Tall Ships & Culture Change to EoP Honour Ecofootprint Shrinking Lifeboat Ethics?

According to Werner Erhard: “If we have any desire to create an alternative future, it is only going to happen through a shift in our language. If we want a change in culture, for example, the work is to change the conversation—or, more precisely, to have a conversation that we have not had before, one that has the power to create something new in the world.”

Are you willing to change the conversation; to have a conversation that has not been had before; to have a conversation about – [ecological overshoot](#) resource depletion [tipping points](#) and [resource conflict](#) – national resource shrinking lifeboats decision-making about ‘whom should be removed from the lifeboat aka national genepool; how should they be removed; how many should be removed; by whom and when should they be removed’?

If so: Here are excerpts of (i) *EoP v WiP NWO shrinking lifeboat ethics* correspondence to US Army Reserve Command Ft Bragg NC: [Leaders Shrinking Lifeboat Course Activity creates biases awareness](#); Rush Lumbaugh: [Obama’s Immigration Lessons](#); Werner Erhard Ideas and Applications: [Responsibility Decision-making & Culture Change requires conversation we have not had before](#) [EoP v WiP Negotiations: Transcript of Comments Correspondence [PDF](#)]; and (ii) ECSP Eco-footprint procreation factor to Gen David Petraeus [EoP Axis: Applicants: Req for Asst of Counsel: FSB-NSA: David Petraeus [PDF](#)]

Put Simply: Do you want a Culture Change to EoP Honour EcoFootprint Shrinking Lifeboat Ethics or is your 'culture change' rhetoric just verbal diarrhea pretend culture change; while you stay stuck in your 'Suck my - WiP human sacrifice to the EgoPhallic Gods – Dick; bitch' fragile ego Masonic culture?

Tall Ships and Honour:

I spent about five years working as a deckhand, able body seaman, first mate and captain on various yachts from 42 ft sloop; to a 45 meter schooner: [S.Y Aiglon](#); at that time owned by the Bavarian Thurn and Taxis Royal Family; to 360 ft tallship [S.Y. Sea Cloud](#). I was the first woman ever hired to work on S.Y. Aiglon; all former crew were members of German military; and one civilian American: Kenny Libby.

I was also the first person to inform Bavarian Royalty they could keep their sailing job and shove it up their ass; when they expected me to shut the fuck up about being treated like a slave, not a human being.

On S.Y. Sea Cloud; I first told them they could keep their Spokesperson job and shove it up their ass; followed by their deckhand job:

On S.Y. Sea Cloud, I worked firstly as a deckhand and later as an able bodied seaman. S.Y. Sea Cloud has German and American officers on six month contracts; a full time Phillipino deck, kitchen and engineering crew, and part-time six month contract European youngsters deck and silver service crewmembers. The male and female Phillipino and Europeans deck crew all share one big communal bunkhouse. The majority of the Phillipino deck and engineering crew are married with families in the Phillipines, but pretend to be single, so as to fuck – consensually or by coercion -- the dumbfuck young European white meat women. Initially they engage in 'you are so beautiful, I love you, and want to marry you' crap, and if that does not work, they engage in coercion. I was not sexually interested in any of them, although I was happy to just be friends and was appointed spokesperson for all the deck crew. It did not last long, because I informed the crew and the captain that I had no problem with young European women fucking anyone whom they wish to fuck, but I suggested that all sexual relations be based upon fully informed consent honesty, from both sides. That the men who were married, be honest about their family status, who are engaging in frequent fucking of white meat, be required to engage in safe sex practices, if their white meat European sluts, requested such safe sex practices. All the white male deck crew were furious with me, allegedly cause I had 'insulted the Philipino's'. According to their 'Euro-occidental values' it was more important not to insult fragile ego Phillipino males who were abusing their 'euro-occidental' female colleague deck crew, than it was to stand up as proud Euro-Occidental white males with a pair of balls, and demand that these sexual predatory Phillipino's engage in honest, and honourable transparent sexual practices with Euro-Occidental women.

The captain, a Euro-Occidental German refused to implement an honest transparent sexual relation policy for crew relationships. The captain and/or the German shipping company – Sea Cloud – officials refused. It would interfere with their profiteering off of white meat. It turned out that 'white meat' from dumbfuck ignorant little blond and blue eyed Euro Occidental teenagers, was one of the 'financial perks' being given to the married, many with sexually transmitted diseases, Phillipino crew. Honesty, honour and transparent race and safe sexual relations practices were very low on their totem pole of 'euro-occidental' values; when such

values came into conflict with using their own so-called 'euro-occidental' teenager children for the profit of corporate euro-occidental elite's profits.

The only person who supported my honesty, honour and transparent race and sexual relations crew policy suggestions on that ship was the Safety Officer: Shaun Cassidy, a former United States Marine. The Phillipino's were furious, and I received many death-threats. I resigned from my spokesperson job; and informed the Captain that if he refused to inform Sea Cloud to amend their white meat slavery practices; I would nullify my contract. He refused to amend the white meat slavery practices. I nullified my contract and left S.Y. Sea Cloud in Piraeus.

A copy of all my written references; including those from S.Y. Sea Cloud can be found in the complaint to the International Criminal Court: [Lara Johnstone v Desmond Tutu et al.](#)

Culture Change to EoP Honour Ecofootprint Shrinking Lifeboat Ethics:

Green Industrial Economy Fraud:

The Green Industrial Economy is impossible because of [Peak Non-Renewable Natural Resources](#); as comprehensively detailed by Christopher Clugston; in *Scarcity: Humanity's Last Chapter: A Comprehensive Analysis of Nonrenewable Natural Resource (NNR) Scarcity's Consequences.*

Scientists Denial of Procreation Factor in carbon or eco-footprint measurements:

See for example: * Study of [Paul A. Murtaugh](#), Michael G. Schlax (2009): *Reproduction and the carbon legacies of individuals*; Global Environmental Change, 19 (2009) pp. 14-20; Every Child Increases a Woman's Carbon Footprint by a factor of 20: A woman can reduce her carbon footprint 19 times more by having one fewer child than by all other energy efficiency actions the E.P.A. suggests combined; * Al Bartlett: [China One Child Policy climate change negotiation arguments.](#) * BBC Africa: [Ghanaian Cardinal says birth control could offer solution to climate change](#); * 2010: Thou Shalt Not Breed: Anglicans; copy available at: [Mencken -- Licensed to Breed DieOff – Monkeylaw Prophets](#); * ECSP: [Environmental Researchers and the Touchy Topics of Family Planning and Population.](#)

* ~~~~~ * * ~~~~~ *

“Capitalist WiP growth destroys the environment decreasing the nation's lifeboat resources. Communist WiP growth destroys the environment decreasing the nation's lifeboat resources. The only difference is that capitalist growth does it faster and with greater economic inequality. When nations choose to follow a Masonic capitalist or communist economic growth or population growth plan; they are buying a ticket on the Titanic liferaft. Whether they purchase a capitalist first-class or communist third class steerage Titanic liferaft ticket, they are purchasing a Shrinking Lifeboat Titanic ticket; where the end sinking of the WiP capitalist/communist titanic economy liferaft result is the same.” – amended quote of Albert Bartlett

In Garrett Hardin's: [Living on a Lifeboat](#) and [Lifeboat Ethics: The Case Against Helping the Poor](#); the basic access to resources leadership decision was 'nations resource lifeboat is not full yet, whom of those drowning in the water; should we give the opportunity to get into our national lifeboat; and whom should we just allow to drown'.

In US Army's Lifeboat Ethics while not explicitly stated in the course material; that – in terms of **ecological overshoot** resource depletion **tipping points** and **resource conflict** – all nations on Earth's resource lifeboats are not only full; but shrinking so now the decision is not 'whom to let in' but 'whom should be removed from the lifeboat aka national genepool; how should they be removed; how many should be removed; by whom and when should they be removed'?

Ecology of Peace v WiP NWO Shrinking Lifeboat negotiations questions:

This is a similar question to two EoP v WiP NWO negotiations questions [[PDF](#)]:

- V. Putin: New-EoP-Gotit or [current Masonic] No-Los-Pepes Evacuation Rules?
- A. Muhrteyn: Revolution in Military Ethics question: Defining just and unjust actions in war and military conflict: the operative question: Whom should the military kill?

Summary: Ecology of Peace Culture Shrinking Lifeboat Ethics Answers:

The Ecology of Peace culture's answer to these shrinking lifeboat questions:

Summary:

Whom should be removed from the lifeboat & how many should be removed:

- All citizens from whatever nation, race, religion or class whose procreation and/or consumption has been and is above ecological carrying capacity limits; who refuse to commit in writing to reduce their consumption and/or procreation to ecological carrying capacity limits; should be evacuated from the planetary genepool lifeboat by national criminal justice government departments.

How should they be removed; by whom and when should they be removed'?

- Worlds Attorney Generals should cooperate to implement an Ecology of Peace international law social contract that requires all the worlds citizens to procreate and consume below ecological carrying capacity limits.
- Once implemented: all citizens from whatever nation, race, religion or class whose procreation and/or consumption has been and is above ecological carrying capacity limits; who refuse to commit in writing to reduce their consumption and/or procreation to ecological carrying capacity limits; should be evacuated from the planetary genepool lifeboat by national criminal justice government departments.
- If or where any nation's Attorney General obstructs the implementation of Ecology of Peace international law social contract; they should provide reasons for their legal obstruction behaviour to the International Criminal Court; and/if or when they refuse to do so; should be coerced into doing so by the implementation of EoP Axis Military Necessity Mutual Coercion Psychotronic Evacuation processes which shall psychotronically evacuate lotto nations scarcity combatant and breeding/consumption war citizens who have not signed EoP Axis Oaths from the planetary genepool.

More Info: Ecology of Peace Culture Shrinking Lifeboat Ethics Answers:

Aforementioned Ecology of Peace shrinking lifeboat ethics answers can be found in greater detail in — *EoP Cop21 Simple Root Cause Problem Solving Recommendation* [PDF] – and – *EoP Malheur Simple Root Cause Problem Solving Recommendation* [PDF]; and [Ecology of Peace options](#) to politically, legally and/or militarily implement an Ecology of Peace International law social contract documents. EoP options being: [Amendment of UN Prisoner of War Treaty](#); [EoP Referendum](#); [EoP ICC Complaint](#) and [EoP Military Necessity Mutual Coercion Psychotronic Evacuation](#); excerpts of which follow:

* ~~~~~ * * ~~~~~ * * ~~~~~ * * ~~~~~ *

Put simply: Our choices are between Ecology of Peace humane, orderly and relatively non-violent deindustrialization and depopulation; and Masonic War is Peace extremely violent Mad Max race wars, religious wars, four horses of the apocalypse Armageddon deindustrialization and depopulation.

~~~~~

“...an organization cannot have a conservation policy without having a population policy....the problem solving or parasite leeching test — in which the candidate, confronted with an overflowing sink, is classified according to whether he reaches for the faucet or the mop.” – Amended quote of Daniel B. Luten; as quoted by William Milton Cooper in *Behold a Pale Horse*.

“It really doesn't matter, because either way we're screwed. The quicker you understand that, the wiser you become. I believe that any man without principles that he is ready and willing to die for at any given moment is already dead and is of no use or consequence whatsoever. ... If the people really cared about their fellow man, they would control their appetites (greed, procreation, etc.) so that they would not have to operate on a credit or welfare social system which steals from the worker to satisfy the bum. Since most of the general public will not exercise restraint, there are only two alternatives to reduce the economic inductance of the system. (1) Let the populace bludgeon each other to death in war, which will only result in a total destruction of the living earth. (2) Take control of the world by the use of economic "silent weapons" in a form of "quiet warfare" and reduce the economic inductance of the world to a safe level by a process of benevolent slavery and genocide. The latter option has been taken as the obviously better option. At this point it should be crystal clear to the reader why absolute secrecy about the silent weapons is necessary. The general public refuses to improve its own mentality and its faith in its fellow man. It has become a herd of proliferating barbarians, and, so to speak, a blight upon the face of the earth. They do not care enough about economic science to learn why they have not been able to avoid war despite religious morality, and their religious or self-gratifying refusal to deal with earthly problems renders the solution of the earthly problem unreachable by them. It is left to those few who are truly willing to think and survive as the fittest to survive, to solve the problem for themselves as the few who really care. You must accept that you have been cattle and the ultimate consequence of being cattle — which is slavery — or you must prepare to fight, and if necessary die to preserve your God-given right to Freedom.” *Silent Weapons for Quiet Wars*; Milton William Cooper; *Behold a Pale Horse*.

So I am going to provide you a ‘reach for the faucet’ response to Sheriff Mack’s statement in the Truth in Media interview: “To whom can the people turn for peace, safety and liberty; when

government becomes out of control and corrupt. If its not your local sheriff; to whom else can you go?"

If any of the disputing parties are sincere about encouraging American veterans, ranchers and citizens to support peace, safety and liberty; I imagine an Ecology of Peace [William Wilberforce](#) and [Eric Liddle](#) would suggest that more than singing Amazing Grace shall be required to free ourselves from [human factory farming slavery enslavement](#); we shall need to have the courage to give up our addiction to the [false left and right wing moral supremacist bullshit propaganda](#) and individual and corporate welfare at the expense of the ecological resource commons that provides us with survival sustenance; and publicly confront the [phallic human sacrifice War is Peace](#) foundation of our secular or theocratic – capitalist, communist, libertarian, socialist, Christian, Muslim, Catholic, Buddhist, etc – religions; and cooperate with national and international authorities to – hopefully nonviolently – [implement an Ecology of Peace](#) international law social contract that requires all the worlds citizens from all races, classes, religions and cultures to procreate and consume below ecological carrying capacity limits.

“If the economy / your bible / Koran / Torah / Talmud / Masonic Constitution is more important to you than the environment; try holding your breath; while you count your money / read your bible / Koran / Torah / Talmud / Masonic Constitution; and tell me what is more important to your survival: protecting the ecological carrying capacity resource foundation of life: our air, water and food by implementing an international social contract that restricts everyone’s breeding and consumption to ecological carrying capacity limits; so that all species on Earth can continue breathing, drinking clean water; and having organic food to eat; or counting your money / reading your Bible / Koran / Torah / Talmud / Masonic Constitution.” – amended quote of Guy McPherson; who coined the term ‘Near Term Extinction’ [NTE] which he writes about on his blog: Nature Bats Last.

~~~~~

General Mike Flynn: [You can’t defeat an enemy you don’t admit exists.](#)

Any form of capitalism that allows citizens to procreate and/or consume above ecological carrying capacity limits; cannot – according to Tragedy of the Commons principles – do anything else but degenerate into predatory capitalism aka fascism. Of interest regarding the future impending consequences of planetary predatory capitalism: Real News: [Paul Jay’s Reality Asserts Itself: Who Makes US Foreign Policy interview of Lawrence Wilkerson](#); particularly the [predatory capitalism](#) part; which deals with the necessity of the great powers cooperating to implement a new economic order; to address the massive impending planetary social conflict problems resulting from climate change, peak food, peak water, peak oil, including how and where to bury 6 billion people.

