and consumption. It is a Matrix reality, of legal, political and religious indulgence salesmen.

It is a legal world, very similar to the Matrix religious world that existed before Martin Luther confronted the religious indulgence salesmen with his Ninety-Five Theses, on the Church of All Saints, on 31 October 1517, thereby initiating the Protestant Reformation.

In the Catholic Church’s religious Matrix world, only Catholic Bishops were entitled to be interpreters of the ‘word of god’. Only they could decide what God meant, about who was guilty and who was innocent, who would go to hell and who would go to heaven. God did not speak to common people, except via the Catholic Church’s bishops.

In Civilized Patriarchy’s Legal Matrix world, only those who swear blind obedience to Civilized Patriarchy’s Legal Matrix world – lawyers, prosecutors and judges – are deemed to possess the supposed superior intellectual Legal Godlike capabilities, to decipher, decode and interpret the ‘word of civilized patriarch gods’, hence capable of deciding which of us mere Commons surplus cannon fodder mortals acts of commission, or omission, is ‘lawful’ or ‘unlawful’.

Civilized Patriarchy’s Legal Matrix ‘AnthroCorpocentric law’ is based upon Flat Earth ‘jurisprudence’, as per the demands of those capable of purchasing Flat Earth legislation

indulgences which make their ecologically – breeding/consumption war -- criminal acts, to be deemed as 'legal/lawful' conduct by the Legal Matrix Bishops: lawyers, prosecutors and Judges.

It is a Matrix world of legal indulgence salesmen; who -- 'Contempt in Facie Curiae' -- demand the public's sycophantic submissive obedience; for their supposed superior intellectual Godlike capabilities, to decipher, decode and interpret which of us mere Commons surplus cannon and vote fodder mortals acts of commission, or omission, is 'lawful' or 'unlawful'.

Thieving, Conquering, Murdering and Culling Acts of Un/Lawfulness:

"Military men are just dumb, stupid animals to be used as pawns in foreign policy." - Henry Kissinger; *The Final Days*, by Bob Woodward & Carl Bernstein

Surplus vote fodder citizens may convert to becoming cannon-fodder citizens by joining the military to commit conquering or culling acts of murder and theft, as long as their murder and theft is sanctioned as a lawful conquer, culling or theft order, by one or more groups of left/right conquer-and-multiply legal indulgence salesmen.

In this Matrix Reality legal world, soldiers tasked with the national security conquering and culling responsibilities, of conquering to thief another tribe's resources, and culling population 'useless eaters' and 'oxygen thieves' surplus population excesses; on behalf of the conquering and culling profiteering demands of civilized patriarchy's civilian corporate and political elite; constantly find themselves confronted with the conquer-or-culling "Befehl ist Befehl" Catch 22 dilemma:

To obey, or not to obey, a 'Lebensraum', 'Difaqane', 'Operation Freedumb' and the thousands like them, order to conquer or cull; since a lawful conquer or culling order, by one group of left/right conquer-and-multiply legal indulgence salesmen, can easily be reinterpreted to be an unlawful order, by another group of opposing left/right conquer-and multiply legal indulgence salesmen; presenting a Catch 22 dilemma from which there is no legal escape.

One who refuses a 'lawful' conquering or culling order will still probably be jailed for refusing orders, and one who accepts an 'unlawful order will be jailed for committing unlawful culling or conquering acts.

Who decides, what is, and what is not, a conquering or culling *lawful*, or *unlawful* order?

The 'Inalienable Right to Breed' Matrix Reality conquer-and-multiply indulgence salesmen, with their specious justifications, and nightmare of Legal Matrix reality generated bureaucratic stare-decisis cryptic rules and statutes, of course!

"I don't know what you mean by 'glory,'" Alice said.

Humpty Dumpty smiled contemptuously. "Of course you don't—till I tell you. I meant 'there's a nice knock-down argument for you!'"

"But 'glory' doesn't mean 'a nice knock-down argument'," Alice objected.

"When I use a word," Humpty Dumpty said, in rather a scornful tone, "it means just what I choose it to mean—neither more nor less."

