EOp Amicus Request; RE: WiP Case No. 16-MJ-00006: USA v A Bundy et al

I am writing to request the fully informed consent of Prosecutors and Defendants; for their written permission to file an Ecology of Peace culture Amicus Curiae brief to the court, for the consideration of the Judge and Jury; in your AnthroCorpocentric 'Who is the accurate master interpreter of the Masonic War is Peace US constitution' resource war dispute: Monopoly of Force –v– Sovereign Citizen Common Law.

“Aamon Bundy channels the bloody ghost of John Brown” -- Mike Vanderboegh: Perfect timing for the regime. Federal provocateurs, sociopaths and idiots with a John Brown complex are writing checks that they expect the rest of us to cash in our blood.

“I have to admit that I am starting to see some method beneath all the theater and symbolism that is going on at Malheur. It looks like they are starting to put into practice some of this sovereign citizen legal stuff; that our people have been talking about for years on paper; but which nobody ever paid any attention to; because it was all talk and no guns backing it up. And the foundation of all law is a credible monopoly of armed force; in order for the king or president or high priest or whatever to make other people do what he tells them to do; and not what they want to do. Once that is broken; all things are possible; as I learned from personal observation in Ireland. Well, now the Common Law and Sovereign Citizen types finally have a few guns backing them up; and they are at least trying to get real about it. The Malheur men are creating what is called a Common Law Grand Jury; which has no actual legal standing according to the media; but as we all know from many years of living in the dictatorship ourselves; legal standing means men with guns who will do what somebody says to enforce the law or an order; and now for the first time in this country; the good guys begin to get a glimmer of that; a feint glimmer; and it may flicker out; but its there. The Malheur militia men have chosen a man from Florida named Joaquin Mariano DeMoreta-Folch; who I never heard of before, but is apparently well known in Tea Party circles. According to the main stream media, for what they're worth;

this guy DeMoreta is a quote unquote 'long time proponent of convening secret citizens panels to indict government officials'. Kind of like the medieval German Vehmgericht. Of course the Vehmic courts had men with swords and daggers who would come in the night and actually enforce the tribunal's decrees. Mr DeMoreta is said to be their common law judge; and they will presumably be indicting assorted officials from the dictatorship and its multi-agencies under Common Law; which will be good theater if nothing else; since the presence of arms and ammunition at the Refuge may forestall the Dictatorship use of force to silence them. At least for a while." – Harold Covington: Radio Free Northwest: 28 Jan: *HAC reports on Harney County*.

The EoP Amicus will provide the court with alternative Ecocentric [Ecology of Peace social contract option](#) legal arguments deemed too far reaching for emphasis by parties intent on winning their particular Masonic War is Peace cases.

The EoP Amicus will argue that the court should support any [human factory farming slavery enslavement](#) John Brown, [William Wilberforce](#), Frederick Douglass, [Noel Ignatiev](#) or [Thomas Sankara](#) abolitionist; willing to legally and publicly confront the [phallic human sacrifice War is Peace](#) 'right to breed and consume with total disregard for ecological carrying capacity limits' foundation of our secular or theocratic – capitalist, communist, libertarian, socialist, Christian, Muslim, Catholic, Buddhist, etc – religions and national social contract constitutions; to engage in a legal discussion about options to cooperation with national and international authorities to – hopefully nonviolently – [implement](#) an [Ecology of Peace](#) international law social contract that requires all the worlds citizens from all races, classes, religions and cultures to procreate and consume below ecological carrying capacity limits.

Put succinctly if possibly offensively to those who prefer sycophancy and flattery to the truth, the whole truth and nothing but the truth: Human Factory Farming Slavery abolitionists; should be entitled to a free and fair civilian or military trial by an impartial court of Masonic Judges capable of hearing constructive criticism about the fuck up that is their Masonic War is Peace cult social contract religion; irrespective of whether there is only one village idiot on the planet who has such heretical Ecology of Peace anti-occult human factory farming beliefs, or whether there were only a handful of people on the planet who supported their heretical anti-occult human factory farming beliefs.

The EoP Amicus shall provide an updated version of the argument filed on behalf of among others [Michael Adebolajo and Michael Adebowale](#), [Beate Zschape](#) and [Wouter Basson](#); namely that Aamon Bundy et al, are simply low-level left/right, white/black, Muslim/Christian Ethnic-Conflict foot-soldier symptoms of the Masonic War is Peace -- 'War is a Masonic Breeding Slaves and Cannon Fodder Fertility Religion for Human Sacrifice and Profit Racket' – international law social contract; and that the charges against Aamon Bundy et al should be dismissed if Aamon Bundy et al provide the court and National Security authorities; with their fully informed consent [unconditional Ecology of Peace cooperator](#) written agreement Oath.

Amicus means 'A Friend of the Court'.

An Amicus brief is usually filed by an individual not directly involved in the case; or who has information and evidence relevant to the case; or legal principles; which can provide the court with greater context to issues relevant to the case; which have not been brought to the attention of the court by either party; too intent on fighting to win their respective cases; by proving themselves 'right' and their opponents 'wrong'.

As detailed the EoP application for Certiorari in the matter of [Alien v Reporters Committee for Freedom of the Press](#): Amicus filings have substantially affected the development of considerable Supreme Court substantive jurisprudence, figuring prominently in many landmark opinions. Several empirical studies have ascertained that Amicus briefs have significantly influenced the Justices' determinations to grant petitions for writs of certiorari and the underlying Supreme Court decisions on the merits. Most judges and lawyers think Amicus briefs can provide valuable assistance to the Court in its deliberations; such as presenting an argument or citing authorities not found in the briefs of the parties, and these materials can occasionally play a critical role in the Court's rationale for a decision. Amicus briefs can provide important technical or background information which the parties have not supplied; consequently Amicus participation can critically improve judicial decision-making. Amicus involvement may also enhance court transparency, judicial accountability, and the legitimacy and public acceptability of appellate substantive determinations regarding controversial questions. Promoting Amicus access to courts also fosters important first amendment values, such as freedom of speech and the right to petition.

EoP Amicus Summary: EoP Root Cause Problem Solving Option for USA v Aamon Bundy et al's 'Who is the accurate master interpreter of the Masonic War is Peace US constitution' resource war dispute: Monopoly of Force –v– Sovereign Citizen Common Law:

Ecology of Peace Applicants Legal Guerrilla Warfare:

The purpose of the Ecology of Peace Applicants educational and legal guerrilla warfare campaign is to nonviolently de-industrialize and reduce consumption and procreation to ecological carrying capacity limits; by implementing an Ecology of Peace international law social contract; that requires all the world's citizens to procreate and consume below ecological carrying capacity limits; and consequently holds breeding and/or consumption scarcity combatants accountable for their 'Crimes of Aggression Acts of War'. Put simply in terms of ICC Prosecutor Luis Moreno-Ocampos [red/green light international law analogy](#); individuals breeding and/or consuming above ecological carrying capacity limits should be considered guilty of procreation/consumption crimes of aggression acts of war; i.e. have crossed the red light.

The Ecology of Peace culture's definition of 'crimes of aggression acts of war' is as follows: "Any individual who is found guilty of advocating on behalf of, legislating, enforcing, or obeying any – cultural, religious, common, statutory, constitutional, or international – 'scarcity combatant' social contract; which enables or advocates on behalf of human procreation, consumption or production of resources that transgress ecological carrying capacity limits, is guilty of the 'crime of aggression act of war'."

Carrying Capacity Sustainability: I=PAT Equation:

For activities to be genuinely sustainable it must be possible for them to continue indefinitely. The impact of humanity on the environment and the demands that people place on the resources available on the planet can be summarized by what is known as the Ehrlich or IPAT equation, I=PAT. I = impact on the environment or demand for resources, P = population size, A = affluence and T = technology. The two most important conclusions deriving from this IPAT

footprint relationship are that: (i) the Earth can support only a limited number of people, at a certain level of affluence, in a sustainable manner; and (ii) Population and Consumption must be reduced to below carrying capacity.

An individual's IPAT footprint is a result of: (A) Consumption Footprint multiplied by (B) Procreation Factor.

Consumption Footprint: Consumption footprint calculators are based upon [Global Footprint Application Standards](#), and calculate an individual's consumption footprint based upon various questions about their consumption lifestyle's; and provide a final consumption footprint in global hectares which is the individual's 'consumption footprint'; i.e. the amount of global productive land required for the production of products the individual consumes. Consumption Footprint calculators can be found at among others: [Global Footprint Network](#); [Earth Day](#); [Center for Sustainable Economy](#); [EcoCampus](#).

Global Footprint concepts were developed by among others: Dr. Mathis Wackernagel; Dr. William Rees; Dr. Herman Daly and the Global Footprint Network Standards Committee is one of two committees overseeing scientific review procedures and standards for Footprint calculations.

Procreation Factor: According to the research of [Paul Murtaugh](#): A parent increases their consumption footprint by a factor of 20 for every child procreated.

Carrying Capacity aka Biocapacity Limits: "The maximum number of individuals that can be supported sustainably by a given environment is known as its 'carrying capacity'. Worldwide the total amount of biologically productive land and sea amounts to 12 billion global hectares (gha); or 1.8 gha each if divided by 6.7 billion each. Guerry's Laws are drawn up in accordance with the proactive conservation policies of Bhutan, who set aside 40% of their biologically productive to be returned to its natural state, for other species and wildlife conservation purposes; then that means that the total amount of biologically productive carrying capacity land available to humans is 60% of 12 billion; which amounts to 7.2 billion gha total; or 60% of 1.8 gha, which is 1 gha each.

Population factor is relevant, because the more humans there are, the less biologically productive land there is for everyone else.

For example:

Biocapacity limits of 6.7, 3.5, 1 Billion, 500, 250 & 100 Million humans: 7.2 billion global hectares of biologically productive land and water divided by (a) 6.7 billion humans, equals: 1.07 gha each; (b) 3.5 billion equals 2.05 gha each; (c) 1 billion equals 7.2 gha each; (d) 500 million equals 14.4 gha each; (e) 250 million equals 28.8 gha; (f) 100 million equals 72 gha each.