“If you can't explain it simply, you don't understand it well enough.” - Albert Einstein

1. Economic inequality; psycho-social resource conflict conformity pressures; climate change, food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, nation states standing army or dissident guerrilla army ‘terrorism’ resource war military aggression, etc – are a direct and indirect consequence of overpopulation and overconsumption.

2. Overconsumption and overpopulation are a direct consequence of humans procreating and consuming above ecological carrying capacity limits.
3. Humans procreate and consume above ecological carrying capacity limits because the current international law social contract; allows nation states to provide their citizens with the implied 'right to breed and consume with total disregard for ecological carrying capacity limits'.
4. Humans will stop procreating and consuming above ecological carrying capacity limits when legislators amend the current international law and national constitutional social contract statutes that enable procreation and consumption above ecological carrying capacity limits; to specifically require all the worlds/their nations citizens to procreate and consume below ecological carrying capacity limits.

In the – amended – wording of Dr. Al Bartlett: Living on a planet where cultures are based upon Masonic War is Peace right to breed/consume social contract principles is like buying a ticket on the Titanic; if you're smart you go Capitalist first class; or you can go cheap Communist or Primitivist steerage third class. In all cases, the sinking of the culture from ecological overshoot resource depletion result is the same. But if the social contract gives the people the choice, most people would go fast, flashy and first class.

As reported in Nasa funded [Human \(Predator\) and Nature \(Prey\) Dynamics \(HANDY\) studies](#): Humans who engage in [totalitarian agriculture](#), engage in Predator-Prey Growth and Collapse of Civilization/Empire cycles: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan. Collapses result from (1) Ecological Strain and (2) Economic Stratification and include the disappearance of between 90-99% of the populations (from famine, disease and organized violence resource wars) including their kings, Gods, calendars and other complex political and cultural institutions.

Economic Stratification Collapse occurs due to unequal consumption of resources generating Elites vs Commoners. As Elites become sizable and keep growing, they consume more; their over-exploitation results in collapse of resources to the Commoners; who experience famine and collapse. Elites -- due to their wealth -- do not suffer the detrimental effects of environmental collapse until much later than Commoners, which allows them to continue 'business as usual', despite the impending catastrophe; explaining how historical collapses were allowed to occur by seemingly oblivious elites (eg Roman & Mayan cases).

As clarified by Garrett Hardin in [Tragedy of the Commons](#); in the absence of a social contract that eliminates 'breeding/consumption' cheaters from the genepool; a social contract that provides for no 'elimination from the genepool' consequences for 'breeding / consumption war cheaters; effectively results in other members of the culture being forced to engage in breeding / consumption war cheating; for offence or defence of their resources purposes; which sets in motion a breeding / consumption war ratrace. This reality was observed shortly after the invention of totalitarian agriculture; and the elite of the time decided rightly or wrongly that their only option was for the elite to [divide and conquer](#) manage and profit from the 'breeding / consumption war'; which is one of the 'human sacrifice' 'secrets' of '[oroborous mystery phallic worship religions](#)'.

If economists and journalists are sincere about establishing an economic system based upon resource footprint morality; and abolishing the **human factory farming slavery** system; I imagine an Ecology of Peace **William Wilberforce** and **Eric Liddle** would suggest that to free ourselves from **enslavement** we shall need to have the courage to give up our addiction to the **false left and right wing moral supremacist bullshit propaganda** and individual and corporate welfare at the expense of the ecological resource commons that provides us with survival sustenance; and publicly confront the **phallic human sacrifice War is Peace** foundation of our secular or theocratic – capitalist, communist, libertarian, socialist, Christian, Muslim, Catholic, Buddhist, etc – religions; and cooperate with national and international authorities to – hopefully nonviolently – **implement** an **Ecology of Peace** international law social contract that requires all the worlds citizens from all races, classes, religions and cultures to procreate and consume below ecological carrying capacity limits.

Ecological Reality Facts being: (a) Earth is not flat; (b) Earth renewable and non-renewable resources are finite; (c) When humans breed or consume above ecological carrying capacity limits, it results in resource conflict; (d) To sustainably protect and conserve natural resources in accordance to **local and national carrying capacity limits**; and restrict **national and international inter-cultural resource war conflict**; humans must implement an **Ecology of Peace** international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

~~~~~

All ideas are not equal.

If some Vietnam Phoenix project terrorists have thrown you out of a plane with a parachute; but you don't know how to work a parachute; then the idea of *'I better think about how to pull the ripchord for my parachute so that I can defy gravity with a scientifically proven method of defying gravity: namely a parachute'* and *'I can defy gravity with some Masonic verbal gymnastics; and once I have redefined gravity so that it does not apply to fuck honour tits and ass kikes New Yorkers; God will amend gravity in accordance to my Masonic law new definition demands'* are not equal.

“Paris is currently choking with ego fuck honour White, Black, Chink, Paki, Coolie, Kike Power environmental moral supremacists; who will continue to whine and whine and whine and whine

and whine and whine and whine about food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, climate change, feminism, nazism, Islamism, capitalism, communism, militarization of police, etc; while doing sweet goddamn fuck all about the Masonic War is Peace right to breed/consume with total disregard for ecological carrying capacity limits international law social contract; that is the root cause of everything they whine about.”

Put differently:

If the Cop 21 Secretariat gave a fuck about beginning to educate yourselves, those attending your ‘Climate Change Conference’, journalists and the worlds citizens about the scientific ripchord as opposed to the Masonic verbal gymnastics information regarding root causes of Climate Change: namely overpopulation and overconsumption; whose causes are the [Masonic War is Peace](#) -- right to breed and consume with total disregard for [ecological carrying capacity limits](#) -- international law social contract; you would have invited any one of the following speakers to present their information; to begin the educational persuasion process as to how and why it is a matter of [military necessity](#) to implement an [Ecology of Peace](#) international law social contract; that restricts all the worlds citizens from all races, classes and religions to breeding and consuming below [ecological carrying capacity limits](#).

“Climate Change will become a defense and security issue, for four major reasons. There will be water wars, there will be oil wars, there will be massive migration on a scale the world has never seen, and there will be massive food insecurity. The two things of importance to the United States and UK will be issues of migration, which we already have problems with in Europe and the US. It will get much much more extreme. .. So much of our food is derived from Africa and Central and South America, if that starts to fail .. there could be rioting. There is an expression which is called nine meals from anarchy.” – Rosie Boycott, Former Editor of the Independent; [Climate Change and National Security](#).

* ~~~~~ *

Current International Law Right to Breed & Consume:

There are many examples of current international law statutes that directly and indirectly provide citizens with the right to breed and/or consume above ecological carrying capacity limits; and lawyers, prosecutors and Judges who apply them, all while pretending their courts are concerned with ‘truth’ and ‘evidence’; pretending they have fuck all clue why and how those

statutes result in food shortages & inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources and climate change; inter-racial, religious and cultural social conflict; psycho-social conflict; not to mention overpopulation and consumption resource depletion and scarcity induced [resource wars](#); which sometimes manifest as genocide and holocausts.

Put simply: unlike [Arthur Edens](#) and [Michael Clayton](#) – they are in total denial that they are Sheva the legal cryptic gods of death.

[..]

Summary of the origins and practices of Sheva & Lucifer the cryptic gods of death:

The following are – in my view relevant excerpts from – EoP PoW et al -v- Norwegian Nobel Committee et al; for your consideration:

-----Excerpt: EoP PoW et al -v- Norwegian Nobel Committee et al -----

AnthroCorpocentric Jurisprudence’s Innocence for Sale Indulgence Legal Matrix:

“Corporations are a Frankenstein monster which States have created by their corporation laws.” - Supreme Court Justice Louis D. Brandeis, 1916

“Every right must be evaluated in the network of all rights claimed and the environment in which these rights are exercised. If we hold that every right, “natural” or not, must be evaluated in the total system of rights operating in a world that is limited, we must inevitably conclude that no right can be presumed to be absolute, that the effect of each right on the suppliers as well as on the demanders must be determined before we can ascertain the quantity of right that is admissible. From here on out, ours is a limited world. Rights must also be limited. The greater the population, the more limited the per capita supply of all goods; hence the greater must be the limitation on individual rights, including the right to breed. At its heart, this is the political meaning of the population problem.” – Garrett Hardin, Limited World, Limited Rights

Civilized Patriarchy’s Legal Matrix Reality doctrine -- the Inalienable ‘Right to Breed and Consume, but you need a License to Own a Gun, a License to Drive a Car, a License to Practice Law, a television license, a credit license, a license to earn a living, a university exemption license, a license to fish, a license to hunt, a liquor license, a business license, a marriage license, in some U.S. states, five year olds, even need to get a license to run a lemonade stand on their front lawn -- hypocritically referred to as the ‘rule-of-law’ is a legal world of lawyers, politicians and priests, who prefer to negligently ignore, plausibly deny, or socio-psycho-phallicly benefit from the conquer-and-multiply and divide and conquer control over the means of human reproduction and consumption. It is a Matrix reality, of legal, political and religious indulgence salesmen.

It is a legal world, very similar to the Matrix religious world that existed before Martin Luther confronted the religious indulgence salesmen with his Ninety-Five Theses, on the Church of All Saints, on 31 October 1517, thereby initiating the Protestant Reformation.

In the Catholic Church's religious Matrix world, only Catholic Bishops were entitled to be interpreters of the 'word of god'. Only they could decide what God meant, about who was guilty and who was innocent, who would go to hell and who would go to heaven. God did not speak to common people, except via the Catholic Church's bishops.

In Civilized Patriarchy's Legal Matrix world, only those who swear blind obedience to Civilized Patriarchy's Legal Matrix world – lawyers, prosecutors and judges – are deemed to possess the supposed superior intellectual Legal Godlike capabilities, to decipher, decode and interpret the 'word of civilized patriarch gods', hence capable of deciding which of us mere Commons surplus cannon fodder mortals acts of commission, or omission, is 'lawful' or 'unlawful'.

Civilized Patriarchy's Legal Matrix 'AnthroCorpocentric law' is based upon Flat Earth 'jurisprudence', as per the demands of those capable of purchasing Flat Earth legislation indulgences which make their ecologically – breeding/consumption war -- criminal acts, to be deemed as 'legal/lawful' conduct by the Legal Matrix Bishops: lawyers, prosecutors and Judges.

It is a Matrix world of legal indulgence salesmen; who -- 'Contempt in Facie Curiae' -- demand the public's sycophantic submissive obedience; for their supposed superior intellectual Godlike capabilities, to decipher, decode and interpret which of us mere Commons surplus cannon and vote fodder mortals acts of commission, or omission, is 'lawful' or 'unlawful'.

Thieving, Conquering, Murdering and Culling Acts of Un/Lawfulness:

"Military men are just dumb, stupid animals to be used as pawns in foreign policy." - Henry Kissinger; *The Final Days*, by Bob Woodward & Carl Bernstein

Surplus vote fodder citizens may convert to becoming cannon-fodder citizens by joining the military to commit conquering or culling acts of murder and theft, as long as their murder and theft is sanctioned as a lawful conquer, culling or theft order, by one or more groups of left/right conquer-and-multiply legal indulgence salesmen.

In this Matrix Reality legal world, soldiers tasked with the national security conquering and culling responsibilities, of conquering to thief another tribe's resources, and culling population 'useless eaters' and 'oxygen thieves' surplus population excesses; on behalf of the conquering and culling profiteering demands of civilized patriarchy's civilian corporate and political elite; constantly find themselves confronted with the conquer-or-culling "Befehl ist Befehl" Catch 22 dilemma:

To obey, or not to obey, a 'Lebensraum', 'Difaqane', 'Operation Freedumb' and the thousands like them, order to conquer or cull; since a lawful conquer or culling order, by one group of left/right conquer-and-multiply legal indulgence salesmen, can easily be reinterpreted to be an unlawful order, by another group of opposing left/right conquer-and multiply legal indulgence salesmen; presenting a Catch 22 dilemma from which there is no legal escape.

One who refuses a 'lawful' conquering or culling order will still probably be jailed for refusing orders, and one who accepts an 'unlawful order will be jailed for committing unlawful culling or conquering acts.

Who decides, what is, and what is not, a conquering or culling *lawful*, or *unlawful* order?

The 'Inalienable Right to Breed' Matrix Reality conquer-and-multiply indulgence salesmen, with their specious justifications, and nightmare of Legal Matrix reality generated bureaucratic stare-decisis cryptic rules and statutes, of course!

"I don't know what you mean by 'glory,'" Alice said.

Humpty Dumpty smiled contemptuously. "Of course you don't—till I tell you. I meant 'there's a nice knock-down argument for you!'"

"But 'glory' doesn't mean 'a nice knock-down argument'," Alice objected.

"When I use a word," Humpty Dumpty said, in rather a scornful tone, "it means just what I choose it to mean—neither more nor less."

"The question is," said Alice, "whether you can make words mean so many different things."

"The question is," said Humpty Dumpty, "which is to be master—that's all."

-- Through the Looking Glass, by Lewis Carroll

Anthropocentric Master's of 'Relevance' Jurisprudence:

The question in a civilized patriarchy court is only concerned with who is the master of one word: '*relevance*'.

Any question or answer that exposes civilized patriarchy's Legal Matrix system for what it is; a system far more corrupt than the Catholic Church's Indulgences for Sale religious matrix, is simply deemed as 'irrelevant'.

It is 'irrelevant' that legislators, lawyers, courts and judges defy the laws of ecology with a massive 'fuck you', by legislating, interpreting and enforcing Legal Matrix doctrine, that encourages citizens to breed and consume above cultural carrying capacity limits.

It is 'irrelevant' that legislators, lawyers, courts and judges know that legislation which ignores carrying capacity limits results in ecological overshoot, surplus vote-cannon-fodder populations, economic hierarchical inequality, and scarcity induced local, national and international conflict.

It is 'irrelevant' that legislators, lawyers, courts and judges know that legislation which enables ecological overshoot in multi-cultural/ethnic/religious communities, manifests as inter-cultural / ethnic / religious conflict.

It is 'irrelevant' that legislators, lawyers, courts and judges know that inter-cultural / ethnic conflict is a great divide and conquer tool to manipulate the proletariat to perceive other cultural/ethnic proletariat as the source of their own overshoot-scarcity-conflict misery.

It is 'irrelevant' that legislators, lawyers, courts and judges sit in judgement about an accused's case of theft or murder; while consciously ignoring the theft and thievery and participation in mass murder of the civilized patriarchy corporate elite, who purchased 'Innocence for Sale' Indulgences from legislators to avoid legislation that defines their ecologically criminal acts of billion and trillion dollar thievery and murder as 'unlawful'.

What is relevant?:

It is relevant that civilized patriarchy's penis constitutions human factory farming rights to breed and consume, is to be master —that's all.