"The question is," said Alice, "whether you can make words mean so many different things."

"The question is," said Humpty Dumpty, "which is to be master—that's all."
-- Through the Looking Glass, by Lewis Carroll

Anthropocentric Master's of 'Relevance' Jurisprudence:

The question in a civilized patriarchy court is only concerned with who is the master of one word: '*relevance*'.

Any question or answer that exposes civilized patriarchy's Legal Matrix system for what it is; a system far more corrupt than the Catholic Church's Indulgences for Sale religious matrix, is simply deemed as 'irrelevant'.

It is 'irrelevant' that legislators, lawyers, courts and judges defy the laws of ecology with a massive 'fuck you', by legislating, interpreting and enforcing Legal Matrix doctrine, that encourages citizens to breed and consume above cultural carrying capacity limits.

It is 'irrelevant' that legislators, lawyers, courts and judges know that legislation which ignores carrying capacity limits results in ecological overshoot, surplus vote-cannon-fodder populations, economic hierarchical inequality, and scarcity induced local, national and international conflict.

It is 'irrelevant' that legislators, lawyers, courts and judges know that legislation which enables ecological overshoot in multi-cultural/ethnic/religious communities, manifests as inter-cultural / ethnic / religious conflict.

It is 'irrelevant' that legislators, lawyers, courts and judges know that inter-cultural / ethnic conflict is a great divide and conquer tool to manipulate the proletariat to perceive other cultural/ethnic proletariat as the source of their own overshoot-scarcity-conflict misery.

It is 'irrelevant' that legislators, lawyers, courts and judges sit in judgement about an accused's case of theft or murder; while consciously ignoring the theft and thievery and participation in mass murder of the civilized patriarchy corporate elite, who purchased 'Innocence for Sale' Indulgences from legislators to avoid legislation that defines their ecologically criminal acts of billion and trillion dollar thievery and murder as 'unlawful'.

What is relevant?:

It is relevant that civilized patriarchy's penis constitutions human factory farming rights to breed and consume, is to be master —that's all.

Who says so?:

Civilized Patriarchy's ecologically illiterate Legal Matrix Legislator's, lawyers, judges and prosecutors ego-genitals say so!

Totalitarian Agriculture as the source of Taker resource scarcity social-conflict contract problems:

The problems with Taker social contract occurred with the invention of Totalitarian agriculture; which describes the behaviour of humans who violate their original indigenous tribal territory's by choosing to engage in surplus food production (economic growth); resulting in surplus human (population growth).

When any tribe of humans overbreed and/or overconsume the natural resources in their perceived tribal territory; they travel beyond their tribal territory to go and find resources they have over-consumed and degraded. When such a tribe enters another tribes territory, then conflict occurs (from economic, political to physical, an organized violence warfare). To limit inter-tribal territorial resource acquisition conflict, all tribes must agree to limit procreation and consumption to their tribal territory ecological carrying capacity limits.

Simplistically the history of war can be summed up as: Every single battle between two groups of racial, religious, ethnic, or ideological warriors, engaged in organized violence resource thieving or defence, since the advent of [totalitarian agriculture](#), was a result of one or both of those tribes having overbred and/or overconsumed, and engaging in resource thieving into another tribes territory.

Since the beginning of humans (whatever you believe that beginning to be) humans lived in nomadic hunter gatherer tribes, like the Bushmen, Aborigine's, etc. Male duties were to hunt and protect the tribe. Women's duties were to forage and nurture the young. Both men and women contributed to the tribe's economic resources and duties, hence power was shared reasonably equally. Tribes were concerned about not overbreeding; since such overbreeding resulted in the resources in a territory being depleted quicker, and less resources for the rest of the tribe; requiring them to move to new territories. After three million years of humans living like hunter gatherers, it is estimated that the human population at the beginning of the Neolithic period was around ten million.