Mother Nature's Fine Print:

"Education is when you read the fine print. Experience is what you get if you don't." - Pete Seeger; [AvantGardens](#).

Put simply the motto of an Ecology of Peace international law social contract can be summarized as following:

Ecology of Peace factual reality simple justice legal language terminology:

Ecology of Peace Facts Reality: (a) Earth is not flat; (b) Earth renewable and non-renewable resources are finite; (c) When humans **breed or consume** above **ecological carrying capacity limits**, it results in **resource conflict**; (d) To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict national and international inter-cultural, racial and religious resource war conflict; humans must reform and/or abolish the **Masonic War is Peace** international law social contract; and cooperate to implement an **Ecology of Peace** international law social contract that restricts all the worlds citizens, from all races, religions and classes; to breed and consume below ecological carrying capacity limits.

In God's 'Religions of Peace' commandment language terminology:

“Humans who are members of Religions of Peace shall advocate on behalf of, legislate, enforce and obey laws which support the implementation of an international law social contract that require humans from all races, religions, classes and cultures to procreate and consume below ecological carrying capacity limits.”

In David Eden Lane's '14 words' terminology:

“Humans – from whatever race, religion, class or culture – who value responsible freedom, honour, justice and their racial, religious or cultural posterity; must cooperate to legally protect the natural capital foundation of all life for all species; by implementing an Ecology of Peace international law social contract; that restricts all of earths citizens procreation and consumption to below ecological carrying capacity limits; thereby securing the indefinite existence future of earth's natural capital foundation and by extension the resource foundation for all responsible freedom cooperating humans from all races, classes, and religions.”

*In EoP Axis Ishmael **Earth First** – In a race war; I'm on the side of the bears –**radical-conservative-redbutton** speak Nature Bats Last terminology:*

“If the economy / your bible / Koran / Torah / Talmud / Masonic Constitution is more important to you than the environment; try holding your breath; while you count your money / read your bible / Koran / Torah / Talmud / Masonic Constitution; and tell me what is more important to your survival: protecting the ecological natural capital foundation of life: our air, water and food by implementing an international social contract that restricts everyone's breeding and consumption to ecological carrying capacity limits; so that all species on Earth can continue breathing, drinking clean water; and having organic food to eat; or counting your money / reading your Bible / Koran / Torah / Talmud / Masonic Constitution.” – amended quote of Guy McPherson; who coined the term 'Near Term Extinction' [NTE] which he writes about on his blog: Nature Bats Last.

Honourable civil factual reality problem solving focused; legal race war conversation:

If there is to be a civil war conversation that we have not had before; let it be a legal verbal In Your Face honourable one.

If we have any desire to create an alternative future, it is only going to happen through a shift in our language. If we want a change in culture, for example, the work is to change the conversation—or, more precisely, to have a legal conversation that we have not had before, one that has the power to create something new in the world. [Werner Erhard: [Culture change requires a conversation we have not had before](#)]

“Unlike plagues of the dark ages or contemporary diseases we do not yet understand, the modern plague of overpopulation is soluble by means we have discovered and with resources we possess. What is lacking is not sufficient knowledge of the solution but universal consciousness of the gravity of the problem and education of the billions who are its victims. The only way our overpopulation and overconsumption problems can be solved. First the white man and the black man have to be able to sit down at the same table. The white man has to be able to feel free to speak his mind without worrying about hurting the feelings of the negro. The so-called negro has to feel free to speak his mind without worrying about hurting the feelings of the white man. The soldiers have to be able to feel free to speak their minds without worrying about hurting the feelings of the civilians. The civilians have to feel free to speak their minds without hurting the feelings of the soldiers. Then they can bring the EoP v WiP issues that are under the rug out on top of the table and take an intelligent approach to get the problem solved” [Amended: Martin Luther King: [Margaret Sanger Human Rights Award Acceptance Speech 1966](#); Malcolm X: [Make it Plain](#)]

In Garrett Hardin’s: [Living on a Lifeboat](#) and [Lifeboat Ethics: The Case Against Helping the Poor](#); the basic access to resources leadership decision was ‘nations resource lifeboat is not full yet, whom of those drowning in the water; should we give the opportunity to get into our national lifeboat; and whom should we just allow to drown’. In US Army’s [Equal Opportunity Leaders Shrinking Lifeboat Ethics](#) course; while not explicitly stated in the course material; that – in terms of [ecological overshoot](#) resource depletion [tipping points](#) and [resource conflict](#) – all nations on Earth’s resource lifeboats are not only full; but shrinking so now the decision is not ‘whom to let in’ but ‘whom should be removed from the lifeboat aka national genepool; how should they be removed; how many should be removed; by whom and when should they be removed?’ [EoP v WiP NWO negotiations [PDF](#): US Army Reserve Command Ft Bragg NC]

Are USA v Aamon Bundy parties willing to change the conversation; to have a conversation that has not been had before; to have a conversation about – [ecological overshoot](#) resource depletion [tipping points](#) and [resource conflict](#) – national resource shrinking lifeboats decision-making about ‘whom should be removed from the lifeboat aka national genepool; how should they be removed; how many should be removed; by whom and when should they be removed?’

Do you sincerely want a change in Masonic War is Peace divide and conquer rule of force – pretend we give a fuck about economic inequality; psycho-social resource conflict conformity pressures; climate change, food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, corporate and political corruption; nation states standing army or dissident guerrilla army ‘terrorism’ resource war military aggression, etc; while doing sweet fuck all about the root ‘right to breed and consume with total disregard for ecological carrying capacity limits’ international law social contract clauses – culture?

For a comparative difference between Ecology of Peace 'responsible freedom' and War is Peace 'slavery freedumb' definitions; see: [EoP v WiP culture War » original MILED signup page](#).

EoP Commonsism Responsible Freedom & WiP Slavery Freedumb:

Ecology of Peace Commonsism Responsible Freedom: To choose to be responsible by choosing to breed and consume below carrying capacity limits; and relate socio-culturally in terms of Voluntarist fully informed consenting agreements; to benefit from the (a) resource abundance ability to live a self sufficient sustainable lifestyle; and (b) freedom of association Voluntarist principles allowing all to engage in their own personal searches for meaning; without moralistic busybodies coercively asserting their political correct or other moralistic ideologies upon everyone. Essentially allowing all citizens to do whatever they want as long as (a) they breed and consume below carrying capacity; and (b) engage in fully informed consensual activities.

Masonic War is Peace Motarded Rat Race Slavery Freedumb: The [seething energies of lucifer](#) freedumb to obey the 'inalienable [freedumb slavery] right' to breed and consume above carrying capacity limits; denying personal responsibility for the human factory farming organized violence conquer and culling racism, sexism, nationalism, socialism, capitalism, nazism, islamism, zionism, corporatism, stalinism, human sacrifice culling, etc consequences; as people are motivated beyond retardation (motarded) to choose to join one or other ideological, religious, racial or cultural tribe to engage in resource war thieving to accumulate more resources to grow their tribe to enable it to protect itself from another tribes organized violence resource war thieving.

Summary: Ecology of Peace & War is Peace history:

[Caveat: Please Note: Michael Hoffman has not yet confirmed his willingness to be a legal expert witness about his claims – documented in Secret Societies and Psychological Warfare – that the origin of Christianity was a revolt against occult Babylonian human sacrifice practices resulting from totalitarian agriculture population pressures.]

Since the beginning of humans (whatever you believe that beginning to be) humans lived in nomadic hunter gatherer tribes, like the Bushmen, Aborigine's, etc. Male duties were to hunt and protect the tribe. Women's duties were to forage and nurture the young. Both men and women contributed to the tribe's economic resources and duties, hence power was shared reasonably equally. Tribes were concerned about not overbreeding; since such overbreeding resulted in the resources in a territory being depleted quicker, and less resources for the rest of the tribe; requiring them to move to new territories. After three million years of humans living like hunter gatherers, it is estimated that the human population at the beginning of the Neolithic period was around ten million. This period of humans living in harmony with nature would be the story of the Garden of Eden; and the story of Cain and Abel.

Then things changed very quickly for the tribes who invented totalitarian agriculture. Women invented agriculture, resulting from their close association and experimentation with seeds and plants, in their role as foragers. This change occurred because some tribes started practicing a particular form of 'surplus agriculture' (hereinafter referred to as 'totalitarian agriculture') where farmers grew large surpluses of stored food.

The consolidation of agriculture results in the centralization of political power: cities & civilization. Before the discovery of oil and coal, the practice of totalitarian agriculture farming was far more labour intensive than hunting and subsistence farming; so men took over agriculture; and women were now relegated to being brood sows, to breed economic and cannon fodder: children to work in the fields or be soldiers. Surplus food meant that some members of the tribe could now work in other specialized fields: soldiers, clerks, etc; and also that the tribes could grow their tribes population. World population doubled in three thousand years; and again in only two thousand years. It jumped from ten million to fifty million—probably eighty percent of them being practitioners of totalitarian agriculture. It was getting crowded. [Sources: [Guns, Germs & Steel](#) | [Eve's Seed: Religious Ecological Illiteracy](#) | [Story of B](#) | [Agriculture & Civilization](#) | [City & Civilizations](#) | [Totalitarian agriculture](#) | [Human Factory Farming: Story of our Enslavement](#)]

EoP interpretation of Bible: Adam and Eve's apple story represents Eve teaching Adam occult 'sexual breeding war and capital resource accumulation war' knowledge. In occult Gnostic teaching the sickle symbolizes Saturn, or the Demiurgos, their operating engineer of the universe; or the Mason's civilization God Architect. The sickle's symbology involves the deliberate manipulation of nature through farming practices to produce surpluses for the ego sociopolitical or economic profits status of man. The farming of plants quickly evolved to the farming of humans; the process of deliberately encouraging overbreeding to increase sociopolitical or economic status profits from direct or indirect — debt or welfare dependency — slavery. The harvesting of plants quickly evolved to the harvesting of humans; through human sacrifice. It was at such a time that Christianity emerged, who were people who wished to rid their communities of the occult priesthood and their occult fertility human sacrifice rituals; and return to simpler ways of living in harmony with nature. Saturnian occult magicians were overthrown by Celtic Christianity's gospel of simplicity.