Who says so?:

Civilized Patriarchy's ecologically illiterate Legal Matrix Legislator's, lawyers, judges and prosecutors ego-genitals say so!

[..]

Totalitarian Agriculture as the source of Taker resource scarcity social-conflict contract problems:

The problems with Taker social contract occurred with the invention of Totalitarian agriculture; which describes the behaviour of humans who violate their original indigenous tribal territory's by choosing to engage in surplus food production (economic growth); resulting in surplus human (population growth).

When any tribe of humans overbreed and/or overconsume the natural resources in their perceived tribal territory; they travel beyond their tribal territory to go and find resources they have over-consumed and degraded. When such a tribe enters another tribes territory, then conflict occurs (from economic, political to physical, an organized violence warfare). To limit inter-tribal territorial resource acquisition conflict, all tribes must agree to limit procreation and consumption to their tribal territory ecological carrying capacity limits.

Simplistically the history of war can be summed up as: Every single battle between two groups of racial, religious, ethnic, or ideological warriors, engaged in organized violence resource thieving or defence, since the advent of [totalitarian agriculture](#), was a result of one or both of those tribes having overbred and/or overconsumed, and engaging in resource thieving into another tribes territory.

Since the beginning of humans (whatever you believe that beginning to be) humans lived in nomadic hunter gatherer tribes, like the Bushmen, Aborigine's, etc. Male duties were to hunt and protect the tribe. Women's duties were to forage and nurture the young. Both men and women contributed to the tribe's economic resources and duties, hence power was shared reasonably equally. Tribes were concerned about not overbreeding; since such overbreeding resulted in the resources in a territory being depleted quicker, and less resources for the rest of the tribe; requiring them to move to new territories. After three million years of humans living like hunter gatherers, it is estimated that the human population at the beginning of the Neolithic period was around ten million.

Then things changed very quickly for the tribes who invented Totalitarian agriculture. Women invented agriculture, resulting from their close association and experimentation with seeds and plants, in their role as foragers. This change occurred because some tribes started practicing a particular form of 'surplus agriculture' (hereinafter referred to as 'totalitarian agriculture') where farmers grew large surpluses of stored food. The consolidation of agriculture results in the centralization of political power: cities & civilization. Before the discovery of oil and coal, the practice of totalitarian agriculture farming was far more labour intensive than hunting and subsistence farming; so men took over agriculture; and women were now relegated to being brood sows, to breed economic and cannon fodder: children to work in the fields or be

soldiers. Surplus food meant that some members of the tribe could now work in other specialized fields: soldiers, clerks, etc; and also that the tribes could grow their tribes population. World population doubled in three thousand years; and again in only two thousand years. It jumped from ten million to fifty million—probably eighty percent of them being practitioners of totalitarian agriculture. It was getting crowded.

Beginning of War is Peace War resulting from overbreeding and overconsuming: In all of three million years, humans had never been crowded anywhere. But now the people of practicing totalitarian agriculture were learning what it means to be crowded. Overworked, overgrazed land was becoming less and less productive. There were more people, and they were competing for dwindling resources; and people now began to organize their tribes into forms of standing armies to fight for land or resources. The tribes first war-making machinery: warlords—kings, princes, emperors and their nation states formed for the purpose of armed defense and aggression. “It’s during this period that we see the standing army forged as the monarch’s sword of power. Without a standing army, a king is just a windbag in fancy clothes. But with a standing army, a king can impose his will on his enemies and engrave his name in history—and absolutely the only names we have from this era are the names of conquering kings. No scientists, no philosophers, no historians, no prophets, just conquerors. For the first time in human history, the important people are the people with armies.”

Evolution of War is Peace War: Advancement and acquisition of Human and Military Technology and Capital vs Breeding of CannonFodder: In a battle between two armies with the same level of military skill and technology; generally the bigger army wins. Many of history’s military conquerors have relied on simply growing cannon fodder to slaughter on the battlefields to win their battles or wars. Some military conquerors focussed on improving their soldiers skills (psychological, physical, intellectual, spiritual, etc), technology (better armor, better swords, better chariots, better bows and arrows, better scaling machines, better rams, better artillery, better guns, better tanks, better planes, better bombs, better rockets, better nerve gas, better germs, better chemicals); and legal moral supremacist ‘innocence for sale’ indulgence interpretations psychological warfare doctrine. Many times small armies with greater technological equipment and/or military tactical or strategic skills won: There are many examples, but two are Battle of Blood River (guns), conquest of North and South America ([guns, germs & steel](#)).

WiP Resource Conflict: Initially economic, then political, and finally military organized conflict: Centuries of conflict over resources generated an international law social contract founded upon Masonic phallic force (rule of force international treaties); that rewarded those who engage in [seething energies of lucifer](#) breeding and consumption wars; which bribe their tribes members to believe it is their 'inalienable [freedumb slavery] right' to breed and consume above carrying capacity limits; while denying personal responsibility for the human factory farming organized violence conquer and culling racism, sexism, nationalism, socialism, capitalism, nazism, islamism, zionism, corporatism, stalinism, [human sacrifice culling](#), etc consequences; as people are motivated beyond retardation (motarded) to choose to join one or other ideological, religious, racial or cultural tribe to engage in resource war thieving to accumulate more resources to grow their tribe to enable it to protect itself from another tribes organized violence resource war thieving.

Totalitarian Agriculture’s Luciferian Evil Human Sacrifice Harvest Religions:

“When The Mason learns that the Key to the warrior on the block is the proper application of the dynamo of living power, he has learned the Mystery of his Craft. The

seething energies of Lucifer are in his hands and before he may step onward and upward, he must prove his ability to properly apply this energy.” - Manly Palmer Hall,
Illustrious: the Lost Keys of Freemasonry

"in this case the defendants are not simply accused of planning or directing wholesale killings through channels. They are not charged with sitting in an office hundreds and thousands of miles away from the slaughter. It is asserted with particularity that these men were in the field actively superintending, controlling, directing, and taking an active part in the bloody harvest." - Nuremberg Military Tribunal, United States of America vs. Otto Ohlendorf, et. al. ("Einsatzgruppen trial"), Judgment.

All civilized religions — from Christianity, to Gnosticism, etc — were ‘created’ in the minds of man to comprehend the concept of ‘evil’ (aka organized violence), subsequent to man’s invention of agriculture, approximately 10,000 years ago; and where such agriculture created food surpluses, resulting in population surpluses, and expansion of their territory resulting in population pressure clashes with other tribes territories, resource war conflict.

Extended misery resulting from direct and psychic existential conflict resulted in man’s attempt to understand so-called ‘evil’; or put more simply: the organized resource thieving direct conflict (rape, murder, slavery, etc) resulting from population pressures and escalating relations with fellow humans based upon the absence of consent, i.e. extended periods of psychic and physical violence and coercion.

If there are two or ten people living on an island with enough food and other resources and space, for one hundred people; there is no need to coerce another for food or resources freely and abundantly available. In the absence of a resource scarcity conflict mindset, and plenty of space, tribal relations are more conducive to cooperation and sharing. Living in the moment. There is no need for an external God in the sky to explain ‘evil’; there is only a consciousness to appreciate the source of resource abundance, as the ‘source of life’; and to live in harmony with such source: nature. Violence is limited to food chain violence experienced by all species; namely hunting and being hunted by another predator for immediate food. [See also: Law of Limited Competition]

If the tribe introduces agriculture, which results in an agricultural surplus and uses such agricultural surplus to justify greater population; then as the population increases, so the population pressures increase. There is less space to run away from someone who may be temporarily angry, or wanting something another is not willing to provide in that moment. The existence of ‘evil’ (organized violence) is plausibly directly proportional to the resource war conflict, resulting from the tribe’s violation of carrying capacity limits; and/or coming into contact with another tribe’s territorial expansion as a result of their violation of carrying capacity limits. In attempting to understand the existential meaning of this symptom of ‘evil’ resulting from violation of carrying capacity limits resource war conflict, man created religions...

The invention of agriculture and agricultural surpluses, and subsequent organized violence of civilization are the biblical story of Adam and Eve’s loss of living in carrying capacity harmony with the natural world resource abundant paradise, and Cain’s choice to be a farmer. Others saw opportunities for socio-political status benefits from exploiting the reality of organized violence (evil), and suppressed this conscious reality of their intentions by invoking various phallic ‘right’ justifications for their ‘right’ to engage in organized violence (evil).

The Mason's 'seething energies of lucifer' are the psychological warfare art of manipulating and coercing men and women to overbreed and overconsume, to thereby aggravate resource war conflict, and the ability to divide and conquer people's, for the socio-political profit of the 'warrior', to 'step onward and upward'; as he 'proves his human sacrifice ability' to apply his breeding war and consumption war energies. Put differently, the 'seething energies of lucifer' are no less than the phallic justification for profiting from aggravating and perpetuating deliberate organized violence, without the consent of the recipients of the violence.

Totalitarian Agriculture WiP Tower of Babel Empires that violently collapsed: Humans who engage in totalitarian agriculture, engage in Predator-Prey Growth and Collapse of Civilization/Empire cycles: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan. Collapses result from (1) Ecological Strain due to procreation and consumption above ecological carrying capacity limits; and (2) Economic Stratification; and have included the disappearance of between 90-99% of their populations (from famine, disease and organized violence resource wars) including their kings, Gods, calendars and other complex political and cultural institutions.

EoP Obs & Admin Notice: Re: NSA-FSB Hack of Tall Ships & Culture Change to EoP Honour Ecofootprint Shrinking Lifeboat Ethics?

Observation: Hacking format changes made by someone unknown -- presumably some Military Intelligence Agency individual -- to EoP v WiP NWO Negotiations Comments Correspondence online html version of 26 January 2015: correspondence to Culture Change; at [EoP v WiP Comments Corr: 26 Jan: Culture Change](#).

Original version in [PDF](#) remains as originally sent.

Additionally the posting date was also changed from 26 January to 28 January.

If NSA and/or FSB hacked it; I imagine you hacked it; so as to highlight those paragraphs; to the individuals to whom those paragraphs of correspondence were originally sent.

If that interpretation of your motives is correct; this correspondence is copied to the individuals to whom those paragraphs of correspondence were originally sent.

If that interpretation of your motives is incorrect; kindly clarify your message; so that I may accurately relay it for you; should you want me to relay your message for you.

If your hacking was a message to me: Lara Johnstone; you are welcome to state what exactly it is you want to say to me personally; in 100% buck stops here crystal clear communication; not plausible deniable fuck honour ego Mindfuck games bullshit. I am not and have never been offended by buck stops here honesty.

It is also copied to Weebly.com; for their information and records.

Here follows transcript copy of Hacking Format changes; which were removed from body content; and placed at the top of the post [PNG]:

===== Hacking Format change Excerpt =====

In the – amended – wording of Dr. Al Bartlett: Living on a planet where cultures are based upon Masonic War is Peace right to breed/consume social contract principles is like buying a ticket on the Titanic; if you're smart you go Capitalist first class; or you can go cheap Communist or Primitivist steerage third class. In all cases, the sinking of the culture from ecological overshoot resource depletion result is the same. But if the social contract gives the people the choice, most people would go fast, flashy and first class.

As reported in Nasa funded [Human \(Predator\) and Nature \(Prey\) Dynamics \(HANDY\) studies](#): Humans who engage in [totalitarian agriculture](#), engage in Predator-Prey Growth and Collapse of Civilization/Empire cycles: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan. Collapses result from (1) Ecological Strain and (2) Economic Stratification and include the disappearance of between 90-99% of the populations (from famine, disease and organized violence resource wars) including their kings, Gods, calendars and other complex political and cultural institutions.

Economic Stratification Collapse occurs due to unequal consumption of resources generating Elites vs Commoners. As Elites become sizable and keep growing, they consume more; their over-exploitation results in collapse of resources to the Commoners; who experience famine and collapse. Elites -- due to their wealth -- do not suffer the detrimental effects of environmental collapse until much later than Commoners, which allows them to continue 'business as usual', despite the impending catastrophe; explaining how historical collapses were allowed to occur by seemingly oblivious elites (eg Roman & Mayan cases).

As clarified by Garrett Hardin in [Tragedy of the Commons](#); in the absence of a social contract that eliminates 'breeding/consumption' cheaters from the genepool; a social contract that provides for no 'elimination from the genepool' consequences for 'breeding / consumption war cheaters; effectively results in other members of the culture being forced to engage in breeding / consumption war cheating; for offence or defence of their resources purposes; which sets in motion a breeding / consumption war rattrace. This reality was observed shortly after the invention of totalitarian agriculture; and the elite of the time decided rightly or wrongly that their only option was for the elite to [divide and conquer](#) manage and profit from the 'breeding / consumption war'; which is one of the '[human sacrifice](#)' 'secrets' of '[oroborous mystery phallic worship religions](#)'.

If economists and journalists are sincere about establishing an economic system based upon resource footprint morality; and abolishing the [human factory farming slavery](#) system; I imagine an Ecology of Peace [William Wilberforce](#) and [Eric Liddle](#) would suggest that to free ourselves from [enslavement](#) we shall need to have the courage to give up our addiction to the [false left and right wing moral supremacist bullshit propaganda](#) and individual and corporate welfare at the expense of the ecological resource commons that provides us with survival sustenance; and publicly confront the [phallic human sacrifice War is Peace](#) foundation of our secular or theocratic – capitalist, communist, libertarian, socialist, Christian, Muslim, Catholic, Buddhist, etc – religions; and cooperate with national and international authorities to – hopefully nonviolently – [implement](#) an [Ecology of Peace](#) international law social contract that requires all the worlds citizens from all races, classes, religions and cultures to procreate and consume below ecological carrying capacity limits.