Then things changed very quickly for the tribes who invented Totalitarian agriculture. Women invented agriculture, resulting from their close association and experimentation with seeds and plants, in their role as foragers. This change occurred because some tribes started practicing a particular form of 'surplus agriculture' (hereinafter referred to as 'totalitarian agriculture') where farmers grew large surpluses of stored food. The consolidation of agriculture results in the centralization of political power: cities & civilization. Before the discovery of oil and coal, the practice of totalitarian agriculture farming was far more labour intensive than hunting and subsistence farming; so men took over agriculture; and women were now relegated to being brood sows, to breed economic and cannon fodder: children to work in the fields or be soldiers. Surplus food meant that some members of the tribe could now work in other specialized fields: soldiers, clerks, etc; and also that the tribes could grow their tribes population. World population doubled in three thousand years; and again in only two thousand years. It jumped from ten million to fifty million—probably eighty percent of them being practitioners of totalitarian agriculture. It was getting crowded.

Beginning of War is Peace War resulting from overbreeding and overconsuming: In all of three million years, humans had never been crowded anywhere. But now the people of practicing totalitarian agriculture were learning what it means to be crowded. Overworked, overgrazed land was becoming less and less productive. There were more people, and they were competing for dwindling resources; and people now began to organize their tribes into forms of standing armies to fight for land or resources. The tribes first war-making machinery: warlords—kings, princes, emperors and their nation states formed for the purpose of armed defense and aggression. "It's during this period that we see the standing army forged as the

monarch's sword of power. Without a standing army, a king is just a windbag in fancy clothes. But with a standing army, a king can impose his will on his enemies and engrave his name in history—and absolutely the only names we have from this era are the names of conquering kings. No scientists, no philosophers, no historians, no prophets, just conquerors. For the first time in human history, the important people are the people with armies.”

Evolution of War is Peace War: Advancement and acquisition of Human and Military Technology and Capital vs Breeding of CannonFodder: In a battle between two armies with the same level of military skill and technology; generally the bigger army wins. Many of history's military conquerors have relied on simply growing cannon fodder to slaughter on the battlefields to win their battles or wars. Some military conquerors focussed on improving their soldiers skills (psychological, physical, intellectual, spiritual, etc), technology (better armor, better swords, better chariots, better bows and arrows, better scaling machines, better rams, better artillery, better guns, better tanks, better planes, better bombs, better rockets, better nerve gas, better germs, better chemicals); and legal moral supremacist 'innocence for sale' indulgence interpretations psychological warfare doctrine. Many times small armies with greater technological equipment and/or military tactical or strategic skills won: There are many examples, but two are Battle of Blood River (guns), conquest of North and South America ([guns, germs & steel](#)).

WiP Resource Conflict: Initially economic, then political, and finally military organized conflict: Centuries of conflict over resources generated an international law social contract founded upon Masonic phallic force (rule of force international treaties); that rewarded those who engage in [seething energies of lucifer](#) breeding and consumption wars; which bribe their tribes members to believe it is their 'inalienable [freedumb slavery] right' to breed and consume above carrying capacity limits; while denying personal responsibility for the human factory farming organized violence conquer and culling racism, sexism, nationalism, socialism, capitalism, nazism, islamism, zionism, corporatism, stalinism, [human sacrifice culling](#), etc consequences; as people are motivated beyond retardation (motarded) to choose to join one or other ideological, religious, racial or cultural tribe to engage in resource war thieving to accumulate more resources to grow their tribe to enable it to protect itself from another tribes organized violence resource war thieving.

Totalitarian Agriculture's Luciferian Evil Human Sacrifice Harvest Religions:

“When The Mason learns that the Key to the warrior on the block is the proper application of the dynamo of living power, he has learned the Mystery of his Craft. The seething energies of Lucifer are in his hands and before he may step onward and upward, he must prove his ability to properly apply this energy.” - Manly Palmer Hall, *Illustrious: the Lost Keys of Freemasonry*

"in this case the defendants are not simply accused of planning or directing wholesale killings through channels. They are not charged with sitting in an office hundreds and thousands of miles away from the slaughter. It is asserted with particularity that these men were in the field actively superintending, controlling, directing, and taking an active part in the bloody harvest." - Nuremberg Military Tribunal, United States of America vs. Otto Ohlendorf, et. al. ("Einsatzgruppen trial"), Judgment.