In ***Secret Societies and Psychological Warfare***, Michael Hoffman documents his interpretation of Christianity's origins as a people who were opposing the occult Babylonian human sacrifice practices resulting from totalitarian agriculture population pressures:

"This revolution marks the end of man's Edenic relationship with the natural world. Hence forward man is alienated from nature by means of the Saturnian "scythe" which symbolizes the sense of separation from God's natural creation that man experienced after the Fall. Man began his peregrination away from Eden through his conceit that he would "become as god." Yet, as soon as he left the Divine Plan for the occult process his stated bjective became the Kabbalistic tikkun olam or "repair of the world," via the intervention and imposition of human brain power—the very ego-maniacal device that caused the separation from God's natural Eden in the first place."

[.] "But as cities expand these limitations become more onerous and neglected with the result that, in the language of apocalypse, the ...city becomes Babylon, the parasitic whore and proceeds toward destruction. In this belief the... (traditional) element in ancient Rome objected to... expansion beyond the original city boundaries, considering it a breach of the foundation contract.

"Such counsels were of course ignored, and in consequence Rome, following the career of all previous empires, became Babylon indeed... civilization tends to grow more elaborate and to make ever greater demands on the earth that sustains it. There comes a time when the old natural devotion to the earth... is exchanged for...

the desire to increase the products of the earth by artificially stimulating its fertility. This stage is marked in history by the appearance of sun gods... divinities of reason, intellect and centralized government, whose legends refer always to their victories over dragons... (i.e. nature)." This policy of "artificially increasing the earth's fertility and multiplying the gifts of its spirit, instead of accepting what is given by nature," is evident in the staking of the earth in symbolism, as is seen in the motif of the knight spearing the dragon, which is sometimes viewed as the pinnacle of the victory of light over dark.

But we should also be aware that there is an alternate, occult reading of this image. This Arthurian symbol has been celebrated by pagans and Freemasons as a sign of man's usurpation of natural creation. The staking process is seen by them as a means to "pin down" the heretofore flowing character of the energy of creation, so as to be harnessed and bled by Stonehenge-like technology, in order to give greater and greater resources to man. Michell: "The appearance of the sun god signals the introduction of a technology that aims to alter the natural channels of the earth spirit and to stimulate its energies for the benefit of an increasingly large settled population... From all that has recently been discovered about the scientific knowledge and methods of the megalith builders, it appears that their system was in the magical tradition of Egypt, Babylon and the ancient East... At Delphi, by spearing the serpent and localizing its energies, Apollo raised the productivity of the oracle... Every ancient standing stone is like the omphalos in the Temple of Apollo, driven into the head of the telluric serpent current, fixing and augmenting the (earth) energies which had formerly fluctuated.

"Yet in the end the system became onerous and ineffective, demanding at least as much from the people as it gave in return... Here is revealed the inevitable betrayal by any institutionalized system of technology of the people who have come to depend on it... The land (had) become more productive, the people richer and more numerous—until, under the influence of cyclical changes in the heavens, the flow of spirit began to withdraw from the temples and take other paths.

"The latter-day priests, having neglected the principles of the old astronomical science by which the temples were first sited and planned, and no longer sensitive to the earth's spiritual energies, could only resort to more frantic invocations, attended by ever increasing sacrifice, in attempts to repeat the former results. And thus followed, as it has on many occasions and at many places over the world, a reaction against the artificial and ever more futile proceedings of the magicians and a return to simpler ways."

It is at this juncture in history that the pre-Christian people of Europe were Christianized. The willingness of these hardy, comparatively far more natural and attuned people than we moderns, to render themselves susceptible to Christianity is misunderstood today.

The assumption is that Christianity simply deceived and coerced the hardy pre-Christian Europeans into the fold. But early Christians like St. Patrick were accepted because they rid the pagan people of what Michell terms, "the final excesses of a degenerate priesthood, whose altars demanded ever more sacrificial blood before they could evoke response" from the "earth energies."

[.] So we observe that Saturn and his "golden age" architecture (both mental and physical), came only after the end of Eden, after Saturn-Sirius had separated the unity of heaven and earth by means of his fateful sickle.

Beginning of War is Peace War resulting from overbreeding and overconsuming:

In all of three million years, humans had never been crowded anywhere. But now the people of practicing totalitarian agriculture were learning what it means to be crowded. Overworked, overgrazed land was becoming less and less productive. There were more people, and they were competing for dwindling resources; and people now began to organize their tribes into forms of standing armies to fight for land or resources. The tribes first war-making machinery: warlords—kings, princes, emperors and their nation states formed for the purpose of armed defense and aggression. "It's during this period that we see the standing army forged as the monarch's sword of power. Without a standing army, a king is just a windbag in fancy clothes. But with a standing army, a king can impose his will on his enemies and engrave his name in history—and absolutely the only names we have from this era are the names of conquering kings. No scientists, no philosophers, no historians, no prophets, just conquerors. For the first time in human history, the important people are the people with armies."

Evolution of War is Peace War: Advancement and acquisition of Human and Military Technology and Capital vs Breeding of Cannon Fodder:

In a battle between two armies with the same level of military skill and technology; generally the bigger army wins. Many of history's military conquerors have relied on simply growing cannon fodder to slaughter on the battlefields to win their battles or wars. Some military conquerors focused on improving their soldiers skills (psychological, physical, intellectual, spiritual, etc) and technology (better armor, better swords, better chariots, better bows and arrows, better scaling machines, better rams, better artillery, better guns, better tanks, better planes, better bombs, better rockets, better nerve gas, better germs, better chemicals) .

Many times small armies with greater technological equipment and/or military tactical or strategic skills won: such as Battle of Blood River, Gallipoli. [[Gallipoli: Mustafa Kemal Atatürk](#)]

Michael A Hoffman: *Secret Societies and Psychological Warfare*:

This Protestant inquisition is seldom mentioned nowadays in keeping with the masonic strategy of tarring only the Catholic Church with the brush of "inquisitor" and thereby building up Protestantism as the exclusive "true Christianity." They have presented this false picture to the world because Protestantism was the chosen vehicle through which Freemasonry infiltrated Christianity. Protestants, not just Catholics, persecuted and executed thousands of Anabaptists (the forerunners of today's Mennonites and Amish). Michael Servetus, a dissenting mathematician, was burned at the stake in Switzerland by Calvinists.

According to contemporary adherents of paganism, the 16th century covens of Wicca sided with the Protestant Queen Elizabeth against the Catholics, in appreciation of her having awarded Satanist John Dee, the founder of Freemasonry, high office in her government (Howard Rheingold, "The Pentacle and the Wand," Whole Earth Review, Spring, 1992, p. 61).

The French Revolution of 1789, or Reign of Terror as it is more appropriately known, was a masonic war against the Catholic church and the Catholic people of France; a war conducted with all the instruments of torture and all the atrocities of an inquisition.

The masonic hanging judge, Jean-Baptiste Carrier, ordered the execution of 13,000 Catholics, who were drowned in the Loire River in boats specially designed for that purpose. On Dec. 23, 1793, the masonic General Francois Westermann attacked the Catholic village of Savenay, killing hundreds of Catholic women and children. Westermann bragged that he had "trampled children under horses' feet and massacred women who will no longer give birth to brigands."

In 1794, another of the generals of the French Revolution, the Freemason Louis-Marie Turreau, ordered the slaughter of 109 Catholic children in the village of Luc-sur-Boulogne. In the western section of France, in the area around Nantes known as the Vendee, hundreds of thousands of Catholics were slaughtered by the masonic government of the French Revolution. Thousands of their religious leaders were also killed in Paris and other areas for their opposition to the suzerainty of the masonic cryptocracy. A great deal has changed since then however. Today the Vatican is as firmly in the pocket of the Freemasons as are many Protestant institutions.

WiP Resource Conflict: Initially economic, then political, and finally military organized conflict.

Centuries of conflict over resources generated an international law social contract founded upon Masonic phallic force (rule of force international treaties); that rewarded those who engage in seething energies of lucifer breeding and consumption wars; which bribe their tribes members to believe it is their 'inalienable [freedumb slavery] right' to breed and consume above carrying capacity limits; while denying personal responsibility for the human factory farming organized violence conquer and culling racism, sexism, nationalism, socialism, capitalism, nazism, islamism, zionism, corporatism, stalinism, human sacrifice culling, etc consequences; as people are motivated beyond retardation (motarded) to choose to join one or other ideological, religious, racial or cultural tribe to engage in resource war thieving to accumulate more resources to grow their tribe to enable it to protect itself from another tribes organized violence resource war thieving. Michael A Hoffman: *Secret Societies and Psychological Warfare*:

Perhaps more important, there is one key principle of the psychology of mass mind control missing from the old model of authority embodied by the early Fathers of the Christian Church: they did not flatter and they did not come in disguise. The core of orthodox Christianity's belief system was antioccult to the marrow: it was the bad news about human nature.

Since we choose to refuse to genuinely heal the rift between the two sides of our mentality by the tough means of repudiating our lying public persona and taking action on the understanding of our true self, we relinquish autonomy to those who

make it appear that they can heal us at no great cost or trouble on our part. Never mind that "They" are also the ones who implanted the rift in the first place. The point is "We" have little or no power. We cannot act. We cannot invent. We cannot cure. We must wait and see what happens. We must see what They make happen.

The final coffin in the nail of our free will is the fact that we ourselves know in our heart of hearts that the above is false. That it is We the People who have the power and the responsibility and that we could crush Them tomorrow if we chose to. They are only an illusion, every bit as ephemeral as the patter of a carnival sideshow bunco artist beckoning to us from the other side of the hootchie-kootchie tent.