Ecological Reality Facts being: (a) Earth is not flat; (b) Earth renewable and non-renewable resources are finite; (c) When humans breed or consume above ecological carrying capacity limits, it results in resource conflict; (d) To sustainably protect and conserve natural resources in accordance to [local and national carrying capacity limits](#); and restrict [national and international inter-cultural resource war conflict](#); humans must implement an [Ecology of Peace](#) international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

~~~~~

All ideas are not equal.

If some Vietnam Phoenix project terrorists have thrown you out of a plane with a parachute; but you don't know how to work a parachute; then the idea of *'I better think about how to pull the ripchord for my parachute so that I can defy gravity with a scientifically proven method of defying gravity: namely a parachute'* and *'I can defy gravity with some Masonic verbal gymnastics; and once I have redefined gravity so that it does not apply to fuck honour tits and ass kikes New Yorkers; God will amend gravity in accordance to my Masonic law new definition demands'* are not equal.

“Paris is currently choking with ego fuck honour White, Black, Chink, Paki, Coolie, Kike Power environmental moral supremacists; who will continue to whine and whine and whine and whine

and whine and whine and whine about food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, climate change, feminism, nazism, Islamism, capitalism, communism, militarization of police, etc; while doing sweet goddamn fuck all about the Masonic War is Peace right to breed/consume with total disregard for ecological carrying capacity limits international law social contract; that is the root cause of everything they whine about.”

Put differently:

If the Cop 21 Secretariat gave a fuck about beginning to educate yourselves, those attending your ‘Climate Change Conference’, journalists and the worlds citizens about the scientific ripchord as opposed to the Masonic verbal gymnastics information regarding root causes of Climate Change: namely overpopulation and overconsumption; whose causes are the [Masonic War is Peace](#) -- right to breed and consume with total disregard for [ecological carrying capacity limits](#) -- international law social contract; you would have invited any one of the following speakers to present their information; to begin the educational persuasion process as to how and why it is a matter of [military necessity](#) to implement an [Ecology of Peace](#) international law social contract; that restricts all the worlds citizens from all races, classes and religions to breeding and consuming below [ecological carrying capacity limits](#).

1. **Media Censorship:** Maher, Michael (1997/03): *How and Why Journalists Avoid the Population-Environment Connection*: University of Southwestern Louisiana, Population and Environment, Volume 18, Number 4, March 1977; Reprinted in 1997 by the Carrying Capacity Network, Focus, 18 (2), 21-37. [SQSwans: Ph.D Guerrylla: [Michael Maher](#)]
2. **Peak NNR Resources and Collapse of Green Industrial Economy:** Clugston Chris: *Peak NNR: Scarcity: Humanity’s Last Chapter: A Comprehensive Analysis of Nonrenewable Natural Resource (NNR) Scarcity’s Consequences*. [SQSwans: Ph.D Guerrylla: [Chris Clugston](#)]
3. **Overpopulation:** Paul A. Murtaugh, Michael G. Schlax (2009): *Reproduction and the carbon legacies of individuals*; Global Environmental Change, 19 (2009) pp. 14-20; which details how Every Child Increases a Woman’s Carbon Footprint by a factor of 20: A woman can reduce her carbon footprint 19 times more by having one fewer child than by all other energy efficiency actions the E.P.A. suggests combined. [SQSwans: Ph.D Guerrylla: [Paul Murtagh](#)]
4. **Overconsumption:** Timothy J. Garrett (Nov. 2009), *Are there basic physical constraints on future anthropogenic emissions of carbon dioxide?*; Climatic Change; which details that Only Civilization Collapse will prevent runaway global climate change: Industrial Civilization / Consumption Developmentism as Heat Engine Root cause of Scarcity-Conflict Climate Change-National Security Impending Near-term Extinction reality. [SQSwans: Ph.D Guerrylla: [Timothy J Garrett](#)]
5. **Honour v Fuck Honour Human Nature:** Astrid Dannenberg (2012): *Climate Change Negotiations: Game Theory and Experimental Evidence*. Climate treaty negotiators might be wise to have a conversation with a game theorist. So far, negotiators’ promises to reduce greenhouse gas production have been paltry and results paltrier, as both emissions and global temperatures have risen. A new game theoretic analysis published in the Oct. 23 Proceedings of the National Academy of Sciences both pinpoints why

negotiations have accomplished so little and suggests how the parties might achieve better results. [SQSwans: Ph.D Guerrilla: [Astrid Dannenberg](#)]

Overpopulation & Overconsumption Causes of Scarcity & Conflict:

United States, Canada, United Kingdom, Germany, Israel and Russian: Military, Intelligence Agency and Government Reports about Overpopulation and Overconsumption as sources of Resource Conflict are available at: [Military Gospel according to Homer Lea](#); such as for example:

1. Vice Admiral Dennis V. McGinn, USN (Ret); Former Deputy Chief of Naval Operations for Warfare Requirements and Programs: Powering America's Defense: Energy and the Risks to National Security; Center for Naval Analysis, [CNA](#).
2. Vice Admiral Dennis McGinn; Energy, Climate Change, and the Military: Implications for National Security; [Woodrow Wilson Center for Environmental Security](#).

All aforementioned reports and many more totally ignored and censored by Cop21 are the foundation of – and shall be cited in – EoP PoW Applicants ICC complaint to implement an Ecology of Peace international law social contract; by abolishing and/or reforming the Masonic War is Peace international law social contract.

1. EoP PoW et al Applicants: *EoP PoW et al -v- Norwegian Nobel Committee et al: Notice to UN Nation states Attorney Generals & ICC: ICC Private Prosecution 'crimes of aggression acts of war': Notice ITO of Article 5 & 15 of Rome Statute & 'Nuclear Freedom Mutual Coercion Military Necessity for the Implementation of an Ecology of Peace international law social contract' Rendulic Rule Military Necessity doctrine: Private Prosecution of Respondents: Charges: Crimes of Aggression Acts of War; [EoP PoW ICC Complaint](#); one of [EoP options](#) to implement EoP international law social contract.*

“Climate Change will become a defense and security issue, for four major reasons. There will be water wars, there will be oil wars, there will be massive migration on a scale the world has never seen, and there will be massive food insecurity. The two things of importance to the United States and UK will be issues of migration, which we already have problems with in Europe and the US. It will get much much more extreme. .. So much of our food is derived from Africa and Central and South America, if that starts to fail .. there could be rioting. There is an expression which is called nine meals from anarchy.” – Rosie Boycott, Former Editor of the Independent; [Climate Change and National Security](#).

* ~~~~~ *

Current International Law Right to Breed & Consume:

There are many examples of current international law statutes that directly and indirectly provide citizens with the right to breed and/or consume above ecological carrying capacity limits; and lawyers, prosecutors and Judges who apply them, all while pretending their courts are concerned with ‘truth’ and ‘evidence’; pretending they have fuck all clue why and how those

statutes result in food shortages & inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources and climate change; inter-racial, religious and cultural social conflict; psycho-social conflict; not to mention overpopulation and consumption resource depletion and scarcity induced [resource wars](#); which sometimes manifest as genocide and holocausts.

Put simply: unlike [Arthur Edens](#) and [Michael Clayton](#) – they are in total denial that they are Sheva the legal cryptic gods of death.

[..]

Summary of the origins and practices of Sheva & Lucifer the cryptic gods of death:

The following are – in my view relevant excerpts from – EoP PoW et al -v- Norwegian Nobel Committee et al; for your consideration:

-----Excerpt: EoP PoW et al -v- Norwegian Nobel Committee et al -----

AnthroCorpocentric Jurisprudence’s Innocence for Sale Indulgence Legal Matrix:

“Corporations are a Frankenstein monster which States have created by their corporation laws.” - Supreme Court Justice Louis D. Brandeis, 1916

“Every right must be evaluated in the network of all rights claimed and the environment in which these rights are exercised. If we hold that every right, “natural” or not, must be evaluated in the total system of rights operating in a world that is limited, we must inevitably conclude that no right can be presumed to be absolute, that the effect of each right on the suppliers as well as on the demanders must be determined before we can ascertain the quantity of right that is admissible. From here on out, ours is a limited world. Rights must also be limited. The greater the population, the more limited the per capita supply of all goods; hence the greater must be the limitation on individual rights, including the right to breed. At its heart, this is the political meaning of the population problem.” – Garrett Hardin, Limited World, Limited Rights

Erik Prince:

Erik Prince: EoP Adult Decision-making: Pro EoP Applicant or Pro WiP American?

Re: Breitbart: [Erik Prince: Leaked 'Pay-to-Play' Clinton Emails Show 'Everything Is for Sale for the Democrats'](#): "For the weak-kneed Republicans that cry crocodile tears about some stupid private conversation that occurred eleven years ago, and, instead, want to be embraced, or to embrace a Hillary presidency, is flat-out disgusting. If nothing else, it will make America, it will make patriots realize who is pro-America and who is pro-political establishment."

If I am interpreting you accurately:

I think you are conflicted about whether you are Pro EoP Applicant; or Pro WiP American.

If Pro EoP Applicant: verbally or in writing ask your candidate Donald Trump if he is willing to (a) publicly confirm in buck stops here black and white for you where the fuck he stands on implementing an Ecology of Peace international law social contract; and (b) answer questions from EoP MILED Clerk and EoP Applicants; about his buck stops here statement from EoP Applicants.

If he refuses and you consider a substitute candidate; ask them the same questions: if none are willing to respond to your aforementioned EoP request; notify the American version of the Independent Electoral Commission – as [I notified the South African IEC on 15 April 2016](#) – that you shall not be voting in the American election; due to the absence of any Ecology of Peace political parties.

If you think Timothy McVeigh wants to be President of Pro-Gutless Wonder Fuck Honour-America:

My interpretation of Timothy McVeigh's answer – I could be wrong – is paraphrased:

“Thanks, but no thanks. I am not interested in being president of a country of cockroach kaffirs pretending to be humans; who don't even have the self awareness they are not humans but cockroach kaffirs. Definition of kaffirs as per EoP submission to Concourt in [CCT 06-11: Alien on Pale Blue Dot v SANEF](#); copy in among others: [27 Jul correspondence to MWeb](#).

If there are any individuals who are American citizens who give a fuck about responsible freedom to support committed EoP Applicants to implement an Ecology of Peace international law social contract; sign your Responsible Freedom Plaintiff declarations – most recent draft can be found at [EoP Wealth Transfer Options](#) – and submit them to the EoP MILED Clerk; for her to publicly document; and provide copies to your Nation's President.

If not: Find an American (i) President to answer Lara's questions whether the terms of my pardon allow her and me to spend a few years together in the Siberian Wilderness so we can depart this fuck honour kaffir planet together.; or (ii) a Judge and/or prosecutor willing to agree to the '[Justice Quartus de Wet & Jury Percy Yutar mercy guarantee](#)' prior to the start of proceedings; should we be found guilty.

If you intend voting for any of the left or right Pro-Gutless Wonder Fuck Honour-Americans: I suggest you honourably notify me that you are withdrawing from being an Ecology of Peace applicant; and I can list you with the other former EoP applicants.

**

Re: Breitbart: [Erik Prince: Trump Is Right — We Can Work with Putin to Defeat 'Common Enemy' of 'Islamic Fascism'](#): “Trump is right, in at least that we can work with Putin, because we have a common enemy, and that is Islamic fascism. Russian special forces, before ISIS even erupted, was doing hundreds of kill/capture missions every year, inside of Russia, because they have a real problem in Chechnya, Dagestan, and those regions. Having Islamic fascism creep out of the Middle East and up into those countries directly affects Russia, and that's why it matters to Putin,” Prince said. “And that's actually something we could work together with them, and even with the Chinese – they have a problem with radical Islam in the west of their country, in the northwest, in Xinjiang province as well. ... Do we agree with them on everything? No way. Russia is wrong on Ukraine, and Crimea. But working with them to defeat Islamic radicalism is something we should do.”

EoP Acting Clerk interpretations – don't forget [caveat](#):

If my interpretation of President Putin and the Kremlin's Ecology of Peace motives are accurate; then (a) the 'right to breed and consume with total disregard for ecological carrying capacity limits' clauses – aka [policy](#) – of the Masonic War is Peace international law social contract is their primary enemy; (b) anyone whether Russian, American, Muslim, Christian, rich or poor, black or white; who supports cooperating to implement an Ecology of Peace international law social contract is an ally; and everyone – irrespective of race, class or religion – who obstructs the implementation of an Ecology of Peace international law social contract; would be Masonic War is Peace extremists upholding the 'right to breed and consume' international law clauses that are the source of overpopulation and overconsumption's collision with finite resources; which manifest as: economic inequality; psycho-social resource conflict conformity pressures; climate change, food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, corporate and political corruption; nation states standing army or dissident guerrilla army 'terrorism' resource war military aggression, etc.

If 'Sunni and Shia Islamic fascists' decide tomorrow that they are no longer each other's enemies; and that the 'right to breed and consume with total disregard for ecological carrying capacity limits' clauses of the Masonic War is Peace international law social contract is their primary enemy; the Kremlin would welcome their willingness to cooperate towards implementing an Ecology of Peace international law social contract.

If conversely Donald Trump's Make America – gangrape and buttfuck the rest of the planets resources; so Fuck Honour Americans can live like Slavemasters -- Great Again Americans insist that 'your consumption war lifestyle's are not negotiatiable' and ISIS Islamic fascists insist that 'their breeding war lifestyle's are not negotiatiable'; then quite frankly fundamentally ideologically there ain't any difference between Donald Trump's America and ISIS; and you should probably unite and you can all have a big buttfuck – perhaps nuclear – orgy with Russia, China and Israel.

"Investigation shows that whenever two nations have become engaged in warfare they have been advancing on converging lines of (resource acquisition for growing consumption or procreation) self-interest and aggrandizement. When the contact takes place, the struggle for supremacy, or even survival is at hand. This inevitable hour is approximately fixed and determined by the angles of convergence plus the sum of the relative (consumption / breeding war) speed by which the nations are moving along their respective lines. Thus it is that, when the angle of (breeding / consumption war) convergence of both or even one of the nations is acute and the speed or progress along one or both of the converging lines correspondingly great, war results in a few years or decades." - Homer Lea, Valour of Ignorance; [Military Gospel according to Martial Monk: Homer Lea](#)

I imagine the 'middle people' as you call them would go along with whichever side they thought appeared to be the winning side; although considering Ecology of Peace's scientific based – as opposed to racial, religious or class based – principles that are and have been clearly and simply clarified; as per Attaturk's suggestions; individuals whom may be 'middle people' but are also fairness minded, would tilt towards the Ecology of Peace option.

"In any kind of effort like that its kind of a broad special operations mission where you have multiple targets at the same time and you have to coordinate your assault and focus your objective. The first minutes to hours of an effort like that are crucial; and if you don't

achieve initial success in achieving those phase one goals you lose momentum very quickly and that's exactly what happened. Because all the middle people, the elements in the middle that could tip either way; will tend to tip towards the winning side. So if you don't with shock and speed and surprise achieve those initial goals, the momentum tips against you very quickly.

"The plate tectonics of all of these forces crushing against each other spinning off all kinds of radical cancer cells which are popping up in Orlando and San Bernadino and Paris and Brussels and nobody's done anything to the primary tumour sites; and until we do that, the metastasis of problems are going to grow worse and worse. [Why haven't we done anything] Ultimately warfare is a battle of wills; and it is not just what happens kinetically on the battlefield; it is what happens in the communications and propaganda and belief space and ... moral leadership first, backed up by kinetic capability on the battlefield, we also have a very bureaucratized military; we have allowed lawyers to really become what political officers were in the Soviet Union, that are constantly undermine, second guessing and limiting the freedom of maneuver and decision-making by our battlefield commanders; so its made for a very risk averse military thats entirely too expensive. So a combination of a lack of will and a lack of effective tools in the toolbox. So there is definitely some cleanup work to do. I don't think its that hard to do, if you have a leader that will make clear decisions and make things happen. ... Well I talked to you earlier about the Caliphate having ended when Attaturk took over and the secularization of Turkey occurred." -- Erik Prince; Breitbart: [Blackwater Founder Erik Prince: Obama 'Tilting Toward Islamist or Muslim Brotherhood Approach to Foreign Policy'](#).

Moral leadership First? Indeed? What is your clear decision definition of ethics? Where have you practiced it?