All civilized religions — from Christianity, to Gnosticism, etc — were 'created' in the minds of man to comprehend the concept of 'evil' (aka organized violence), subsequent to man's invention of agriculture, approximately 10,000 years ago; and where such agriculture created

food surpluses, resulting in population surpluses, and expansion of their territory resulting in population pressure clashes with other tribes territories, resource war conflict.

Extended misery resulting from direct and psychic existential conflict resulted in man's attempt to understand so-called 'evil'; or put more simply: the organized resource thieving direct conflict (rape, murder, slavery, etc) resulting from population pressures and escalating relations with fellow humans based upon the absence of consent, i.e. extended periods of psychic and physical violence and coercion.

If there are two or ten people living on an island with enough food and other resources and space, for one hundred people; there is no need to coerce another for food or resources freely and abundantly available. In the absence of a resource scarcity conflict mindset, and plenty of space, tribal relations are more conducive to cooperation and sharing. Living in the moment. There is no need for an external God in the sky to explain 'evil'; there is only a consciousness to appreciate the source of resource abundance, as the 'source of life'; and to live in harmony with such source: nature. Violence is limited to food chain violence experienced by all species; namely hunting and being hunted by another predator for immediate food. [See also: Law of Limited Competition]

If the tribe introduces agriculture, which results in an agricultural surplus and uses such agricultural surplus to justify greater population; then as the population increases, so the population pressures increase. There is less space to run away from someone who may be temporarily angry, or wanting something another is not willing to provide in that moment. The existence of 'evil' (organized violence) is plausibly directly proportional to the resource war conflict, resulting from the tribe's violation of carrying capacity limits; and/or coming into contact with another tribe's territorial expansion as a result of their violation of carrying capacity limits. In attempting to understand the existential meaning of this symptom of 'evil' resulting from violation of carrying capacity limits resource war conflict, man created religions...

The invention of agriculture and agricultural surpluses, and subsequent organized violence of civilization are the biblical story of Adam and Eve's loss of living in carrying capacity harmony with the natural world resource abundant paradise, and Cain's choice to be a farmer. Others saw opportunities for socio-political status benefits from exploiting the reality of organized violence (evil), and suppressed this conscious reality of their intentions by invoking various phallic 'right' justifications for their 'right' to engage in organized violence (evil).

The Mason's 'seething energies of lucifer' are the psychological warfare art of manipulating and coercing men and women to overbreed and overconsume, to thereby aggravate resource war conflict, and the ability to divide and conquer people's, for the socio-political profit of the 'warrior', to 'step onward and upward'; as he 'proves his human sacrifice ability' to apply his breeding war and consumption war energies. Put differently, the 'seething energies of lucifer' are no less than the phallic justification for profiting from aggravating and perpetuating deliberate organized violence, without the consent of the recipients of the violence.

Totalitarian Agriculture WiP Tower of Babel Empires that violently collapsed: Humans who engage in totalitarian agriculture, engage in Predator-Prey Growth and Collapse of Civilization/Empire cycles: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan. Collapses result from (1) Ecological Strain due to procreation and consumption above ecological carrying capacity limits; and (2) Economic Stratification; and have included the disappearance of between 90-99% of

their populations (from famine, disease and organized violence resource wars) including their kings, Gods, calendars and other complex political and cultural institutions.

“Fate: Unintended Consequences: Catton: Seyright Mills of Columbia Univ's sociological definition of fate. Fate is what happens when innumerable people make innumerable small decisions about other matters that have the collective cumulative effect that nobody intended. That's what happened when we overpopulated the world. a fusion of forces that separated us from the laws of life... that told us that we could live apart from those laws of limits, without rules.” -- [What a Way to Go: Life at the End of Empire](#).

If humane deindustrialization and depopulation is implemented internationally as per ***EoP Cop21 Simple Root Cause Problem Solving Recommendation*** [PDF] submitted to UNFCCC & Cop 21; and/or [EoP complaint to ICC](#); it would have greater positive effects on re-forestation, biodiversity and climate change than the extremely violent depopulation implemented by Genghis Khan the Green; which only occurred in Eurasia; but resulted in massive reforestation and the plummeting of carbon levels.