But if we overthrew them tomorrow we would have to write our own scripts. We would have to heal ourselves. We would have to admit the colossal waste and loss and destruction of the past years which our laziness and folly have made possible. We would have to experience the pain of being alive and responsible. We would have to start acting like men and women instead of as slaves and weaklings.

The Hermetic Academy is confident, and not without reason, that we will offer no substantial, meaningful resistance to their imperium. Why?

The foster mothers of the human race, at least in the West, are cows. Perhaps we've imbibed so much of their fluid that we have become cows, terrified of freedom and its responsibilities. Epistemologist Charles Fort once remarked, "I think we're farmed."

According to the secret tradition of the Hermetic Academy, the "tree" of the Knowledge of Good and Evil in the Garden of Eden was a psychedelic mushroom, *stropharia cubensis*.^{*} These mushrooms grow only in cow dung.

Flattery: The First Principle of Mind Control

Why then does he revere them? Because they flatter him. This is the first secret of mass mind control and can be observed as the foundation stone of virtually every false religion, party, cult, philosophy, system and training. How can modern man free himself when he is told that he is already a demi-god, that the problem lies only in finding a pure enough economic or political system worthy of his high-minded brilliance?

If we look closely we will see that this mind control principle is so basic and simple it is almost stupidly so, to the point that we marvel that anyone would be seduced by it. But it is all a matter of attention, as we saw in the parable of the mountebank and the clown. Arrogant hypno-patsies have been told by their masters that they are "Demi-gods" and demi-gods are never deceived or distracted. They're too smart! And by their arrogant self-satisfaction they blind themselves to the simplicity of the device that ensnares them and that is when "the real sales pitch begins."

What the Alchemical managers have bred over a millennia is a human race of the most wretched stupidity and ignorance unrivaled in thousands of years. These blind slaves are told they are "free" and "highly educated" even as they march behind signs that would cause any medieval peasant to run screaming away from them in panic-stricken terror. The symbols that modern man embraces with the naive trust of an

infant would be tantamount to billboards reading, "This way to your death and enslavement," to the understanding of a traditional peasant of antiquity.

Who is the modern man? The puppet-masters say he is the smartest, most advanced individual to ever strut the planet, the most relatively liberated being in history. But Louis-Ferdinand Celine said it well, "What does the modern public want? It wants to go down on its knees before money and before crap!"

Totalitarian Agriculture WiP Empires that violently collapsed:

Humans who engage in totalitarian agriculture, engage in Predator-Prey Growth and Collapse of Civilization/Empire cycles: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan. Collapses result from (1) Ecological Strain and (2) Economic Stratification and have included the disappearance of between 90-99% of their populations (from famine, disease and organized violence resource wars) including their kings, Gods, calendars and other complex political and cultural institutions. [[Human And Nature DYNAMICS \(HANDY\): Civilization Collapse due to Ecological Strain & Economic Stratification](#)]

Ecology of Peace (EoP) social contract:

Obviously an Ecology of Peace social contract cannot work for just one country; because the other countries who are overbreeding and overconsuming will simply come and conquer the Ecology of Peace country and steal their resources. For an ecology of peace social contract to work, it must be an international social contract.

In nature Keystone Predators maintain Ecological Equilibrium between other predators and their prey: A keystone species -- like the Platteau Pika in China, the Black Tailed Prairie Dog in Arizona, Starfish in the Pacific Northwest -- act as Supreme Responsible Predators, who stop other lower predators from overbreeding or overconsuming the resources in an ecological system. Keystone Predator-prey systems enhance ecological equilibrium, biodiversity and balance.

For example: A starfish is the top predator upon a community of invertebrates inhabiting tidally inundated rock faces in the Pacific Northwest. The rest of the community included mollusks, barnacles and other invertebrates, for a total of 12 species (not counting microscopic taxa). When the starfish was removed the species were reduced to 11. Soon, an acorn barnacle and a mussel began to occupy virtually all available space, out competing all the other species. Species diversity dropped from more than 12 species to essentially 2. The starfish was a keystone predator, keeping the strongest competitors in check. Although it was a predator, it helped to maintain a greater number of species in the community. Its beneficial impact on species that were weak competitors is an example of an indirect effect.

An Ecology of Peace international law social contract works in the same way. It restricts all human cultures, religions, races, etc to procreating and consuming below regional, national and international carrying capacity limits. It functions as a form of 'legal /jurisprudence pika / prairie dog / starfish' Keystone predation, by legally mandating the elimination from the planetary genepool of breeding and consuming predator cheaters, to (a) keep the system stable

with regard to human population vis a vis other species and resources; and (b) restricting any one religion, race, or culture from over-predation; by out competing all other species (due to greater access to capital (consumption war predatory benefits) or human cannon fodder (breeding war predatory benefits)). Working Hypothesis Summary: Origin of Man's Belief in God & Devil:

All civilized religions -- from Christianity, to Gnosticism, etc -- were 'created' in the minds of man. Religions occurred subsequent to and as a combined result of (a) man's invention of language which created the cognitive capacity for abstract conceptual thought and inner dialogue: in a primitive bicameral mind what we may now call the conscious or unconscious ego would have been interpreted by the being as hearing voices from some external being; and (b) man's attempt to comprehend and make sense of the concept of 'evil' (aka organized violence), subsequent to man's invention of agriculture, approximately 10,000 years ago; and where such agriculture created food surpluses, resulting in population surpluses, and expansion of their territory resulting in population pressure clashes with other tribes territories, resource war conflict.

In [Gods, voice hearing and the bicameral mind](#); Jules Evans describes reviews Julian Jaynes: [The Origin of Consciousness in the Bicameral Mind](#); as follows:

Jaynes' thesis, baldly stated, is this: human consciousness (which Jaynes defines as self-conscious introspection) only emerged around 3000 years ago. Before that, everyone heard voices and saw visions, which they took as the commands of the gods, and obeyed unquestioningly. These voices or commands came from the right hemisphere of the brain, which 'bicameral man' experienced as alien or Other.

Sensing a voice or presence often emerges in stressful situations – anecdotally, it's relatively common for the dying to see the spirits of dead loved ones, likewise as many as 35% of people who have recently lost a loved one say they have a sense of the departed's continued presence. Mountaineers in extreme conditions often report a sensed presence guiding them (known as the Third Man Factor).

If there are two or ten people living on an island with enough food and other resources and space, for one hundred people; there is no need to coerce another for food or resources freely and abundantly available. In the absence of a resource scarcity conflict mindset, and plenty of space, the only violence possibly experienced is to avoid being food for an animal predator. On such an island there is no need existential crisis meaning necessity for a 'God' in the sky.

Once the tribe introduces agriculture, which results in an agricultural surplus and uses such agricultural surplus to justify greater population; then as the population increases, so the population pressures increase. If nearby tribes also increase populations; there is less space to run away to; when someone in the tribe is temporarily angry, or there is resource scarcity violence.

Consequently my common sense thesis is that Man's creation of 'God' and the 'Devil' were a consequence of psychic existential conflict to attempt to understand so-called 'evil'; or put more simply: the organized violence conflict resulting from population pressures and escalating relations with fellow humans based upon the absence of consent, i.e. extended periods of psychic and physical violence and coercion.

Evil is generally defined as profoundly immoral and wicked, with synonyms: bad, wrong, morally wrong, wrongful, immoral, sinful, ungodly, unholy, foul, vile, base, ignoble, dishonourable, corrupt, iniquitous, depraved, degenerate, villainous, nefarious, sinister, vicious, malicious, malevolent, demonic, devilish, diabolic, diabolical, fiendish, dark, black-hearted.

The word 'evil' put in more simple responsible freedom terms:

Libertarians: 'Any act which I do not want done to me, without my fully informed consent.'

Moral Supremacists: 'Any Act which I pretend I disagree with so as to be part of some religious, cultural or racial 'moral supremacy elite club'; either (a) to silence my conscience and feel good about my alleged moral supremacy 'ethics' or (b) for social status or economic benefits.

Libertarian Ethics:

If I don't like being beaten; then I think anyone of any race, class or religion beating any other person of whatever race, class or religion; who has not consented to being beaten; is 'evil'; engaged in nonconsensual violence. I don't only object to someone being beaten; if they are the same race or class or culture as me. If they do not consent to being beaten; I support them not to be beaten. Put simply: I object to all non-consensual violence.

Even if I don't like being beaten and don't consent to being beaten; I do not impose my moral beliefs on others; and hence if other people consent to being beaten and beating others up; such as for example engaging in an unofficial fight club or official boxing match; and do so in the privacy of their own homes or a selected private venue with other consenting adults; then its none of my business; that they are doing something that I don't consent being done to me. Put simply: Two or more adults engaged in consensual violence in a private venue is none of my ethical business.

Moral Supremacists Ethics:

My decision to oppose anyone being beaten has nothing to do with (a) whether I don't like being beaten or consent to being beaten; but only has to do with (b) my bullshit the public relations image management; to improve my racial, class, religion social status amongst my in-group. Hence I would only object to someone being beaten if they are (a) a member of my racial or religion; and (b) they are being beaten by someone of another race or religion.

Whether I secretly like being beaten or don't like being beaten is irrelevant to my beliefs about whether other people should be (a) beaten without their consent; or (b) engage in fully informed consensual fight club like activities with their consenting adults. I believe I am morally superior to them; and I insist on my moral beliefs about who should be beaten, by whom; irrespective of their own preferences for avoiding being beaten; or choosing to enjoy engaging in violent activities; shall be the law; and shall be enforced upon everyone.

In attempting to understand the existential meaning of this symptom of organized violence 'evil' resulting from violation of carrying capacity limits resource war conflict, man created religions.

I don't pretend to know who is right or wrong in their respective – decoding of Sheva & Lucifer's cryptic gods of death interpretation of Masonic War is Peace international law social contract law – attempts at reaching for the mop.

“...an organization cannot have a conservation policy without having a population policy....the problem solving or parasite leeching test — in which the candidate, confronted with an overflowing sink, is classified according to whether he reaches for the faucet or the mop.” — Amended quote of Daniel B. Luten; as quoted by William Milton Cooper in *Behold a Pale Horse*.