Do you want to cooperate to do something to the primary tumour 'right to breed and consume with total disregard for ecological carrying capacity limits' Masonic War is Peace clauses of international law tumour sites or not?

If yes: follow EoP Applicant advice above. If not: Follow Pro-Gutless Wonder Fuck Honour-Americans above.

If you – or your Pro-Gutless Wonder Fuck Honour-Americans candidates – have any questions; feel free to email them to me.

**

"Attaturk knew that for his movement to succeed and be permanent. He had to create a struggle that was initiated and supported by the people. Everything had to be legitimate and ideologically well-founded. A revolutionary ideal at the time it was announced to the whole country from the city of Amasia." -- [Mustafa Kemal Attaturk: Attaturk the Feminist Warrior](#).

[Gallipoli Anzac Cove Memorial Inscription by Ataturk](#): "Those heroes that shed their blood and lost their lives... You are now living in the soil of a friendly country. Therefore rest in peace. There is no difference between the Johnnies and the Mehmets to us where they lie side by side here in this country of ours... You, the mothers, who sent their sons from far away countries; wipe away your tears; your sons are now lying in our bosom and are in peace; after having lost their lives on this land they have become our sons as well."
- Attaturk, 1934

Erik Prince: Transcript: EoP v WiP Neg: US Political Parties, Election Candidates, SA IEC.

Attached please find *27 Sep 2015 – 13 Oct 2016 EoP v WiP New World Order Negotiations correspondence to US Political Parties, US Election Candidates & SA Independent Election Commission* [PDF]; which documents the EoP Acting Clerk's correspondence to:

1. US Political Parties candidates running for election as well as formerly elected individuals currently in executive, legislative official federal, state or local government positions;
2. SA Independent Election Commission officers notifying them that EoP Acting Clerk would not be voting in the recent South African elections as a result of an absence of any Ecology of Peace political parties; which included Ecology of Peace Cop 21 Simple Root Cause Problem Solving Recommendations submitted to UNFCCC, Cop 21 and GMACCC; of direct relevance to Electoral Commissions licensing of political parties.
3. EoP Applicant: Erik Prince notifying him to decide whether he wants to be a Pro EoP Applicant; or Pro WiP American.

EoP Updates pending reinstatement of hacked deleted EoP websites.

Mike Beitiks, ICANN, IAP, MWeb, ISPA et al: 21 Oct Eco-Collapse NTE Only Problem Left Worth Solving Internet Blackout

I found out about your I Will Not Do Nothing: [Beitiks for US Senate](#) campaign by reading Motherboard: [The NTE: Near-Term Extinction Movement Is Embracing the End Times](#); after doing a search for an NTE: Near Term Extinction article; as a result of my observation and analysis – a few examples below – working hypothesis conclusion interpretation that today's – 21 Oct aka 11, 10, 10, twin 10, Ten, NTE – large DDoS internet attack on US North East; may have been [psychotronically manipulated](#) by one or more military intelligenced agency; related to ongoing Ecology of Peace v Masonic War is Peace New World Order Negotiations:

21 Oct Ecological Collapse Near Term Extinction Only Problem Left Worth Solving Internet Blackout:

Blackout:

“No one could predict what is about to happen. Nobody is allowed into city hall cause the metal detectors arn't working. .. One hundred power plants shut down affecting fifty million people in two countries... An emergency has been declared in New York State. In a matter of seconds, fifty million people simply fall off the grid. Phone lines and water systems fail. Thousands of people are trapped in elevators and subways. ... It is August 14th, 2003... and the largest blackout in North American history causes six billion in damages. The official cause: overgrown trees on the power lines; but there is more to this story than troublesome trees. Just three days earlier on August 11th, someone, somewhere released one of the most damaging computer viruses ever written. Blaster. F-Secure Niko Hepannin... Did a computer virus somehow contribute to the Blackout.? Bonnie: We could certainly shut down the United States critical infrastructure; I would assume within a day. Dedicatedly I would give it one week of research; one day to take it down. That means taking out the power grid; it means taking out the communication power; it means taking out probably the military capacity of the United States; to function properly. We would probably go into a police state at that point. [Is that an exaggeration?]. No I don't think so. stormworm alone has infected at least fifty million computers; and it has not been used for anything; so there is this hovering literally perfect storm; of potential attack; so the concern is that if the storm worm has created all these compromised computers; and in themselves created this almost massive computer; and if very bad people have control of this; they may be able to do very bad things; on a very very big scale.” – [Web Warriors](#)

-- EoP v WiP NWO Negotiations: 23 Apr: [EoP App](#); [FSB-NSA: Earth Day and Root Cause Problem Solving](#); EoP Axis: MWeb: 04-05 Aug: [JMCSwan MWeb Account](#).

**

At the time of receiving MWeb legal departments email announcing that they were terminating their account with Clive Johnstone; I was busy with preliminary research to file a submission to ICANN: Internet Corporation for Assigned Names and Numbers; copied to International Association of Prosecutors [[PDF](#)]: General Counsel: Rasmus Wandall.

The EoP submission to ICANN submission was a suggestion to draft Internet Service Providers worldwide into cooperating to help notify their internet clients and the planets citizens of the importance of non-violently cooperating to help solve the Tragedy of the Commons inevitable nuclear war environmental collapse problem that's the only problem left that's worth solving; to implement an Ecology of Peace international law social contract:

“This tragic [— environmental collapse — at the end of which we are left without a home, having rendered Earth (our home planet) uninhabitable] outcome may not be unavoidable. And if it is not unavoidable, then that's about the only problem left that's worth solving. The solution can be almost arbitrarily expensive in both life and treasure. I would humbly suggest that it's worth all the money in the world, plus a few billion lives, because if a solution isn't found, then that treasure and those lives are forfeit anyway. A solution for avoiding the sixth stage must be found, but I don't know what that solution would look like.”

[EoP Axis Military Necessity Evacuation](#) is the military necessity mutual coercion last resort option of the Ecology of Peace NWO social contract options. It provides a legal blueprint for how to legally, militarily, politically and economically implement an Ecology of Peace international law social contract; to enable immediate orderly and humane deindustrialization and massive depopulation measures.

--EoP v WiP NWO Negotiations: 21 Aug: [EoP Internet Access Re: MWeb & ISPA](#); [EoP Corr: ICANN, IAP, Artist Taxi Driver, Spartacus, Canary, ICRAA, A Choudary](#).

The Ecology of Peace *Wealth Transfer Option to shut down Casino Ponzi Economy* is further below as excerpted from and updated to SQSwans PRH: [EoP Wealth Transfer Option](#).

As detailed under **Fully Informed Consenting Agreement Responsible Freedom Declaration**; the Ecology of Peace culture recommends the nullification of the 'right to breed and consume with total disregard for ecological carrying capacity limits' clauses of international law to be replaced with EoP clauses restricting all the worlds two legged beings who call themselves humans; to breeding and consuming below ecological carrying capacity limits; and that breeding or consumption war violators be eliminated from the planetary genepool.

As noted in Ecology of Peace culture correspondence to [EoP Applicant Erik Prince and all US Political Parties](#), as EoP Acting Clerk I have advised the EoP Applicants; that in the absence of any EoP registered political party; American EoP Applicants shall not be voting for any of the left or right wing 'right to breed and consume with total disregard for ecological carrying capacity limits' Masonic War is Peace political parties. Alternatively any EoP Applicant may withdraw from being an EoP Applicant; if they wish to vote for any of the the left or right wing 'right to breed and consume with total disregard for ecological carrying capacity limits' Masonic War is Peace political parties.

EoP v WiP Neg updates pending reinstatement of deleted EoP weebly websites.

EoP v WiP negotiations were – and if the [hacked and deleted weebly account is reinstated](#); prior to termination of EoP v WiP NWO Negotiations, as a result of [Planetary elite's preference for Masonic War is Peace orgy of violence](#); will again be – updated at: [MILED Clerk Notice](#).

Pending reinstatement of EoP accounts on Weebly: A copy of this correspondence is documented at: (A) [SQSwans PRH: EoP v WiP NWO Neg CC](#) and/or [EoP Axis](#); (B) Tygae.Weebly: (i) EoP Applicant: Erik Prince [\[PDF\]](#); FSB-NSA [\[PDF\]](#); EoP Axis: Ft Bragg [\[PDF\]](#); MWeb [\[PDF\]](#); Weebly [\[PDF\]](#); Lotto: Lawyers [\[PDF\]](#); (ii) EoP v WiP NWO Negotiations: [Comments Correspondence](#) [\[PDF\]](#); Mike Beitiks for US Senate, Motherboard, ICANN, Artist Taxi Driver, Spartacus, Canary, ICRAA, A Choudary, US Navy JAG, Punjab Bar Council, PK Minister of Defence, PK Supreme Court.

