EoP Applicants:

Brigadier General Steven Anderson (sanderson@gorelyant.com); LtCol Peter F. Olsen USAF (peter.olsen@us.af.mil)

Denver & Milwaukee DA, DoJ-FBI, Police; SM Hamzeh/Humphrey Scottish Rite Masons; Iron Order/Mongols Disputing Parties

There are indications of circumstantial evidence relating to the (i) 25 January 2016 arrest of Samy Mohamed Hamzeh on charges of disclosing his – “The Masons are playing with the world like a game, man, and we are like asses, we don’t know what is going on, these are the ones who are fighting, these are the ones that needs to be killed, not the Shi’iat, because these are the ones who are against us, these are the ones who are making living for us like hell” – plans to attack Humphrey Scottish Rite Center in Milwaukee [DoJ]; and (ii) 30 January 2016 dispute

between Iron Order and Mongol Motorcycle club members at the 38th Colorado Motorcycle exposition at the National Western Complex in the Denver Coliseum on Interstate 46 [Wikipedia]; which could be interpreted as indicating that these events were partially [psychotronically manipulated](#) by NSA/KGB/MI6/Mossad human drone war handlers; related to unresolved [EoP –v– WiP culture](#) negotiations.

A brief summary of some of the aforementioned circumstantial evidence can be found in: *EoP v WiP NWO negotiations: Comments Correspondence* [PDF]: 01 Feb: Freemasons for Dummies & Trick Schneider. A transparency copy was also provided to Michigan Hinckletown Farmers Lodge: General Manager: Craig Davis; which can be found in *EoP v WiP NWO negotiations* [PDF]: D2.

A summary of Ecology of Peace –v– Masonic War is Peace negotiations can be found in: (i) *EoP v WiP NWO negotiations: Comments Correspondence* [PDF]: US Army Reserve Command Ft Bragg NC; or (ii) *EoP Applicants Correspondence to International Criminal Court Judges* [PDF].

The purpose of the Ecology of Peace Applicants [PDF] educational and legal guerrilla lawfare campaign is to nonviolently de-industrialize and reduce consumption and procreation to ecological carrying capacity limits; by implementing an Ecology of Peace international law social contract; that requires all the world's citizens to procreate and consume below ecological carrying capacity limits; and consequently holds breeding and/or consumption scarcity combatants accountable for their 'Crimes of Aggression Acts of War'. Put simply in terms of ICC Prosecutor Luis Moreno-Ocampos [red/green light international law analogy](#); individuals breeding and/or consuming above ecological carrying capacity limits should be considered guilty of procreation/consumption crimes of aggression acts of war; i.e. have crossed the red light.

Put very simply: In terms of [ecological overshoot](#) resource depletion [tipping points](#) and [resource conflict](#) – all nations on Earth's resource lifeboats are not only full; but shrinking so the decision facing military authorities is: (i) In the Revolution in Military Ethics terminology of Col Ralph Peter; the issue in dispute is defining just and unjust actions in war and military conflict: the operative question: Whom should the military kill?; or (ii) In the terminology of the US Army's [Equal Opportunity Leaders Shrinking Lifeboat Ethics](#) course: the operative question is 'which citizens should be removed from the lifeboat aka national genepool; how should they be removed; how many should be removed; by whom and when should they be removed'?

[MILED Clerk Notice](#) and [EoP legal submissions](#) respectively contains updated information about ongoing EoP v WiP negotiations; and courts and court cases to which EoP Applicants have and are attempting to make Ecology of Peace culture submissions; if or when fully informed consent is provided by one or more of the disputing parties or court; detailing [options for how an Ecology of Peace international law social contract can be honourably and transparently implemented](#); which include answers to the questions: 'which citizens should be removed from the lifeboat aka national genepool; how should they be removed; how many should be removed; by whom and when should they be removed'.

A copy of this correspondence shall be filed in: (i) *EoP Applicants* [PDF]; (ii) *EoP v WiP NWO negotiations: Comments Corr* [PDF].