“It really doesn't matter, because either way we're screwed. The quicker you understand that, the wiser you become. I believe that any man without principles that he is ready and willing to die for at any given moment is already dead and is of no use or consequence whatsoever. ... If the people really cared about their fellow man, they would control their appetites (greed, procreation, etc.) so that they would not have to operate on a credit or welfare social system which steals from the worker to satisfy the bum. Since most of the general public will not exercise restraint, there are only two alternatives to reduce the economic inductance of the system. (1) Let the populace bludgeon each other to death in war, which will only result in a total destruction of the living earth. (2) Take control of the world by the use of economic "silent weapons" in a form of "quiet warfare" and reduce the economic inductance of the world to a safe level by a process of benevolent slavery and genocide. The latter option has been taken as the obviously better option. At this point it should be crystal clear to the reader why absolute secrecy about the silent weapons is necessary. The general public refuses to improve its own mentality and its faith in its fellow man. It has become a herd of proliferating barbarians, and, so to speak, a blight upon the face of the earth. They do not care enough about economic science to learn why they have not been able to avoid war despite religious morality, and their religious or self-gratifying refusal to deal with earthly problems renders the solution of the earthly problem unreachable by them. It is left to those few who are truly willing to think and survive as the fittest to survive, to solve the problem for themselves as the few who really care. .... You must accept that you have been cattle and the ultimate consequence of being cattle — which is slavery — or you must prepare to fight, and if necessary die to preserve your God-given right to Freedom.” *Silent Weapons for Quiet Wars*; Milton William Cooper; *Behold a Pale Horse*.

So I am going to provide you a ‘reach for the faucet’ response to Sheriff Mack’s statement in the Truth in Media interview: “To whom can the people turn for peace, safety and liberty; when government becomes out of control and corrupt. If its not your local sheriff; to whom else can you go?”

If any of the disputing parties are sincere about encouraging American veterans, ranchers and citizens to support peace, safety and liberty; I imagine an Ecology of Peace [William Wilberforce](#) and [Eric Liddle](#) would suggest that more than singing Amazing Grace shall be required to free ourselves from [human factory farming slavery enslavement](#); we shall need to have the courage to give up our addiction to the [false left and right wing moral supremacist bullshit propaganda](#) and individual and corporate welfare at the expense of the ecological resource commons that provides us with survival sustenance; and publicly confront the [phallic human sacrifice War is Peace](#) foundation of our secular or theocratic – capitalist, communist, libertarian, socialist,

Christian, Muslim, Catholic, Buddhist, etc – religions; and cooperate with national and international authorities to – hopefully nonviolently – **implement** an **Ecology of Peace** international law social contract that requires all the worlds citizens from all races, classes, religions and cultures to procreate and consume below ecological carrying capacity limits.

“If the economy / your bible / Koran / Torah / Talmud / Masonic Constitution is more important to you than the environment; try holding your breath; while you count your money / read your bible / Koran / Torah / Talmud / Masonic Constitution; and tell me what is more important to your survival: protecting the ecological carrying capacity resource foundation of life: our air, water and food by implementing an international social contract that restricts everyone’s breeding and consumption to ecological carrying capacity limits; so that all species on Earth can continue breathing, drinking clean water; and having organic food to eat; or counting your money / reading your Bible / Koran / Torah / Talmud / Masonic Constitution.” – amended quote of Guy McPherson; who coined the term ‘Near Term Extinction’ [NTE] which he writes about on his blog: Nature Bats Last.

1. Psycho-social resource conflict conformity pressures – like climate change, food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, nation states standing army or dissident guerrilla army ‘terrorism’ resource war military aggression, etc – are a direct and indirect consequence of overpopulation and overconsumption.
2. Overconsumption and overpopulation are a direct consequence of humans procreating and consuming above ecological carrying capacity limits.
3. Humans procreate and consume above ecological carrying capacity limits because the current international law social contract; allows nation states to provide their citizens with the implied ‘right to breed and consume with total disregard for ecological carrying capacity limits’.
4. Humans will stop procreating and consuming above ecological carrying capacity limits when legislators amend the current international law and national constitutional social contract statutes that enable procreation and consumption above ecological carrying capacity limits; to specifically require all the worlds/their nations citizens to procreate and consume below ecological carrying capacity limits.

### **Current International Law Right to Breed & Consume:**

There are many examples of current international law statutes that directly and indirectly provide citizens with the right to breed and/or consume above ecological carrying capacity limits; and lawyers, prosecutors and Judges who apply them, all while pretending their courts are concerned with ‘truth’ and ‘evidence’; pretending they have fuck all clue why and how those statutes result in food shortages & inflation, cost of living increases, urban sprawl, traffic jams,

### **AnthroCorpocentric Jurisprudence’s Innocence for Sale Indulgence Legal Matrix:**

“Corporations are a Frankenstein monster which States have created by their corporation laws.” - Supreme Court Justice Louis D. Brandeis, 1916

“Every right must be evaluated in the network of all rights claimed and the environment in which these rights are exercised. If we hold that every right, “natural” or not, must be evaluated in the total system of rights operating in a world that is limited, we must inevitably conclude that no right can be presumed to be absolute, that the effect of each right on the suppliers as well as on the demanders must be determined before we can ascertain the quantity of right that is admissible. From here on out, ours is a limited world. Rights must also be limited. The greater the population, the more limited the per capita supply of all goods; hence the greater must be the limitation on individual rights, including the right to breed. At its heart, this is the political meaning of the population problem.” – Garrett Hardin, Limited World, Limited Rights

Civilized Patriarchy’s Legal Matrix Reality doctrine -- the Inalienable ‘Right to Breed and Consume, but you need a License to Own a Gun, a License to Drive a Car, a License to Practice Law, a television license, a credit license, a license to earn a living, a university exemption license, a license to fish, a license to hunt, a liquor license, a business license, a marriage license, in some U.S. states, five year olds, even need to get a license to run a lemonade stand on their front lawn -- hypocritically referred to as the ‘rule-of-law’ is a legal world of lawyers, politicians and priests, who prefer to negligently ignore, plausibly deny, or socio-psycho-phallicly benefit from the conquer-and-multiply and divide and conquer control over the means of human reproduction and consumption. It is a Matrix reality, of legal, political and religious indulgence salesmen.

It is a legal world, very similar to the Matrix religious world that existed before Martin Luther confronted the religious indulgence salesmen with his Ninety-Five Theses, on the Church of All Saints, on 31 October 1517, thereby initiating the Protestant Reformation.

In the Catholic Church’s religious Matrix world, only Catholic Bishops were entitled to be interpreters of the ‘word of god’. Only they could decide what God meant, about who was guilty

and who was innocent, who would go to hell and who would go to heaven. God did not speak to common people, except via the Catholic Church's bishops.

In Civilized Patriarchy's Legal Matrix world, only those who swear blind obedience to Civilized Patriarchy's Legal Matrix world – lawyers, prosecutors and judges – are deemed to possess the supposed superior intellectual Legal Godlike capabilities, to decipher, decode and interpret the 'word of civilized patriarch gods', hence capable of deciding which of us mere Commons surplus cannon fodder mortals acts of commission, or omission, is 'lawful' or 'unlawful'.

Civilized Patriarchy's Legal Matrix 'AnthroCorpocentric law' is based upon Flat Earth 'jurisprudence', as per the demands of those capable of purchasing Flat Earth legislation indulgences which make their ecologically – breeding/consumption war -- criminal acts, to be deemed as 'legal/lawful' conduct by the Legal Matrix Bishops: lawyers, prosecutors and Judges.

It is a Matrix world of legal indulgence salesmen; who -- 'Contempt in Facie Curiae' -- demand the public's sycophantic submissive obedience; for their supposed superior intellectual Godlike capabilities, to decipher, decode and interpret which of us mere Commons surplus cannon and vote fodder mortals acts of commission, or omission, is 'lawful' or 'unlawful'.

### **Thieving, Conquering, Murdering and Culling Acts of Un/Lawfulness:**

"Military men are just dumb, stupid animals to be used as pawns in foreign policy." - Henry Kissinger; *The Final Days*, by Bob Woodward & Carl Bernstein

Surplus vote fodder citizens may convert to becoming cannon-fodder citizens by joining the military to commit conquering or culling acts of murder and theft, as long as their murder and theft is sanctioned as a lawful conquer, culling or theft order, by one or more groups of left/right conquer-and-multiply legal indulgence salesmen.

In this Matrix Reality legal world, soldiers tasked with the national security conquering and culling responsibilities, of conquering to thief another tribe's resources, and culling population 'useless eaters' and 'oxygen thieves' surplus population excesses; on behalf of the conquering and culling profiteering demands of civilized patriarchy's civilian corporate and political elite; constantly find themselves confronted with the conquer-or-culling "Befehl ist Befehl" Catch 22 dilemma:

To obey, or not to obey, a 'Lebensraum', 'Difaqane', 'Operation Freedumb' and the thousands like them, order to conquer or cull; since a lawful conquer or culling order, by one group of left/right conquer-and-multiply legal indulgence salesmen, can easily be reinterpreted to be an unlawful order, by another group of opposing left/right conquer-and multiply legal indulgence salesmen; presenting a Catch 22 dilemma from which there is no legal escape.

One who refuses a 'lawful' conquering or culling order will still probably be jailed for refusing orders, and one who accepts an 'unlawful order will be jailed for committing unlawful culling or conquering acts.

Who decides, what is, and what is not, a conquering or culling *lawful*, or *unlawful* order?

The 'Inalienable Right to Breed' Matrix Reality conquer-and-multiply indulgence salesmen, with their specious justifications, and nightmare of Legal Matrix reality generated bureaucratic stare-decisis cryptic rules and statutes, of course!

"I don't know what you mean by 'glory,'" Alice said.

Humpty Dumpty smiled contemptuously. "Of course you don't—till I tell you. I meant 'there's a nice knock-down argument for you!'"