Respectfully,

Lara Johnstone, aka Andrea Muhrrteyn [\[EoP Oath PDF\]](#)
PO Box 5042, George East, 6539, RSA
GMC 4643-13 & 2578-14 Pro Se Applicant
Former MILED Clerk & Acting Clerk

* ~~~~~ * * ~~~~~ *

EoP Wealth Transfer Options to shut down Casino Ponzi Economy:

EoP Axis Nationalization of Individuals Property:

All individuals owning property greater than the EoP allotted ecofootprint ration – as detailed under: *Ecology of Peace New Economy Sustainability Definition* paragraphs – will have their property nationalized.

An EoP allotted ecofootprint ration of nationalized property shall be provided to any citizen who has no property; who has signed a *Ecology of Peace Fully Informed Consenting Agreement Responsible Freedom Declaration*; for their use; to enable them to sustain their most basic shelter, food and water needs; and engage with neighbours into local food production cooperatives; to begin the process of rebuilding local cooperative tribal responsible freedom communities.

EoP Axis Nationalization of Banks & Corporations:

All Banks from Bank of International Settlements; Inter-American Development Bank; APRACA: Asia-Pacific Rural to the Agriculture Credit Association; to traded and privately owned corporations shall be nationalized. The Derivatives Market will go through bankruptcy proceedings and both the Derivatives Market and Stock Exchanges will be shut down.

The ‘right to breed and consume with total disregard for ecological carrying capacity limits’ clauses of the Masonic War is Peace social contract shall be removed and replaced with Ecology of Peace clauses that restrict all the worlds citizens of all races, religions and classes to procreating and consuming below ecological carrying capacity limits; relating with others in accordance to fully informed consenting agreements; and violaters shall be eliminated from the planetary genepool. For more info on transforming the planetary economy to a sustainable economy: see: Community Solution: [Power of Community: How Cuba Survived Peak Oil](#); Doug Tompkins: [The Next Economy: Transitions from Globalization to Eco-Localization](#).

The EoP Economy shall be based upon already mined gold and ultimately a resource mix based currency standard; where all lending / borrowing and/or bartering is to be limited to consumption and production of non-renewable and renewable natural resources below Ecological Carrying Capacity limits.

Banks and/or Corporations may avoid coercive nationalization by voluntarily choosing to engage in the conversion of their corporations to EoP cooperative corporations; by giving employees the opportunity to vote whether they wish to (a) remain with the corporation and convert their former corporation to be managed in accordance to cooperative ownership principles and agree to sign an *Ecology of Peace Fully Informed Consenting Agreement Responsible Freedom Declaration*; (b) leave the corporation in accordance with with six months salary retrenchment package.

All nationalized corporations shall undergo the same employee vote process. Only individuals who have signed *Ecology of Peace Fully Informed Consenting Agreement Responsible Freedom Declaration* may be considered for Cooperative Management positions.

All Corporate Pensions for all employees who have not yet retired; whether they sign *Ecology of Peace Fully Informed Consenting Agreement Responsible Freedom Declaration*, vote to remain with the corporation or be retrenched; are immediately cancelled. All Corporate Pensions for individuals who have already retired shall be notified that such pensions shall be cancelled within twelve months.

All corporate employees, including current or former pension holders; who do not own any property; who sign an *Ecology of Peace Fully Informed Consenting Agreement Responsible Freedom Declaration* shall be provided with an EoP allotted ecofootprint ration of nationalized property; for their use; to enable them to sustain their most basic shelter, food and water needs; and engage with neighbours into local food production cooperatives; to begin the process of rebuilding local cooperative tribal responsible freedom communities.

Nuclear Weapons and Nuclear Energy Facilities:

All IAEA: International Atomic Energy Agency member states are to immediately draw up a report detailing how they commit to the decommission of all their Nuclear Weapons and Energy facilities; within five years.

World Coal Association: All member corporations are to immediately draw up a report detailing how they intend to support the orderly termination and closure of all coal mining and energy production with a Production Footprint above ecological renewable/non renewable carrying capacity limits; i.e. all future coal exploitation and production of non-renewable and renewable natural resources must be limited to below Ecological Carrying Capacity limits.

Breeding & Consumption Crimes of Aggression:

“Any individual who is found guilty of advocating on behalf of, legislating, enforcing, or obeying any – cultural, religious, common, statutory, constitutional, or international – ‘scarcity combatant’ social contract; which enables or advocates on behalf of human procreation, consumption or production of resources that transgress ecological carrying capacity limits, is guilty of the ‘crime of aggression act of war.’”

Crimes of Aggression Acts of War Convictions & Sentencing:

Consumption Violation Sentences:

Individuals found negligently guilty of violating consumption social contract limits; would be required to (a) relinquish their excess consumed products; and provide community service labour; to the extent of the infraction.

Individuals found intentionally guilty of violating consumption social contract limits; shall be provided the opportunity to (a) choose their preferred method of state assisted suicide; (b) be granted the opportunity to say goodbye to loved ones and (c) be eliminated from the planetary genepool by their preferred method of state assisted suicide.

Procreation Violation Sentences:

Individuals found guilty of negligently violating procreation social contract limits; would be required to be permanently sterilized.

Individuals found guilty of intentionally violating procreation social contract limits; would be required to (a) relinquish said child for adoption - if wanted to be adopted by a family - and be given their choice as to how they prefer to be humanely executed; (b) if no adoptive family is

found; parents and child are to be given their choice as to how they prefer to be humanely executed.

EoP Axis Nation State Employees:

Every employee from the President down to the school janitor who is an employee of a federal, state, city or local government; is given one month to sign their *Ecology of Peace Fully Informed Consenting Agreement Responsible Freedom Declaration*; and submit it to appointed Federal, National and Local Ecology of Peace *Ecology of Peace Fully Informed Consenting Agreement Responsible Freedom Declaration* Ombudsman.

All State employees who refuse to sign *Ecology of Peace Fully Informed Consenting Agreement Responsible Freedom Declaration* are retrenched; with six months salary retrenchment package.

All Government Pensions for all employees who have not yet retired; whether they sign *Ecology of Peace Fully Informed Consenting Agreement Responsible Freedom Declaration* or not; are immediately cancelled. All Government Pensions for individuals who have already retired shall be notified in writing; that such pensions shall be cancelled within twelve months.

All Government employees, including current or former pension holders; who do not own any property; who sign an *Ecology of Peace Fully Informed Consenting Agreement Responsible Freedom Declaration* shall be provided with an EoP allotted ecofootprint ration of nationalized property; for their use; to enable them to sustain their most basic shelter, food and water needs; and engage with neighbours into local food production cooperatives; to begin the process of rebuilding local cooperative tribal responsible freedom communities.

Fully Informed Consenting Agreement Responsible Freedom Declaration.

A citizen's signed *Ecology of Peace Fully Informed Consenting Agreement Responsible Freedom Declaration* will declare that the particular citizen understands and legally agrees to the following:

I hereby declare that I understand Responsible Freedom to mean:

1. Earth is not flat.
2. Resources are finite.
3. When humans breed or consume above **ecological carrying capacity limits**, it results in **ecological overshoot**, **resource depletion** and **resource conflict**.
4. If individuals, families, tribes, races, religions, and/or nations want to (a) sustainably protect natural resources for future generations; and/or (b) reduce class, racial and/or religious local, national and international resource war conflict; and/or (c) enable honourable, transparent and humane international cooperative de-industrialization and depopulation of the planet to return to living in accordance to ecological carrying capacity limits; they should (d) cooperate to implement an **Ecology of Peace** international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits; to sustainably protect and conserve natural resources.
5. The root cause of humans breeding and consuming above ecological carrying capacity limits and consequently Nation States failure to (a) avoid resource depletion and sustainable protection of national renewable and non-renewable resources for other species and future generations; and/or (b) reduce class, racial and/or religious local, national and international resource war conflict; and/or (c) enable honourable, transparent and humane international

cooperative de-industrialization and depopulation of the planet to return to living in accordance to ecological carrying capacity limits; are the 'right to breed and consume with total disregard for ecological carrying capacity limits clauses of the [Masonic War is Peace](#) international law social contract'.

6. I request – and commit to support – the President and all supporting Political Party leaders; to officially and publicly begin legal International negotiations – by adopting any of the [Ecology of Peace New World Order Negotiations social contract options](#) used individually or in select combination or collectively; or other more suitable options – to implement an Ecology of Peace international law social contract; that shall (i) abolish the root 'right to breed and consume with total disregard for ecological carrying capacity limits clauses of the Masonic War is Peace international law social contract'; and (ii) replace them with Ecology of Peace clauses that require all of the worlds citizens from all races, classes and religions to [procreate and consume below ecological carrying capacity limits](#); and anyone convicted of breeding and/or consumption violations shall be eliminated from the planetary genepool.

I hereby declare that I understand Honourable Reason & Logic Problem Solving Communication Policy Discourse values to mean:

7. If I am committed to honourable discourse; and I am giving someone else the benefit of the doubt that they are committed to honourable truthseeking discussion:
 - A. I clarify my preferences; to enable people being communicated to, to clearly know what I want; and whether they are willing to engage me in entering into an agreement; to help me get what I want; and reciprocally whether I can help them to get what they may want.
 - B. I always respond to verbal and written correspondence, with a sincere honest response. If I don't have time to respond; I inform them by when they can expect a response.
 - C. I sincerely and actively listen to the evidence from any individual, irrespective of their political ideology – i.e. right wing to left wing – religion, race or culture. Active listening means you verify that your interpretation of their statements is accurate; before concluding that you have 'heard their argument'.
 - D. I focus on simplifying the issue discussed, using as much as possible descriptive words; as opposed to abstract concepts. If or where I include reference to abstract concepts; I am willing to define my meaning of that abstract concept within that circumstance.
 - E. I evaluate their argument based upon the evidence they present, not their race, religion or political ideology; etc.
 - F. If I am not convinced by the quality of their evidence on any particular issue; I am willing to agree to disagree on that particular issue, and cooperate if they are willing to engage in cooperative truthseeking to get better quality evidence; so that a stronger beyond reasonable doubt conclusion can be drawn on the particular issue in dispute.
 - G. I remain in the conversation until we find agreement; so as to support each other on other issues that we do agree upon, which are based upon more conclusive buck stops here evidence.
 - H. If or where sincere conflict arises in the discussion about the issue in dispute; I am committed to remaining in the conversation and finding a way to resolve the conflict, by allowing myself, them or both of us to get over our anger; as opposed to requiring them to suppress their anger for political correct 'lets pretend we are getting along' reasons. Once the emotional steam has been released through the conflict resolution process; both parties will find themselves in a more calm neutral space where the truthseeking conversation can proceed.
 - I. If either of us decide that we are unable to resolve the conflict between us:

1. If none of us are employed by the State and/or legally obligated to help each other on the particular issue of preference in dispute; we honourably terminate discussions and approach others for help to get what we respectively want.
 2. If one or both of us are employed by the State and/or an organization or profession legally obligated to provide support to enable resolution of the particular requested preference; we cooperatively refer the matter to an honourable discourse truthseeking arbitrator for impartial dispute resolution.
- J. If at any point during discussion; or arbitration proceedings; their evidence proves any of my evidence for any of my ideological, racial or religious working hypothesis theories or beliefs to be inaccurate; I love reason and logic more than my ego-identity and hence I am willing to publicly change my mind, on that particular subject and amend my ideological working hypothesis or belief with the new evidence provided; and if necessary to apologize.

Honourable Discourse principles are excerpted from: [EoP RH culture info](#).

Naturally anyone who refuses – without reasonable justification – to engage in aforementioned honourable discourse; is not remotely interested in peace, anti-war, or non-violent root cause problem solving of socio-economic resource war conflict; and depending on the circumstances; may consciously or unconsciously be providing their informed consent justification for the issue in dispute to be resolved by means of violence. Although honourable discourse would recommend that they be consciously made aware of how their refusal to engage in honourable discourse root cause problem solving of the issue in dispute; demonstrates their lack of commitment and sincerity to non-violent root cause problem solving.

Deception Communication Crimes of Aggression:

Fully Informed Consensual Relating Violation Sentences:

Individuals found guilty of negligently violating ‘Fully Informed Consenting Honourable Discourse’ as part of their inter-relating agreements; shall be required to attend and graduate from a Fully Informed Consenting Honourable Discourse’ communication values class; where they would learn how to communicate their preferences and relate to others in accordance to Fully Informed Consenting Communication values; and sign a *Fully Informed Consenting Agreement Responsible Freedom Declaration* to graduate.

Individuals found guilty of intentionally violating ‘Fully Informed Consenting Honourable Discourse’ as part of their inter-relating agreements; shall be provided the opportunity to (a) choose their preferred method of state assisted suicide; (b) be granted the opportunity to say goodbye to their loved ones and (c) be eliminated from the planetary genepool by their preferred method of state assisted suicide.

Ecology of Peace New Economy Sustainability Definition:

A Sustainable society practices Sustainable Procreation and Sustainable Natural Resource Utilization Behaviour; i.e. all of its citizens consume and procreate below carrying capacity. Sustainable Natural Resource Utilization Behaviour involves the utilization of renewable natural resources—water, cropland, pastureland, forests, and wildlife—exclusively, which can be depleted only at levels less than or equal to the levels at which they are

replenished by Nature. The utilization of non-renewable natural resources (NNR's)—fossil fuels, metals, and minerals—at any level, is not sustainable¹.

Carrying Capacity Sustainability: I=PAT Equation:

For activities to be genuinely sustainable it must be possible for them to continue indefinitely. The impact of humanity on the environment and the demands that people place on the resources available on the planet can be summarised by what is known as the Ehrlich or IPAT equation, $I=PAT$. I = impact on the environment or demand for resources, P = population size, A = affluence and T = technology. The two most important conclusions deriving from this IPAT footprint² relationship are that: (i) the Earth can support only a limited number of people, at a certain level of affluence, in a sustainable manner; and (ii) Population and Consumption must be reduced to below carrying capacity.

Carrying Capacity aka Biocapacity Limits:

“The maximum number of individuals that can be supported sustainably by a given environment is known as its ‘carrying capacity’. Worldwide the total amount of biologically productive land and sea amounts to 12 billion global hectares (gha); or 1.8 gha each if divided by 6.7 billion each. Guerrilla Laws are drawn up in accordance with the proactive conservation policies of Bhutan³, who set aside 40% of their biologically productive to be returned to its natural state, for other species and wildlife conservation purposes; then that means that the total amount of biologically productive carrying capacity land available to humans is 60% of 12 billion; which amounts to 7.2 billion gha total; or 60% of 1.8 gha, which is 1 gha each. Population factor is relevant, because the more humans there are, the less biologically productive land there is for everyone else. For example:

Biocapacity limits of 6.7, 3.5, 1 Billion, 500, 250 & 100 Million:

7.2 billion global hectares of biologically productive land and water divided by (a) 6.7 billion humans, equals: 1.07 gha each; (b) 3.5 billion equals 2.05 gha each; (c) 1 billion equals 7.2 gha each; (d) 500 million equals 14.4 gha each; (e) 250 million equals 28.8 gha; (f) 100 million equals 72 gha each.

Procreation Factor:

¹ Sustainability Defined, Chris Clugston, WakeUpAmerika

² EcoFootprint: The difference between the biocapacity and Ecological Footprint of a region or country. A biocapacity deficit occurs when the Footprint of a population exceeds the biocapacity of the area available to that population. If there is a regional or national biocapacity deficit, it means that the region is importing biocapacity through trade or liquidating regional ecological assets. Global biocapacity deficit cannot be compensated through trade, and is overshoot.

³ Bhutan Proactive Conservation: Bhutan is seen as a model for proactive conservation initiatives. The Kingdom has received international acclaim for its commitment to the maintenance of its biodiversity. This is reflected in the decision to maintain at least sixty percent of the land area under forest cover, to designate more than 40% of its territory as national parks, reserves and other protected areas, and most recently to identify a further nine percent of land area as biodiversity corridors linking the protected areas. Environmental conservation has been placed at the core of the nation's development strategy, the middle path. It is not treated as a sector but rather as a set of concerns that must be mainstreamed in Bhutan's overall approach to development planning and to be buttressed by the force of law. - "Parks of Bhutan". Bhutan Trust Fund for Environmental Conservation online. Bhutan Trust Fund.

As noted, the more people there are; the less biologically productive land there is available for everyone else. According to the research of Paul Murtaugh, the procreation factor that should be added by ecology footprint organisations to their Consumption footprint calculators, is 20 per child. [Each Child increases a parent's cumulative consumption footprint by factor of 20⁴]

Difference between Sustainable (Leaver Eco-Innocent) v Unsustainable (Taker Scarcity Combatant):

An individual's IPAT footprint is a result of: (A) Consumption Footprint multiplied by (B) Procreation Factor (Every child increases 20 Child Factor). If their IPAT footprint is below carrying capacity limits, they are an Eco-Innocent Leaver; if their IPAT footprint is above carrying capacity limits, they are a Scarcity Combatant Taker.

Total Footprint = Consumption x Procreation Factor.