Excerpts from: [Coupled climate–carbon simulations indicate minor global effects of wars and epidemics on atmospheric CO2 between AD 800 and 1850](#) study by Julia Pongratz; article: [Genghis Khan the GREEN: Invader killed so many people that carbon levels plummeted](#); [Carnegie: War, Plague No Match for Deforestation in Driving CO2 Buildup](#).

Genghis Khan has been branded the greenest invader in history - after his murderous conquests killed so many people that huge swathes of cultivated land returned to forest. The Mongol leader, who established a vast empire between the 13th and 14th centuries, helped remove nearly 700 million tons of carbon from the atmosphere, claims a new study. The deaths of 40 million people meant that large areas of cultivated land grew thick once again with trees, which absorb carbon dioxide from the atmosphere. And, although his methods may be difficult for environmentalists to accept, ecologists believe it may be the first ever case of successful manmade global cooling.

Genghis Khan and his Mongol hordes had an impact on the global carbon cycle as big as today's annual demand for gasoline. The Black Death, on the other hand, came and went too quickly for it to cause much of a blip in the global carbon budget. Dwarfing both of these events, however, has been the historical trend towards increasing deforestation, which over centuries has released vast amounts of carbon dioxide into the atmosphere, as crop and pasture lands expanded to feed growing human populations. Even Genghis Kahn couldn't stop it for long.

“It's a common misconception that the human impact on climate began with the large-scale burning of coal and oil in the industrial era,” says Julia Pongratz of the Carnegie Institution's Department of Global Ecology, lead author of a new study on the impact of historical events on global climate published in the January 20, 2011, online issue of *The Holocene*. “Actually, humans started to influence the environment thousands of years ago by changing the vegetation cover of the Earth's landscapes when we cleared forests for agriculture.”

Clearing forests releases carbon dioxide into the atmosphere when the trees and other vegetation are burned or when they decay. The rise in atmospheric carbon dioxide resulting from deforestation is recognizable in ice cores from Greenland and Antarctica before the fossil-fuel era.

But human history has had its ups and downs. During high-mortality events, such as wars and plagues, large areas of croplands and pastures have been abandoned and forests have re-grown, absorbing carbon dioxide from the atmosphere.

Pongratz decided to see how much effect these events could have had on the overall trend of rising carbon dioxide levels. Working with colleagues at the Max Planck Institute for Meteorology in Germany and with global ecologist Ken Caldeira at Carnegie, she compiled a detailed reconstruction of global land cover over the time period from 800 AD to present and used a global climate-carbon cycle model to track the impact of land use changes on global climate. Pongratz was particularly interested in four major events in which large regions were depopulated: the Mongol invasions in Asia (1200-1380), the Black Death in Europe (1347-1400), the conquest of the Americas (1519-1700), and the Fall of the Ming Dynasty in China (1600-1650).

“We found that during the short events such as the Black Death and the Ming Dynasty collapse, the forest re-growth wasn’t enough to overcome the emissions from decaying material in the soil,” says Pongratz. “But during the longer-lasting ones like the Mongol invasion and the conquest of the Americas there was enough time for the forests to re-grow and absorb significant amounts of carbon.”

The global impact of forest re-growth in even the long-lasting events was diminished by the continued clearing of forests elsewhere in the world. But in the case of the Mongol invasions, which had the biggest impact of the four events studied, re-growth on depopulated lands stockpiled nearly 700 million tons of carbon absorbed from the atmosphere. This is equivalent to the world’s total annual demand for gasoline today.

Pongratz points out the relevance of the study to current climate issues. “Today about a quarter of the net primary production on the Earth’s land surface is used by humans in some way, mostly through agriculture,” she says. “So there is a large potential for our land-use choices to alter the global carbon cycle. In the past we have had a substantial impact on global climate and the carbon cycle, but it was all unintentional. Based on the knowledge we have gained from the past, we are now in a position to make land-use decisions that will diminish our impact on climate and the carbon cycle. We cannot ignore the knowledge we have gained.”