"But 'glory' doesn't mean 'a nice knock-down argument'," Alice objected.

"When I use a word," Humpty Dumpty said, in rather a scornful tone, "it means just what I choose it to mean—neither more nor less."

"The question is," said Alice, "whether you can make words mean so many different things."

"The question is," said Humpty Dumpty, "which is to be master—that's all."

-- Through the Looking Glass, by Lewis Carroll

### **Anthropocentric Master's of 'Relevance' Jurisprudence:**

The question in a civilized patriarchy court is only concerned with who is the master of one word: '*relevance*'.

Any question or answer that exposes civilized patriarchy's Legal Matrix system for what it is; a system far more corrupt than the Catholic Church's Indulgences for Sale religious matrix, is simply deemed as 'irrelevant'.

It is 'irrelevant' that legislators, lawyers, courts and judges defy the laws of ecology with a massive 'fuck you', by legislating, interpreting and enforcing Legal Matrix doctrine, that encourages citizens to breed and consume above cultural carrying capacity limits.

It is 'irrelevant' that legislators, lawyers, courts and judges know that legislation which ignores carrying capacity limits results in ecological overshoot, surplus vote-cannon-fodder populations, economic hierarchical inequality, and scarcity induced local, national and international conflict.

It is 'irrelevant' that legislators, lawyers, courts and judges know that legislation which enables ecological overshoot in multi-cultural/ethnic/religious communities, manifests as inter-cultural / ethnic / religious conflict.

It is 'irrelevant' that legislators, lawyers, courts and judges know that inter-cultural / ethnic conflict is a great divide and conquer tool to manipulate the proletariat to perceive other cultural/ethnic proletariat as the source of their own overshoot-scarcity-conflict misery.

It is 'irrelevant' that legislators, lawyers, courts and judges sit in judgement about an accused's case of theft or murder; while consciously ignoring the theft and thievery and participation in mass murder of the civilized patriarchy corporate elite, who purchased 'Innocence for Sale' Indulgences from legislators to avoid legislation that defines their ecologically criminal acts of billion and trillion dollar thievery and murder as 'unlawful'.

***What is relevant?:***

It is relevant that civilized patriarchy's penis constitutions human factory farming rights to breed and consume, is to be master —that's all.

***Who says so?:***

Civilized Patriarchy's ecologically illiterate Legal Matrix Legislator's, lawyers, judges and prosecutors ego-genitals say so!

**Totalitarian Agriculture as the source of Taker resource scarcity social-conflict contract problems:**

The problems with Taker social contract occurred with the invention of Totalitarian agriculture; which describes the behaviour of humans who violate their original indigenous tribal territory's by choosing to engage in surplus food production (economic growth); resulting in surplus human (population growth).

When any tribe of humans overbreed and/or overconsume the natural resources in their perceived tribal territory; they travel beyond their tribal territory to go and find resources they have over-consumed and degraded. When such a tribe enters another tribes territory, then conflict occurs (from economic, political to physical, an organized violence warfare). To limit inter-tribal territorial resource acquisition conflict, all tribes must agree to limit procreation and consumption to their tribal territory ecological carrying capacity limits.

Simplistically the history of war can be summed up as: Every single battle between two groups of racial, religious, ethnic, or ideological warriors, engaged in organized violence resource thieving or defence, since the advent of [totalitarian agriculture](#), was a result of one or both of those tribes having overbred and/or overconsumed, and engaging in resource thieving into another tribes territory.

Since the beginning of humans (whatever you believe that beginning to be) humans lived in nomadic hunter gatherer tribes, like the Bushmen, Aborigine's, etc. Male duties were to hunt and protect the tribe. Women's duties were to forage and nurture the young. Both men and women contributed to the tribe's economic resources and duties, hence power was shared reasonably equally. Tribes were concerned about not overbreeding; since such overbreeding resulted in the resources in a territory being depleted quicker, and less resources for the rest of the tribe; requiring them to move to new territories. After three million years of humans living like hunter gatherers, it is estimated that the human population at the beginning of the Neolithic period was around ten million.

Then things changed very quickly for the tribes who invented Totalitarian agriculture. Women invented agriculture, resulting from their close association and experimentation with seeds and plants, in their role as foragers. This change occurred because some tribes started practicing a particular form of 'surplus agriculture' (hereinafter referred to as 'totalitarian agriculture') where farmers grew large surpluses of stored food. The consolidation of agriculture results in the centralization of political power: cities & civilization. Before the discovery of oil and coal, the practice of totalitarian agriculture farming was far more labour intensive than hunting and subsistence farming; so men took over agriculture; and women were now relegated to being brood sows, to breed economic and cannon fodder: children to work in the fields or be soldiers. Surplus food meant that some members of the tribe could now work in other

specialized fields: soldiers, clerks, etc; and also that the tribes could grow their tribes population. World population doubled in three thousand years; and again in only two thousand years. It jumped from ten million to fifty million—probably eighty percent of them being practitioners of totalitarian agriculture. It was getting crowded.

*Beginning of War is Peace War resulting from overbreeding and overconsuming:* In all of three million years, humans had never been crowded anywhere. But now the people of practicing totalitarian agriculture were learning what it means to be crowded. Overworked, overgrazed land was becoming less and less productive. There were more people, and they were competing for dwindling resources; and people now began to organize their tribes into forms of standing armies to fight for land or resources. The tribes first war-making machinery: warlords—kings, princes, emperors and their nation states formed for the purpose of armed defense and aggression. “It’s during this period that we see the standing army forged as the monarch’s sword of power. Without a standing army, a king is just a windbag in fancy clothes. But with a standing army, a king can impose his will on his enemies and engrave his name in history—and absolutely the only names we have from this era are the names of conquering kings. No scientists, no philosophers, no historians, no prophets, just conquerors. For the first time in human history, the important people are the people with armies.”

*Evolution of War is Peace War: Advancement and acquisition of Human and Military Technology and Capital vs Breeding of CannonFodder:* In a battle between two armies with the same level of military skill and technology; generally the bigger army wins. Many of history’s military conquerors have relied on simply growing cannon fodder to slaughter on the battlefields to win their battles or wars. Some military conquerors focussed on improving their soldiers skills (psychological, physical, intellectual, spiritual, etc), technology (better armor, better swords, better chariots, better bows and arrows, better scaling machines, better rams, better artillery, better guns, better tanks, better planes, better bombs, better rockets, better nerve gas, better germs, better chemicals); and legal moral supremacist ‘innocence for sale’ indulgence interpretations psychological warfare doctrine. Many times small armies with greater technological equipment and/or military tactical or strategic skills won: There are many examples, but two are Battle of Blood River (guns), conquest of North and South America ([guns, germs & steel](#)).

*WiP Resource Conflict: Initially economic, then political, and finally military organized conflict:* Centuries of conflict over resources generated an international law social contract founded upon Masonic phallic force (rule of force international treaties); that rewarded those who engage in [seething energies of lucifer](#) breeding and consumption wars; which bribe their tribes members to believe it is their 'inalienable [freedumb slavery] right' to breed and consume above carrying capacity limits; while denying personal responsibility for the human factory farming organized violence conquer and culling racism, sexism, nationalism, socialism, capitalism, nazism, islamism, zionism, corporatism, stalinism, [human sacrifice culling](#), etc consequences; as people are motivated beyond retardation (motarded) to choose to join one or other ideological, religious, racial or cultural tribe to engage in resource war thieving to accumulate more resources to grow their tribe to enable it to protect itself from another tribes organized violence resource war thieving.

*Totalitarian Agriculture’s Luciferian Evil Human Sacrifice Harvest Religions:*

“When The Mason learns that the Key to the warrior on the block is the proper application of the dynamo of living power, he has learned the Mystery of his Craft. The seething energies of Lucifer are in his hands and before he may step onward and upward,

he must prove his ability to properly apply this energy.” - Manly Palmer Hall,  
*Illustrious: the Lost Keys of Freemasonry*

"in this case the defendants are not simply accused of planning or directing wholesale killings through channels. They are not charged with sitting in an office hundreds and thousands of miles away from the slaughter. It is asserted with particularity that these men were in the field actively superintending, controlling, directing, and taking an active part in the bloody harvest." - Nuremberg Military Tribunal, United States of America vs. Otto Ohlendorf, et. al. ("Einsatzgruppen trial"), Judgment.

All civilized religions — from Christianity, to Gnosticism, etc — were ‘created’ in the minds of man to comprehend the concept of ‘evil’ (aka organized violence), subsequent to man’s invention of agriculture, approximately 10,000 years ago; and where such agriculture created food surpluses, resulting in population surpluses, and expansion of their territory resulting in population pressure clashes with other tribes territories, resource war conflict.

Extended misery resulting from direct and psychic existential conflict resulted in man’s attempt to understand so-called ‘evil’; or put more simply: the organized resource thieving direct conflict (rape, murder, slavery, etc) resulting from population pressures and escalating relations with fellow humans based upon the absence of consent, i.e. extended periods of psychic and physical violence and coercion.

If there are two or ten people living on an island with enough food and other resources and space, for one hundred people; there is no need to coerce another for food or resources freely and abundantly available. In the absence of a resource scarcity conflict mindset, and plenty of space, tribal relations are more conducive to cooperation and sharing. Living in the moment. There is no need for an external God in the sky to explain ‘evil’; there is only a consciousness to appreciate the source of resource abundance, as the ‘source of life’; and to live in harmony with such source: nature. Violence is limited to food chain violence experienced by all species; namely hunting and being hunted by another predator for immediate food. [See also: Law of Limited Competition]

If the tribe introduces agriculture, which results in an agricultural surplus and uses such agricultural surplus to justify greater population; then as the population increases, so the population pressures increase. There is less space to run away from someone who may be temporarily angry, or wanting something another is not willing to provide in that moment. The existence of ‘evil’ (organized violence) is plausibly directly proportional to the resource war conflict, resulting from the tribe’s violation of carrying capacity limits; and/or coming into contact with another tribe’s territorial expansion as a result of their violation of carrying capacity limits. In attempting to understand the existential meaning of this symptom of ‘evil’ resulting from violation of carrying capacity limits resource war conflict, man created religions...