To work out your Consumption footprint; you will need to use a Consumption Footprint calculator. Current online footprint calculators: Global Footprint Network⁵ (copy available at Earth Day⁶; Center for Sustainable Economy⁷; EcoCampus⁸. See more at Global Footprint's Application Standards⁹, where they detail how their calculators calculate Consumption footprints. The quiz will ask you various questions about your consumption habits, and provide you with a final consumption footprint in global hectares which is your 'consumption footprint'. For the purposes of this calculation; avoid footprint calculator quizzes that do not provide you with your final gha consumption footprint amount, such as for example: World Wildlife Fund's footprint calculator¹⁰ or Stanford International Students¹¹ (which is excellent and has great detail; but does not provide you with a final footprint in gha terms). Multiply your consumption footprint gha amount by your Procreation Factor: the number of children you have procreated multiplied by 20. The total amount is your Total Footprint.

David & Erik:

D Petraeus, E Prince: EoP App strategic path foundation of Pro-EoP Applicant or Pro WiP American

It was also during the 1960s that William Rusher, the publisher of National Review, became disappointed with the conservative movement. Buckley, Burnham, Frank Meyer, Whittaker Chambers, and Russell Kirk had books and journals and lectures, but they lacked power. Their conservatism was elitist, pessimistic, grimly witty, and academic. It lionized abstruse philosophers such as Eric Voegelin and Leo Strauss and Richard Weaver. To use a phrase uttered often today, Rusher wondered what conservatism had conserved.” – Mathew Continetti; National Review: [Crisis of the Conservative Intellectual](#).

"The conservation of natural resources is the fundamental problem. Unless we solve that problem, it will avail us little to solve all others." - Theodore Roosevelt; Address to the Deep Waterway Convention, Memphis; 4 Oct 1907 - [Today in Science](#).

“You have one person in a military organization and typically its the commander. When you look at a combat theater; the overall individual in charge of that combat force is the strategic leader; who within the confines of the policy that is approved by the President of the United States and/or the Nato authorities. He is the one that is developing the direction that the organization is going to go.” - David Petraeus; Four Tasks of a Strategic Leader; [Belfer Center](#).

It was not clear to me listening to the Four Tasks of a strategic military commander would do if they considered fundamental aspects of the ‘confines of the policy’ they were being required to work within; to be flawed. What if the confines of the flawed – total disregard for the conservation of resources – policy are so flawed as to be downright suicidal in terms of the military organization and its civilian leaderships ultimate credibility and nations survival?

I would imagine – of course I could be wrong – that the most effective means of implementing an EoP social contract; is for various intelligence agencies to collectively agree and support the Director of National Intelligence or the Minister of Defence or someone to that effect; to effectively inform the President of the United States of the national security military necessity of embarking on domestic and foreign policy education and negotiations as to the necessity.

In a country where citizens are educated at home, church, business, school and universities about the importance of resource conservation; this would obviously be a no-brainer; and the entire country would welcome such visionary and responsible resource conservation leadership; and the ability to patriotically make procreation and consumption sacrifices – particularly if impartially and fairly prosecuted – to cooperatively conserve resources for future generations.

In a country where not enough citizens are educated at home, church, business, school and universities about the importance of resource conservation; military officials concerned about the flaws in their national security strategy’s failure to consider resource conservation as a; if

not the fundamental principles of their national security strategy; obviously need to chart their strategic path towards the goal of being a country where citizens are educated at home, church, business, school and universities about the importance of resource conservation.

I imagine that is possibly part of the background process that brought us this far.

The EoP Applicants – ‘strategic path’ as such – as I interpret it – is to do what we can to provide impartial and bipartisan support to all political parties, religions, corporations, etc; their leaders and their followers enabling preferably not one but a few nation’s Minister of Defence – or courts – to collectively inform their President/s of the national security military necessity of embarking on domestic and foreign policy education and negotiations to implement an Ecology of Peace international law social contract.

That would be my working hypothesis conclusion interpretation of figuring out what the informed consent order, should anyone accept it; should be; and that is partially what my [Pro EoP Applicant or Pro WiP American](#); correspondence to Erik is based upon.

"We looked at the problem and thought we'd rather go through Jordan than Baghdad. ... It was best captured by a sign on a door of a commander whom I went on patrol with his company; in what used to be a very dangerous part of Iraq and his brigade had done a magnificent job. I remember walking around with no body armour, no kevlar, watched the soccer game, walked through the market, made a few purchases. And we go back to his command post, which was a plywood door in some little makeshift office and there is a sign on it that says: "In the absence of guidance or orders; figure out what they should have been and execute aggressively". .. I have found that it is the off the wall experiences; that have been the most developing. So when asked what would I advise: Do off the wall stuff" -- David Petraeus; American Leadership in the World; [Conversations with Bill Kristol](#).

If my working hypothesis EoP Applicant strategic path order is strategically or tactically faulty; then of course any EoP Applicant should speak up; so that we can amend it.

If however my working hypothesis EoP Applicant strategic path order is reasonably sound; until evidence proves otherwise; then of course EoP Applicants cannot be rushing around advocating that one WiP left/right/white/black wing ‘breeding war fuck resource conservation kamikaze national security’ policy is any different to another WiP right/left/white/black ‘consumption war fuck resource conservation kamikaze national security’ policy.

EoP Applicants should decide whether they wish to be Pro-EoP Applicants; or Pro WiP Americans; whether left or right, white or black, etc. If certain strategists feel its necessary to raise the ‘strategy of tension’ level; that can quite easily be done without favouring one WiP party over another. The focus is about supporting the creation of a strong foundation to enable whomever the President of whichever country is; to be able to ultimately publicly accept the national security military necessity recommendation to embark on domestic and foreign policy education and negotiations to implement an Ecology of Peace international law social contract.

That would be my working hypothesis conclusion interpretation of figuring out what the informed consent order, should anyone accept it; should be; and that is partially what my [Pro EoP Applicant or Pro WiP American](#); correspondence to Erik is based upon.

- * Researching Homer Lea
- * Credible -- Homer Lea; or other topic -- expert
- * Off the cuff summary of EoP perspective of credible expert ethics characteristics:
- * EoP v Homer Lea Strategic Intelligence Goals:
- * Psychology Researchers confront their fear of confronting context in their research

Updated draft of Homer Lea biography summary:

Most recent EoP draft of Homer Lea biography with feedback from Lawrence Kaplan:

Homer Lea, a Caucasian American writer, was best known as the white American Chief of Staff, soldier of fortune military adviser to Chinese revolutionary leader Dr. Sun Yat-sen during the 1911 Chinese Republican Revolution. As a published author, his most well known works included, "The Vermilion Pencil," a popular romance novel about China, made into a play named the Crimson Spider; and "The Valor of Ignorance" and "The Day of the Saxon," part of a three volume trilogy that focused on American and British defense issues, respectively. Lea died in 1912 before he could complete the third volume of his trilogy -- which according to Homer Lea researcher Roger Yung, but disputed by Homer Lea researcher Lawrence Kaplan -- could have been titled, The Swarming of the Slavs -- that would have examined democracy and the inter-relations of world powers.

Response to Lawrence Kaplan's constructive criticism editing suggestions on Homer Lea biography:

I am not researching Homer Lea off or on the internet; nor have I ever pretended to be researching Homer Lea. I don't care if Roger Yung is a trained historian or a self taught historian. I care if he -- or anyone -- is a sincere truthseeker researcher.

It is quite possible that Roger Yung has according to subjectively held information and evidence available to him; included what you consider to be "undocumented/hearsay information"; based upon subjectively held information and evidence available to you.

Roger Yung does provide a clear caveat on his [Homer Lea Site front page](#) regarding his Homer Lea research on his website; which clearly informs any reader that:

If you want to know more about Homer Lea, the information you receive may be confusing, incomplete, and contradictory, perhaps even fraudulent and controversial. Many historians will not touch the subject. If we keep an open mind and are willing to explore through open discussion, we will be able to piece together a more complete picture of this rather enigmatical man. As you walk through each web page, one attempts to answer the same puzzling question - Who is Homer Lea? If you can look at the whole picture, the people, the time, the milieu surrounding him, one may be at a loss for words attempting to describe the entire man and what he stood for.

Perhaps the information you provided Roger was not sufficiently evidentiary for him to consider worthy of correcting what you consider his errors. Perhaps he is not sincerely interested in truthseeking; or perhaps there are other reasons.

In the absence of knowing Homer Lea related (i) facts that you both agree upon; (ii) the evidence and information you both hold, and your decision-making in terms of arriving at your particular working hypothesis conclusion interpretation of such facts; I am not able to provide you with my subjective interpretation of whose 'interpretation' is more accurate or logical or reasonable.

If you are buck stops here truthseekers engaged in finding the truth about Homer Lea; then you may be able to cooperate and find the facts; which you can agree upon; although your interpretation of such facts may be different; and if you are honourable men; you can agree to disagree on that particular Homer Lea issue in dispute; until you have more buck stops here facts; and still cooperate on other Homer Lea research issues.

If at some point in time you make a decision that both of you are buck stops here truthseekers about the issue; and you cannot come to agreement about whose interpretation is more accurate; you can find an impartial truthseekign arbitration expert – i.e. whose truthseeking on any issue is based upon 'truth the whole truth and nothinb but the truth, based upon the evidence, the whole evidence and nothing but the evidence'; irrespective of whether the truth offends Homer Lea researchers and or anyone else -- to provide you with their interpretation as to whose interpretation they consider more accurate or reasonable.

The biographic sentence of Homer Lea that I authored; is not of major importance to the issues that I am researching; as long as it is accurate in simple english a village idiot can understand; I am happy with it.

Here follows more detailed info on Updated draft of Homer Lea biography summary decision-making

Re: Researching Homer Lea:

I am not researching Homer Lea off or on the internet; nor have I ever pretended to be researching Homer Lea.

I and others, have been researching the root cause of the majority of socio-economic and political problems resulting from resource depletion and resource wars: including among others: climate change, food shortages, food inflation, cost of living increases, urban sprawl,

traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, climate change, terrorism, feminism, nazism, Islamism, capitalism, communism, militarization of police, etc.

We have identified the root causes as the 'right to breed and consume with total disregard for ecological carrying capacity limits' Masonic War is Peace clauses of international law; and are busy in EoP v WiP NWO Negotitions enquiry to determine what if any military, legal, political, religious, racial will there is for cooperating to nullify the Masonic War is Peace 'right to breed and consume' clauses of international law; and replace them with Ecology of Peace clauses that restrict all the worlds citizens from all nations, of all races and religions to procreate and consume below ecological carrying capacity limits; and eliminating violators from the planetary genepool.

That is what I and others; have been researching off and on the internet.

Re: Credible – Homer Lea; or other topic – expert:

I don't care if someone is an official historian; ie. licenced by a WiP academic institute; such as yourself; or a self taught historian, such as Roger Yung; an official soldier; i.e. licenced by an official military academic institute; such as General James Cartwright or David Petraeus; or a self taught guerrilla soldier; like Homer Lea.

Off the cuff summary of EoP perspective of credible expert ethics characteristics:

My concern regarding the credibility of any individual's – expert or self taught – information; is the quality of their evidence in context; which as far as I can tell is a consequence of their (a) sincere commitment to truthseeking on the particular issue; i.e. when provided with evidence contradicting a particular hypothesis to sincerely investigate it and if proven correct; to take responsibility for admitting their mistake; and (b) to consider their working hypothesis conclusion within context.

An alleged expert who refuses to (a) sincerely consider and examine contrarian evidence, including contextual evidence; (b) admit a mistake; if or when provided with evidence that contradicts a pillar of their evidence upholding their particular working hypothesis conclusion; has an agenda that is not truthseeking, but something else; whether ego careerism, self deception about his commitment to truthseeking, etc.

A 'problem solving' expert has additional responsibilities; such as es to (a) enquire into the root causes of the particular problem they are representing themselves as an expert at solving; (b) when root cause problem is discovered, honestly communicate such root cause problem they are alleged experts at solving; (c) once the root cause has been shared with the client; determining whether there is sufficient will to eliminate the root causes of the problem.

If the client is a large organization such as a corporation or state for example; the problem solving issue is more complicated; and depends on numerous factors; such as for example: will of the 'strategic decision-maker'; their advisors, etc.

If a problem solving experts individual client is not sincere about problem solving the particular problem; a sincere problem solving expert should confront the client with the possibility that

they are not sincere; but only engaged in a bullshit the public relations image management exercise; and if the client is not willing to demonstrate their sincere commitment to problem solving; terminate their problem solving expertise towards such client as not being sincerely interested in problem solving their particular problem; until such client changes their mind, if ever.

Generally speaking such a client would – consciously or unconsciously -- not really want the problem solved, they only want to pretend to be solving the problem, so they can market themselves as an alleged ‘problem solver’ for socio-political or economic profits; while actually unconsciously or consciously deliberately and covertly perpetuating the problem for thier own political and/or economic profits. They are parasitically covertly profiteering off not solving the problem; while overtly and publicly pretending to be concerned about helping to solve the problem.

EoP v Homer Lea Strategic Intelligence Goals:

I did read Homer Lea’s book: Valour of Ignorance; some of which I found very informative; such as my EoP interpretation of Homer Lea’s writings; as published at [Military Gospel according to Homer Lea](#).

“Investigation shows that whenever two nations have become engaged in warfare they have been advancing on converging lines of (resource acquisition for growing consumption or procreation) self-interest and aggrandizement. When the contact takes place, the struggle for supremacy, or even survival is at hand. This inevitable hour is approximately fixed and determined by the angles of convergence plus the sum of the relative (consumption / breeding war) speed by which the nations are moving along their respective lines. Thus it is that, when the angle of (breeding / consumption war) convergence of both or even one of the nations is acute and the speed or progress along one or both of the converging lines correspondingly great, war results in a few years or decades.”

I don’t think my strategic intelligence goals are exactly the same as Homer Lea’s. Similar in some aspects; yes, but identical; I don’t think so. That is not to say that there is not much that I can learn from the lessons he learnt, his experience; as I can from anyone else; particularly their willingness to confront themselves and admit their mistakes.

“To free a nation from error is to enlighten the individual, and only to the degree that the individual will be receptive of truth can a nation be free from that vanity which ends with national ruin.” – Homer Lea

**

“It is necessary for you to learn from other's mistakes. You will not live long enough to make them all yourself.” -- Eleanor Roosevelt and/or Admiral Hyman Rickover.

**

"An academic reactor or reactor plant almost always has the following basic characteristics: (1) It is simple. (2) It is small. (3) It is cheap. (4) It is light. (5) It can be built very quickly. (6) It is very flexible in purpose ("omnibus reactor"). (7) Very little development is required. It will use mostly "off-the-shelf" components. (8) The reactor is in the study phase. It is not being built now.

"On the other hand, a practical reactor plant can be distinguished by the following characteristics: (1) It is being built now. (2) It is behind schedule. (3) It is requiring an immense amount of development on apparently trivial items. Corrosion, in particular, is a problem. (4) It is very expensive. (5) It takes a long time to build because of the engineering development problems. (6) It is large. (7) It is heavy. (8) It is complicated.

"The tools of the academic-reactor designer are a piece of paper and pencil with an eraser. If a mistake is made, it can always be erased and changed. If the practical-reactor designer errs, he wears the mistake around his neck; it cannot be erased. Everyone can see it.

"The academic-reactor designer is a dilettante. He has not had to assume any real responsibility in connection with his projects. He is free to luxuriate in elegant ideas, the practical shortcomings of which can be relegated to the category of "mere technical details." The practical-reactor designer must live with these same technical details. Although recalcitrant and awkward, they must be solved and cannot be put off until tomorrow. Their solutions require manpower, time and money."

-- Admiral Hyman Rickover; Letter from H.G Rickover [[PDF](#)] via [Wikipedia](#);

**

It is a human inclination to hope things will work out, despite evidence or doubt to the contrary. A successful manager must resist this temptation. This is particularly hard if one has invested much time and energy on a project and thus has come to feel possessive about it. Although it is not easy to admit what a person once thought correct now appears to be wrong, one must discipline himself to face the facts objectively and make the necessary changes—regardless of the consequences to himself. The man in charge must personally set the example in this respect. He must be able, in effect, to “kill his own child” if necessary and must require his subordinates to do likewise. I have had to go to Congress and, because of technical problems, recommended terminating a project that had been funded largely on my say-so. It is not a pleasant task, but one must be brutally objective in his work.

-- Admiral Hyman Rickover; *Doing a Job* via [Gov Leaders](#)

**

If however two individuals strategic intelligence goals are not the same; then their ultimate strategic intelligence path is different.

Homer Lea was intent on exposing the impending war consequences; but failed to clearly and simply – in buck stops here simple english a village idiot could understand -- articulate the ‘right to breed and consume with total disregard for ecological carrying capacity limits root causes of overpopulation and overconsumption converging lines of resource acquisition for growing consumption and procreation self-interest and aggrandizement.

To the extent that he was conscious of such failure to clarify the root causes; and advise those he was advising to cooperate with other nations, races and religions to address the root ‘right to breed and consume’ clauses of international law causes of war; to that extent his goals were not to honestly educate about how to end war and implement peace; but ego parasitic profiteering of pretending to solve the ‘war’ problem orientated.