The invention of agriculture and agricultural surpluses, and subsequent organized violence of civilization are the biblical story of Adam and Eve’s loss of living in carrying capacity harmony with the natural world resource abundant paradise, and Cain’s choice to be a farmer. Others saw opportunities for socio-political status benefits from exploiting the reality of organized violence (evil), and suppressed this conscious reality of their intentions by invoking various phallic ‘right’ justifications for their ‘right’ to engage in organized violence (evil).

The Mason’s ‘seething energies of lucifer’ are the psychological warfare art of manipulating and coercing men and women to overbreed and overconsume, to thereby aggravate resource war

conflict, and the ability to divide and conquer people's, for the socio-political profit of the 'warrior', to 'step onward and upward'; as he 'proves his human sacrifice ability' to apply his breeding war and consumption war energies. Put differently, the 'seething energies of lucifer' are no less than the phallic justification for profiting from aggravating and perpetuating deliberate organized violence, without the consent of the recipients of the violence.

*Totalitarian Agriculture WiP Tower of Babel Empires that violently collapsed:* Humans who engage in totalitarian agriculture, engage in Predator-Prey Growth and Collapse of Civilization/Empire cycles: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan. Collapses result from (1) Ecological Strain due to procreation and consumption above ecological carrying capacity limits; and (2) Economic Stratification; and have included the disappearance of between 90-99% of their populations (from famine, disease and organized violence resource wars) including their kings, Gods, calendars and other complex political and cultural institutions.

USA v A Bundy et al Written Consent or Objections to EoP Amicus filing

What shall your decisions be:

New Ecology of Peace international law rules; or current Masonic War is Peace international law 'WTF is the Befehl?' confucius rules?

Do you sincerely want a change in Masonic War is Peace – pretend we give a fuck about economic inequality; psycho-social resource conflict conformity pressures; climate change, food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, corporate and political corruption; nation states standing army or dissident guerrilla army 'terrorism' resource war military aggression, etc; while doing sweet fuck all about the root 'right to breed and consume with total disregard for ecological carrying capacity limits' international law social contract clauses – culture?

Are you willing to change the conversation; to have a conversation that has not been had before; to have a conversation about – [ecological overshoot](#) resource depletion [tipping points](#) and [resource conflict](#) – national resource shrinking lifeboats decision-making about 'whom should be removed from the lifeboat aka national genepool; how should they be removed; how many should be removed; by whom and when should they be removed'?

Should any USA v Aamon Bundy et al individual or their counsel wish to notify me of your fully informed consent; please contact me by email; so that we may finalize your written consent; and subsequent thereto I shall file an application with the court for permission to file an EoP Amicus Curiae brief.

The correspondence below sent to EoP Applicants; including yourself as a Back Up Applicant. Googlemail returned the email sent to yourself as undelivered. I did a verify-email check and found that your email at Noble Energy Inc is no longer working. I then found an email address for you at [Center for Strategic and International Studies: James Cartwright](#): jcartwright@csis.org; to which I am sending this correspondence.

For transparency for the record purposes; I am also including a copy of this correspondence to (i) Gregory Craig, according to Foreign Policy: [Obama's Favorite General Stripped of His Security Clearance](#); your legal counsel; and (ii) Noble Energy Inc: CEO David Stover.

While I was searching for your new email address and writing this email; I listened to your [2015 Legislative Conference](#) speech. It has some interesting 'the most difficult problem facing humanity'; how long would it take to 'educate ignorant illiterate people in Afghanistan' and cultural change; coincidence synchronicities with issues in the email below.

If you did not inform me of the change of your email address; because you no longer wish to be an EoP Applicant; please let me know, and I shall remove you as an EoP Applicant. In the absence of letting me know you want to be removed; I shall conclude that you want to remain an EoP Applicant; until you change your mind and let me know in writing that you have changed your mind; or until the EoP v WiP NWO Negotiations are resolved.

EoP Internet Access Re: MWeb & ISPA; EoP Corr: ICANN, IAP, Artist Taxi Driver, Spartacus, Canary, ICRAA, A Choudary

Restored Internet Access:

My internet access was restored by Clive Johnstone via John Doe; in full on 11 August 2016; but is being partially restricted by me; with regard to (i) MILINT Remote Formatting Alterations; (ii) 03 July MWeb blocking of EoP Clerk email account; (iii) ISPA: EoP and WiP; or WiP only?

MILINT Remote Formatting Alterations:

As noted in 05 Aug 2016 1:49 correspondence : [Updates RE: MWeb Legal Dept Notice of immediate termination of Clive Johnstone ADSL account by 14:00 hrs on 05 Aug](#); there were some remote formatting alterations to various EoP v WiP NWO negotiation documents with regard to discussions with MWeb and ISPA; presumably from NSA and/or FSB military intelligence entities; where particular paragraphs or emails had been reformatted from original black text to blue and others grey.

On subsequent days, some of those reformatted coloured paragraphs went from blue to green; and then green to orange; and another went from blue to green to turquoise; the grey one's remained grey. The observations and interpretations were updated at UJMC-SF44: [05 Aug: Remote Formatting Alterations](#).

03 July MWeb blocking of email & ISPA: EoP & WiP; or WiP only:

In the absence of MWeb reactivating the EoP Acting Clerk andreamuhrteyn email account with its password -- as detailed in EoP Applicants: MWeb [PDF] -- it is not possible to ascertain whether my interpretation -- that military hackers who blocked it would reinstate it; when they choose to do so -- was accurate or not.

There has been no response from ISPA clarifying whether ISPA services are for EoP and WiP culture members or WiP only; as per correspondence submitted to them on 02 August 2016 2:15 PM Re: Draft Suggestion to ISPA: Req Alt.Dispute Resolution Info: Summary of Issues in dispute with MWeb Abuse & Legal Dept; as detailed in (i) EoP: MWeb [PDF]; (ii) EoP v WiP NWO negotiations: Comments Correspondence [PDF]: [ISPA: Internet Service Providers Association](#).

Consequently I have not yet ordered a new email account with an alternative ISPA services provider. Instead I opened this temporary GMail email account.

I am in the process of drafting documents to submit to Magistrate Torlage; for his consideration and feedback to myself and Clive and Ann Johnstone.

EoP 'Only Problem left worth solving' submission to ICANN & Intn'l Association of Prosecutors

At the time of receiving MWeb legal departments email announcing that they were terminating their account with Clive Johnstone; I was busy with preliminary research to file a submission to ICANN: Internet Corporation for Assigned Names and Numbers; copied to International Association of Prosecutors [PDF]: General Counsel: Rasmus Wandall.

The EoP submission to ICANN submission was a suggestion to draft Internet Service Providers worldwide into cooperating to help notify their internet clients and the planets citizens of the importance of non-violently cooperating to help solve the Tragedy of the Commons inevitable nuclear war environmental collapse problem that's the only problem left that's worth solving; to implement an Ecology of Peace international law social contract:

“This tragic [— environmental collapse — at the end of which we are left without a home, having rendered Earth (our home planet) uninhabitable] outcome may not be unavoidable. And if it is not unavoidable, then that's about the only problem left that's worth solving. The solution can be almost arbitrarily expensive in both life and treasure. I would humbly suggest that it's worth all the money in the world, plus a few billion lives, because if a solution isn't found, then that treasure and those lives are forfeit anyway. A solution for avoiding the sixth stage must be found, but I don't know what that solution would look like.”

[EoP Axis Military Necessity Evacuation](#) is the military necessity mutual coercion last resort option of the Ecology of Peace NWO social contract options. It provides a legal blueprint for how to legally, militarily, politically and economically implement an Ecology of Peace international law social contract; to enable immediate orderly and humane deindustrialization and massive depopulation measures.

This is a multitasking correspondence: transparency notice to inform (a) all recipients who may not be aware of Ecology of Peace v Masonic War is Peace negotiations; of such negotiations; (b) provide Chernaik v Brown with Ecology of Peace legal perspective observations and suggestions for your and your clients consideration.

Ecology of Peace observations and suggestions: Re: Chernaik v Brown.

EoP culture summary interpretation of [Chernaik application and supporting Amicus arguments](#): The Chernaik complaint [[PDF](#)] seeks a declaration from the Oregon court – or ultimately United States Supreme Court – that Oregon’s Governor and State officials have violated their duties to uphold the public trust and protect the State's atmosphere as well as the water, land, fishery, and wildlife resources from the impacts of climate change; by establishing and enforcing adequate limitations on the levels of greenhouse gas emissions that will reduce the level of carbon dioxide concentrations in the atmosphere to provide a livable future for the plaintiffs and all youth in Oregon.

The Chernaik application and supporting Amicus arguments – however well intended – (a) fail to clearly in simple language any village idiot citizen can understand; clarify that the root cause of any and all secular or theocratic State’s failure to protect the atmosphere as well as the water, land, fishery, and wildlife resources from the impacts of climate change; are the ‘right to breed and consume with total disregard for ecological carrying capacity limits clauses of the Masonic War is Peace international law social contract’; (b) ignore [Tragedy of the Commons](#) principles; namely that the ultimate outcome of ‘Environmental law’ that does not clearly and explicitly restrict procreation and consumption to ecological carrying capacity limits; enabling breeding and/or consumption loophole for one cheater; is [nuclear war](#).