To the extent that he was unconscious of such failure to clarify the root causes; and if someone had confronted him and informed him of such failure and he was (a) receptive to the constructive criticism, enquired into it; and admitted his mistakes; and altered his strategic intelligence goals advisory policy; his strategic intelligence goals would have been root cause

problem solving orientated; or (b) not receptive to the constructive criticism, ignored or silenced the constructive criticism; his strategic intelligence goals would have been ego parasitic profiteering of pretending to solve problems orientated.

Its possible nobody ever provided Homer Lea with constructive criticism advise to clearly clarify the root causes of the problem he was allegedly focussed on solving; and engage in an enquiry whether there was sufficient political will to address those root causes; which could be because of many reasons: (a) he did not surround himself with; or had not found or was not even looking for; a or sufficient sincere buck stops here truthseekers to be his advisors (b) of the sincere truthseekers around at that time; on the planet; none of them were focussed on the truthseeking the particular problems Homer Lea was focussed on addressing; and consequently none of them had arrived at the root cause of the problem, and consequently the root cause of the particular problem had not been discovered.

Hence the EoP working hypothesis summary of the difference between EoP and WiP strategic intelligence policy formulators; as stated to Eeben Barlow:

[..] Re: Difference between EoP and WiP Effective Strategists & Policy Formulators:

Masonic War is Peace is about consciously or unconsciously identifying the root cause of the problem, and applying STRATINT to deliberately perpetuate the problem indefinitely so as to socio-politically and financially parastically profit of the misery resulting from the problem. The tap has been left on, the bath is overflowing. Masonic War is Peace profiteers argue about what colour mops to use; who is mopping; who is hiring chinks or japs or coolies to do the mopping, blah blah.

Ecology of Peace identifies the root cause of any problem and applies STRATINT skills to eliminate the root cause of the problem. EoP Applicants [[PDF](#)] identified 'the right to breed and consume with total disregard for ecological carrying capacity limits clauses' - aka [policy](#) - of the Masonic War is Peace international law social contract; as the root cause of the majority of socio-economic and political problems resulting from resource depletion and resource wars: including among others: climate change, food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, climate change, terrorism, feminism, nazism, Islamism, capitalism, communism, militarization of police, etc. Ecology of Peace STRATINT advisors simply point out the tap is causing the bath to overflow; and find out who is willing to cooperate to turn off the tap.

-- EoP v WiP NWO Negotiations: 20 Sep: [Eeben Barlow's Military and Security Blog: The Dangers of Ignoring Strategic Intelligence](#).

To the extent that he was unconscious of such failure to clarify the root causes; and if someone had confronted him and informed him of such failure and he was (a) receptive to the constructive criticism, enquired into it; and admitted his mistakes; and altered his strategic intelligence goals advisory policy; his strategic intelligence goals would have been root cause problem solving orientated; or (b) not receptive to the constructive criticism, ignored or silenced the constructive criticism; his strategic intelligence goals would have been ego parasitic profiteering of pretending to solve problems orientated.

Re: Psychology Researchers confront their fear of confronting context in their research:

See for example: Prof Mary Boyle: [Is clinical psychology fearful of social context? Why we might be, why it matters and what we might do about it](#); Standing up and Speaking out about Social Context Division of Clinical Psychology at Glasgow; regarding psychologist experts 'fear' of confronting context:

"I got the very powerful impression that Laird and Clark seemed to sense that fully engaging with context would make it much more difficult to pursue their core arguments that the main causes of misery are anxiety and depression. That the major reason for misery's persistence is how people think; and that a major part of the solution is individual therapy. Now it certainly complicates funding discussions with government; as you can imagine, if they did engage with context. So this brings me to my second question, what is it about confronting well evidenced role of social context; in both the development and the persistence of mental health problems; which seems so difficult even threatening. I think there is quite a few possibilities and I'll deal with a few briefly. But familiarly over all of them is both our insecurity as a discipline and a profession. So the threats are: Its not science. Its not psychology. Creates feelings of helplessness. Need for acceptance by Psychiatry. Involves telling truth to power. Now psychology as a whole is intensely concerned about its academic and social acceptance; as a science. Jim Orford once said "We still suffer from an inferiority complex making us do things just because they appear scientific. So we emphasise our similarity to the biological and natural sciences. We give the highest to the methods of the natural sciences. We are also very preoccupied with avoiding accusations of social and political bias; of being influenced by subjective values; rather than objective facts." Why our avoidance of context matters so much, the major implication is that our theories and research are always potentially influential. Whether we approve it, intend it or whether we are even aware of it; what we say and do will have influence in so far as particular psychological ideas become part of a construction of reality; which can then be drawn on by those with the power to frame social problems and their perceived solutions. ... It suggests that when we as psychologists conceptualize people and their problems; it becomes a kind of cultural resource; and above all, a relation to this avoidance of context; I think this model shores how our theories can help maintain the social and economic status-quo. ... through narratives of justification. Now its often been pointed out that maintaining harmful social practices or inequalities; usually needs some sort of public story; which makes them seem reasonable. And if we look at it from the point of view of those who benefit from inequalities; an especially powerful narrative is one which distracts attention from context; which could help us understand why some groups are persistently disadvantaged or suffering; why their behaviour seems difficult; and instead focuses on mental or biological characteristics; which seem to explain these outcomes. Historically psychology has provided a major role in providing these narratives. ... Now it's important to emphasise that we don't intend social harm, but our profession simply has to provide the intellectual framework -- and of course give it scientific respectability -- others will do the rest. ... Context also make it much more difficult for those in power to avoid addressing the psychological impact of social and economic policies; and also they are not incompatible with helping individuals. I don't think its an exaggeration to say that clinical psychology is at a watershed in terms of who we are and what we stand for. I hope we will acknowledge that how we relate to social context is absolutely central to those questions; and I also hope we will choose to implement the conference theme in major and very public ways. I think we can be both confident that we have a scientific and ethical mandate, but also I think we may be surprised at just how many allies we would have."

Both sides of the Masonic War is Peace – namely the ‘mental disorders exist’ and the ‘mental disorders don’t exist, psychiatry is a fraud – divide are afraid of confronting their ‘fear of context’ research mistakes.

In their case including context – such as: could what they call ‘mental disorders’ simply be the canary on the frontlines in the Masonic War is Peace toxic culture coalmine; whose cognitive and behavioural coping mechanisms symptoms of individuals experiencing racial, ideological, class or cultural existential identity and/or resource conflict anxiety resulting from population pressures colliding with declining resources; which are the direct consequences of the ‘right to breed and consume with total disregard for ecological carrying capacity limits’ clauses of international law social contract? -- in their research for the ‘causes of mental disorder misery; would result in them either (a) admitting their mistakes and engaging in truthseeking research; or (b) ignoring the canaries; covering up their mistakes; and ultimately psychiatry and psychology drive their 500 tonne train over their ‘fuck ecological carrying capacity gravity laws’ ‘matchstick bridge’.

[EoP RH Culture Info](#) has more info on EoP culture’s perspective on WiP ‘fuck ecological carrying capacity gravity law’s matchstick bridges.

Dr. Caplan & Dr. Hagen:

P Caplan & M Hagen: Re: credible experts; psych researchers fear of context; draft of EoP Homer Lea bio; STRATINT

I received your “What is this, and why did I receive it?” and “Me, too. What is? Why me? I trashed it.” correspondence response to the transparency copy of [Draft of EoP Homer Lea bio; STRATINT; credible experts; psych researchers fear of context. Correspondence](#).

It is unclear if your questions are a result of you not reading the correspondence; or whether you read it and did not understand anything in it; or whether you simply engaged in a bullshit the public relations marketing pretend I am interested response?

If you did not read it:

“The problem with being too busy to read is that you learn by experience (or by your men’s experience), i.e. the hard way. By reading, you learn through others’ experiences, generally a better way to do business, especially in our line of work where the consequences of incompetence are so final for young men. Thanks to my reading, I have never been caught flat-footed by any situation, never at a loss for how any problem has been addressed (successfully or unsuccessfully) before. It doesn’t give me all the answers, but it lights what is often a dark path ahead.

For all the “4th Generation of War” intellectuals running around today saying that the nature of war has fundamentally changed, the tactics are wholly new, etc, I must respectfully say ... “Not really”: Alex the Great would not be in the least bit perplexed by the enemy that we face right now in Iraq, and our leaders going into this fight do their troops a disservice by not studying (studying, vice just reading) the men who have gone before us.

We have been fighting on this planet for 5000 years and we should take advantage of their experience. “Winging it” and filling body bags as we sort out what works reminds us of the moral dictates and the cost of incompetence in our profession. As commanders and staff officers, we are coaches and sentries for our units: how can we coach anything if we don’t know a hell of a lot more than just the [Tactics, Techniques, and Procedures]? What happens when you’re on a dynamic battlefield and things are changing faster than higher [Headquarters] can stay abreast? Do you not adapt because you cannot conceptualize faster than the enemy’s adaptation? (Darwin has a pretty good theory about the outcome for those who cannot adapt to changing circumstance — in the information age things can change rather abruptly and at warp speed, especially the moral high ground which our regimented thinkers cede far too quickly in our recent fights.) And how can you be a sentinel and not have your unit caught flat-footed if you don’t know what the warning signs are — that your unit’s preps are not sufficient for the specifics of a tasking that you have not anticipated?

Perhaps if you are in support functions waiting on the warfighters to spell out the specifics of what you are to do, you can avoid the consequences of not reading. Those who must adapt to overcoming an independent enemy’s will are not allowed that luxury.

This is not new to the USMC approach to warfighting — Going into Kuwait 12 years ago, I read (and reread) Rommel’s Papers (remember “Kampfstaffel?”), Montgomery’s book (“Eyes Officers”...), “Grant Takes Command” (need for commanders to get along, “commanders’ relationships” being more important than “command relationships”), and some others.”

As a result, the enemy has paid when I had the opportunity to go against them, and I believe that many of my young guys lived because I didn’t waste their lives because I didn’t have the vision in my mind of how to destroy the enemy at least cost to our guys and to the innocents on the battlefields. – [Gen. MadDog Mattis: Too busy to read?](#)

-- EoP v WiP NWO Neg: 31 Jan: [Sam Culper .. Kings Co Sheriff's Office](#).

If you read it and did not understand any of it's Ecology of Peace terms:

I sent it to you because I thought some of its contents may be of interest to you and your critical psychology colleagues; considering your status as a 'critical psychiatry' professionals; and prior EoP correspondence to you and hundred of mainstream and critical psychiatry officials – See for example Ref link under your Email addresses – enquiring whether any of you would be interested in cooperating in EoP root cause problem solving of what you refer to as 'mental disorders'; or even in clarifying how or where EoP root cause problem solving principles were in error; and if so EoP Applicants would amend them.

If my interpretation as to your possible interest in root cause problem solving was inaccurate; feel free to let me know so that I can remove you from this correspondence; and/or feel free to delete; and my apologies for bothering you.

My interpretation of you being a 'critical psychiatry expert' is based upon among others: my knowledge of your critical psychiatry book: [They Say You're Crazy: How The World's Most Powerful Psychiatrists Decide Who's Normal](#), and [Losing Labels to Find Ourselves](#)

The correspondence in question made reference to Ecology of Peace culture's perspective on strategic intelligence; credible experts and the drafting of Homer Lea biography; which included excerpts of Prof Mary Boyle's – [Is clinical psychology fearful of social context?. Why we might be, why it matters and what we might do about it](#) – speech.

"I got the very powerful impression that Laird and Clark seemed to sense that fully engaging with context would make it much more difficult to pursue their core arguments that the main causes of misery are anxiety and depression. That the major reason for misery's persistence is how people think; and that a major part of the solution is individual therapy. Now it certainly complicates funding discussions with government; as you can imagine, if they did engage with context. So this brings me to my second question, what is it about confronting well evidenced role of social context; in both the development and the persistence of mental health problems; which seems so difficult even threatening. I think there is quite a few possibilities and I'll deal with a few briefly. But familiarly over all of them is both our insecurity as a discipline and a profession. So the threats are: Its not science. Its not psychology. Creates feelings of helplessness. Need for acceptance by Psychiatry. Involves telling truth to power. Now psychology as a whole is intensely concerned about its academic and social acceptance; as a science. Jim Orford once said "We still suffer from an inferiority complex making us do things just because they appear scientific. So we emphasise our similarity to the biological and natural sciences. We give the highest to the methods of the natural sciences. We are also very preoccupied with avoiding accusations of social and political bias; of being influenced by subjective values; rather than objective facts." Why our avoidance of context matters so much, the major implication is that our theories and research are always potentially influential. Whether we approve it, intend it or whether we are even aware of it; what we say and do will have influence in so far as particular psychological ideas become part of a construction of reality; which can then be drawn on by those with the power to frame social problems and their perceived solutions. ... It suggests that when we as psychologists conceptualize people and their problems; it becomes a kind of cultural resource; and above all, a relation to this avoidance of context; I think this model shores how our theories can help maintain the social and economic status-quo. .. through narratives of justification. Now its often been pointed out that maintaining harmful social practices or inequalities; usually needs some sort of public story; which makes them seem reasonable. And if we look at it from the point of view of those who benefit from inequalities; an especially powerful narrative is one which distracts attention from context; which could help us understand why some groups are persistently disadvantaged or suffering; why their behaviour seems difficult; and instead focuses on mental or biological characteristics; which

seem to explain these outcomes. Historically psychology has provided a major role in providing these narratives. ... Now it's important to emphasise that we don't intend social harm, but our profession simply has to provide the intellectual framework -- and of course give it scientific respectability -- others will do the rest. ... Context also make it much more difficult for those in power to avoid addressing the psychological impact of social and economic policies; and also they are not incompatible with helping individuals. I don't think its an exaggeration to say that clinical psychology is at a watershed in terms of who we are and what we stand for. I hope we will acknowledge that how we relate to social context is absolutely central to those questions; and I also hope we will choose to implement the conference theme in major and very public ways. I think we can be both confident that we have a scientific and ethical mandate, but also I think we may be surprised at just how many allies we would have.'"

The excerpts of Ms Boyle's speech was followed by EoP commentary on WiP – aka Masonic War is Peace – psychology; addiction to profiteering of misery.

Both sides of the Masonic War is Peace – namely the 'mental disorders exist' and the 'mental disorders don't exist, psychiatry is a fraud – divide are afraid of confronting their 'fear of context' research mistakes.

In their case including context – such as: could what they call 'mental disorders' simply be the canary on the frontlines in the Masonic War is Peace toxic culture coalmine; whose cognitive and behavioural coping mechanisms symptoms of individuals experiencing racial, ideological, class or cultural existential identity and/or resource conflict anxiety resulting from population pressures colliding with declining resources; which are the direct consequences of the 'right to breed and consume with total disregard for ecological carrying capacity limits' clauses of international law social contract? -- in their research for the 'causes of mental disorder misery; would result in them either (a) admitting their mistakes and enaging in truthseeking research; or (b) ignoring the canaries; covering up their mistakes; and ultimately psychiatry and psychology drive their 500 tonne train over their 'fuck ecological carrying capacity gravity laws' 'matchstick bridge'.

[EoP RH Culture Info](#) has more info on EoP culture's perspective on WiP 'fuck ecological carrying capacity gravity law's matchstick bridges.

In fairness to Brad Blanton; although he also refuses to acknowledge context in his 'noticing' radical honesty practices – as noted in 01 Feb: [RH Fraud: McVeigh Faked Execution](#); [Ecofootprint Shrinking Lifeboat Ethics](#) – or to inform his misery induced clients of the root population pressures colliding with resource depletion conformity pressures source of their ego-identity and/or resource conflict psycho-social conflict misery; he does admit – quoting Pema Chodron – that he profiteers of others misery; as noted in: What is Radical Honesty [01](#), [02](#), [03](#).

What does fuck honour infantile kindergarden [playing with his lego's](#) Dr. Blanton want? From my experience: He thinks he wants to help others problem solve the causes of their misery; but he can't grow up to buck stops here tell them the truth – heaven forbid he might offend fragile ego crackers, niggers, spicks or japs and be called a 'racist'; by fuck honour liberals, like him – so he'd rather profiteer of their misery; while withholding from them information about what they can do to cooperate with others to eliminate the root causes of population pressure resource depletion psycho-conformity resource conflict pressures.

I also know liberal progressive African women who have absolutely no problem with responsible procreation. They grew up in a South African township that make American

ghetto's look like bourgeois upper middle class suburbs and took responsible procreation way beyond 'responsible sex' to no sex at all. They were still virgins at the age of 26. One of them got married and she was still a virgin. They obviously would not be threatened at all by the implementation of an international law social contract; that would require them to procreate below ecological carrying capacity limits; any more than Caster Semenya is threatened by going for a jog.