"The difficult part of this is at least until now, certainly we have had a sufficient reservoir of natural resources, intellectual capacity to adapt, you name it, so we have stayed on the front side of that curve, for the most part, as a planet. But what happens when you put a financial crisis with a climate problem; with a weapon of mass

destruction? Do you get to the point where you are at the so-called Tipping Point? Where is that tipping point? How close are we today versus our ability to adapt? So for me, in my career, we've gone from worrying about the potential of losing a nation state to a war; to the so-called cold war of Mutual Assured Destruction; to a world today, where unfortunately today in forums like these we hear the words 'species ending'." -- General James Cartwright, Vice Chairman, Joint Chiefs of Staff: [Leading Organizational Changes to Meet New Challenges](#); John Hopkins: Carey Business School: Leaders and Legends; 16 October 2008. Infographic: [16-09-08-JamesCartwright-LeadersLegends \[Info\]](#)

Consequently, even if the United States Supreme Court overdose on LSD overnight; and issue the Chernaik requested declaratory order, tomorrow; the declaratory order may as well be printed on toilet paper, for – in a socio-cultural, religious and legal environment that considers non-Europeans as cognitively incapable of a sincere and honest conversation about responsible freedom procreation, as detailed extensively in among others: EoP Axis: Van Jones [[PDF](#)], EoP PoW: Anti-War, Disclosure & Race Relations Experts [[PDF](#)] – it will not provide on the ground State officials with the ability to do what needs to be done; to lawfully implement humane, transparent and orderly deindustrialization and depopulation; which is what is required for the protection of the planets remaining natural resources; and healing of the destroyed natural resources.

If or when the Chernaik Applicants amend their application to request the Court to issue a declaratory order that (a) clearly in simple language any village idiot citizen can understand; clarifies that the root cause of all Nation States failure to protect the atmosphere as well as the water, land, fishery, and wildlife resources from the impacts of climate change; are the 'right to breed and consume with total disregard for ecological carrying capacity limits clauses of the Masonic War is Peace international law social contract'; (b) grants declaratory legal and community support to State Governors and the President to officially and publicly begin International negotiations – by adopting any of the [Ecology of Peace New World Order Negotiations social contract options](#) used individually or in select combination or collectively; or other more suitable options – to implement an Ecology of Peace international law social contract; that shall (i) abolish the root 'right to breed and consume with total disregard for ecological carrying capacity limits clauses of the Masonic War is Peace international law social contract' causes of planetary resource depletion in all nations; affecting the future of all youths of all races, classes, religions in all nations; and (ii) replace them with Ecology of Peace clauses that require all of the worlds citizens from all races, classes and religions to [procreate and consume below ecological carrying capacity limits](#); and anyone convicted of breeding and/or consumption violations shall be eliminated from the planetary genepool; (c) then Chernaik Applicants shall sincerely demonstrate their willingness to cooperate with their Nation State Officials to implement an international law social contract enabling State Officials to embark upon honourable, transparent and humane international cooperative de-industrialization and depopulation of the planet to return to living in accordance to ecological carrying capacity limits; thereby enabling the protection of planetary resources for all species, including those who call themselves 'humans'.

Summary: EoP v WiP Negotiations:

A detailed overview of EoP v WiP Negotiations can be found in EoP Acting Clerk's [EoP PoW's – v– Nobel Committee & Peace Laureates et al](#) documentation. A summary can be found in EoP Acting Clerk correspondence to International Criminal Court Judges [[PDF](#): 29 Dec 2015]; which

includes details of EoP procreation and consumption below ecological carrying capacity suggested clauses.

A less formal Ecology of Peace culture submission was also made to US Army Reserve Command: Ft Bragg [PDF] which clarifies EoP culture answers with regard to EoP v WiP culture issues in dispute: Revolution in Military and Legal Ethics: Defining just and unjust actions in war and military conflict: the operative question: Whom should the military kill? Put differently: In terms of [ecological overshoot](#) resource depletion [tipping points](#) and resource conflict – all nations on Earth’s national resource lifeboats are not only full; but shrinking. So now the decision is not ‘which immigrants to let in’ but ‘which citizens should be removed from the lifeboat aka national genepool. How should they be removed; how many should be removed; by whom and when should they be removed’?

If or when there are any individuals in the FSB and/or NSA aka Andreas Lubitz Fuck Ecology of Peace Reality WiP Airlines who give a sincere fuck about the implementation of an Ecology of Peace international law social contract -- which is very fucking doubtful considering that they either directly or psychotronically indirectly manipulated the [deletion of the sqswans and tygae pages hosted on Weebly](#); but I could be wrong -- (a) [decide](#) you sincerely give a fuck stops here fuck about implementing an Ecology of Peace international law social contract; and (b) find a website hosting corporation whose hosting policies include appreciation for publishing of 'fuck stops here problem solving focused free speech readyroom -- aka Gen James Cartwright US Strategic Command 01-02-03 -- like information; let me know and I can setup a new Ecology of Peace website and publish at least a summary of the Ecology of Peace social contract options documents there.

Two hundred years ago Napoleon designed a command and control system for military forces to work out the ambiguity of information. We've pretty much left it alone. Its still here. So how do you start to change a system that starts at the bottom of one cylinder, moves to the top over and down and up again. I know it sounds familiar because every bureaucracy basically does that and the size of the Headquarters is directly relevant to

the amount of ambiguity that you are dealing with and you're trying to wash it out. Unfortunately if you put a line of people together in junior high school and they tell a secret at one end, what comes out at the end, doesn't often have any relevance to the problem you are trying to solve. That was the activity that pushed me that pushed me to see what was out there, to challenge the culture to move to the three week problem, not the thirty year problem. What tools will have the greatest leverage, the quickest. At the end of the day, that is what we are looking for. So those were the types of things we were looking for. Its not just blogging, but it became the most leveraging tool of them all. The speed of informing someone, bringing key relevant information was so much quicker in this environment, than it was in a phone conference.

If you decide to enter into a conversation... as a senior person, in at least rank, you can be globally stupid, and you can do it very quickly and if that bothers you, then you are going to have to toughen up the hide. In the military structure, that is something that is a paradigm shift. But if you can't stand being globally stupid once ni a while, this is not the space for you. The other piece was that people in the rank structure worried that they would somehow breach it, and you would have inappropriate comments. What we did was that we turned it into -- for an aviator what was called a ready room -- where we have an environment, where for training purposes we wash off the rank stuff; and it is brutal. And we just turned this environment into that; and it is brutal. If you are misbehaving it gets policed so quickly. That the downside that we have found is extremely small. The upsides are the intellectual capital, the speed to which you gain information; and context for decisions, and planning and execution. I have not found anything that comes close, not even close. Many people use this for many reasons, I can focus on the enemy, got that, can focus on higher headquarters, and the organization can turn on a 24 hour clock, very very quickly. the conversation is going in real time; you can get to a decision; you can understand the parameters of your problem, very quickly. It is perfect information. No. Do you understand the pedigree of the data that you are dealing with? No. Welcome to real life. If I had perfect data. If I understood the pedigree of all that data I might be able to make a better decision; but it would be perfectly irrelevant; because the time would have passed. We get paid to take risk, to manage the risk. Having no information is a lot worse than having a broad array of information; that you start to understand the error of the bar, and you get good context; and then you make the best decision that you can.

On behalf of individuals at the NSA and FSB whom I gave the benefit of the doubt they were sincere; I have been Ecology of Peace stupid now for over 15 years, 24 hours, 7 days a week, 365 days a year.

In Your Goddamn fucking face Buck stops here stupid, not 'fuck honour plausible deniability pretend I give a fuck about my nations national security intelligence stupid' or Donald Trump 'smart person in idiot clothing' stupid.

"His stupidity is refreshing to the really stupid. Now he's either really stupid or there is something else more interesting happening. The story is that Trump has fallen in love with his own bullshit. Limbaugh is an idiot in smart people's clothing. Donald Trump is the opposite. A smart person in idiot clothing." – [Donald Trump Theory Pranking us All](#).

Besides Demian Johnson and Michael Martin I don't know anyone who thinks anything I have had to say to them is relevant and worthy of their sincere consideration; and worthy of a buck stops here response.

Besides Demian who is in prison in California and Michael whom I don't know where he is; I am unaware of anyone who considers any of the Ecology of Peace ideas to be remotely relevant enough to them to engage me in a sincere buck stops here enquiry about any possible errors; or their implementation.

There was a time when I thought individuals in Israel gave a fuck about the implementation of an Ecology of Peace international law social contract. It would appear that I was wrong. For 15 years I have given the FSB and NSA the benefit of the doubt that there are individuals in your organizations who give a fuck about implementing an Ecology of Peace international law social contract. That benefit of the doubt working hypothesis gets dimmer by the day.

I have not come across a magistrate or judge who considered Ecology of Peace principles and evidence remotely relevant for consideration in their legal deliberations, most of them not even relevant enough to be accepted as a party into the court record of the proceedings. Nor has any party to any court proceeding; that I have been accepted into; informed the court that they consider any EoP culture evidence I have to say relevant, whether they agree or don't agree; and worthy of the courts consideration.

So there is fuck all need for me to worry about making some decision to 'be relevant' to some fuck honour Masonic War is Peace asshole pretending to be worried about solving some fuck honour Masonic War is Peace problem; for his fuck honour corporate cocksucking fanclub.

Put simply there is fuck all reason for me to worry about being 'irrelevant'. I have fuck all concern about Masonic War is Peace insincere fake 'relevance'.

Ecology of Peace ideas don't worry about being irrelevant; cause they are the finite resources ecology rules of law of any planet with finite resources. If man refuses to apply those Ecology of Peace laws to man's socio-cultural laws; in terms of procreation and consumption below ecological carrying capacity laws; then man's laws allowing for procreation and consumption above ecological carrying capacity limits; man's decision to consider Ecology of Peace laws 'irrelevant' shall have the same effect as man's decision to walk off a cliff without a parachute and to demand that 'gravity laws' don't apply to him. Carrying Capacity – like Gravity don't give a fuck about whether man thinks 'finite resource carrying capacity' and 'gravity' laws are 'relevant' or 'irrelevant' to man's existence.

President-elect Donald Trump is considering retired General David Petraeus to be secretary of state and plans to meet with the former CIA director Monday in New York, according to a senior official with the transition.

A top transition official said that many in Trump's camp support having Petraeus fill the position. Trump is "inclined" to pick Petraeus, according to the official, yet he is weighing whether it's a good idea to have two retired generals heading the State Department and Pentagon. General James Mattis has been under consideration to lead the Defense Department.