Respectfully

Lara Johnstone, aka Andrea Muhrrteyn [EoP Oath [PDF](#)]

~~~~~ *~~~~~* *~~~~~* *~~~~~*

NB: Ecology of Peace observations and interpretations caveat:

Any interpretation herein implied of another persons motives could be anything from 0% upto 100% correct or incorrect. Until confirmed; they are only working hypothesis interpretations; NOT FACTS.

Reminder: Factual Reality is founded upon FACTS: if overt: what happened, who said what, who did what to whom, how and when. We create the world by noticing who, what, when and how via our senses of sight, sound, smell, taste, and touch. Interpretive Reality is founded upon the INTERPRETATION OF FACTS: if the whom, when, how or what act is not factually unequivocal -- i.e overt -- but covert and hidden; then a combination of smaller evidentiary facts combined can enable an interpretation of 'how'; 'when'; 'who' and/or 'what'. Generally speaking when we consider 'why' the observed individual overtly or covertly did or said what and how and when; we enter into subjective interpretive reality. [Excerpt: [EoP RH culture Reality IQO](#)]

EoP Neg Corr: Daniel Cloud, Of Two Minds, Project Syndicate; Project Syndicate, Princeton, Canada & Info Philosopher; UK v A Choudary.

EoP feedback response to: *The Market For Lemons, The Market For Bullshit, And The Great Cascading Credence Crash Of 2016* – [Zero Hedge](#); [Daniel Cloud](#); *Scientific Capitalism – Project Syndicate*, [Daniel Cloud](#); Harry Frankfurt: *Theory of Bullshit, On Bullshit* [[PDF](#)]; *The High Cost of Honesty in a Sea of Low-Cost Bullshit* – [Zero Hedge](#); [Of Two Minds](#); Amazon: [The Lily: Evolution, Play and the Power of a Free Society](#).

"It may become impossible for anyone to persuade very much of the public of anything, even the truth." -- *The Market For Lemons, The Market For Bullshit, And The Great Cascading Credence Crash Of 2016* – [Zero Hedge](#); [Daniel Cloud](#).

Ecology of Peace culture's working hypothesis conclusion as to the closest philosophical ideologically legitimate 'truth' is as follows:

Ecology of Peace factual reality: 1. Earth is not flat; 2. Resources are finite; 3. When humans breed or consume above [ecological carrying capacity limits](#), it results in [ecological overshoot](#) and [resource conflict](#); 4. If individuals, families, tribes, races, religions, and/or nations want to restrict class, racial and/or religious local, national and international resource war conflict; they should [cooperate](#) to sustainably protect and conserve natural resources in accordance to ecological carrying capacity limits; by [implementing](#) an [Ecology of Peace](#) international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

Ideologically legitimate:

"Attaturk knew that for his movement to succeed and be permanent. He had to create a struggle that was initiated and supported by the people. Everything had to be legitimate and ideologically well-founded. A revolutionary ideal at the time it was announced to the whole country from the city of Amasia." -- [Mustafa Kemal Attaturk: Attaturk the Feminist Warrior](#).

EoP clarification regarding – what could be termed a 'scientific based economic and procreation policy; should individuals interested in 'scientific capitalism' have such an interest – breeding and consuming below ecological carrying capacity limits; is documented in among others EoP Clerk correspondence to (i) International Criminal Court Judges [[PDF](#)]; (ii) UK v Anjem Choudary [[PDF](#)];

Succinct Summary of Private Prosecution Complaint:

On behalf of the EoP Applicants I have been preparing documentation for an ICC private prosecution in terms of Rendulic Rule Military Necessity doctrine; CA, UK, US & RSA Common Law Private Prosecution doctrine; Rome Statute: Art.5, 6, 7, 8 & 15; ICC Code of Judicial Ethics: Art 4, 5(1), 7 & 11. Charges: Crimes of Aggression Acts of War.

The Ecology of Peace culture's definition of 'crimes of aggression acts of war' is as follows: "Any individual who is found guilty of advocating on behalf of, legislating, enforcing, or obeying any – cultural, religious, common, statutory, constitutional, or international – 'scarcity combatant' social contract; which enables or advocates on behalf of human procreation, consumption or production of resources that transgress ecological carrying capacity limits, is guilty of the 'crime of aggression act of war'."

Carrying Capacity Sustainability: I=PAT Equation:

For activities to be genuinely sustainable it must be possible for them to continue indefinitely. The impact of humanity on the environment and the demands that people place on the resources available on the planet can be summarized by what is known as the Ehrlich or IPAT equation, $I=PAT$. I = impact on the environment or demand for resources, P = population size, A = affluence and T = technology. The two most important conclusions deriving from this IPAT footprint relationship are that: (i) the Earth can support only a limited number of people, at a certain level of affluence, in a sustainable manner; and (ii) Population and Consumption must be reduced to below carrying capacity.

An individual's IPAT footprint is a result of: (A) Consumption Footprint multiplied by (B) Procreation Factor.

Consumption Footprint: Consumption footprint calculators are based upon [Global Footprint Application Standards](#), and calculate an individual's consumption footprint based upon various questions about their consumption lifestyle's; and provide a final consumption footprint in global hectares which is the individual's 'consumption footprint'; i.e. the amount of global productive land required for the production of products the individual consumes. Consumption Footprint calculators can be found at among others: [Global Footprint Network](#); [Earth Day](#); [Center for Sustainable Economy](#); [EcoCampus](#).

Global Footprint concepts were developed by among others: Dr. Mathis Wackernagel; Dr. William Rees; Dr. Herman Daly and the Global Footprint Network Standards Committee is one of two committees overseeing scientific review procedures and standards for Footprint calculations.

Procreation Factor: According to the research of [Paul Murtaugh](#): A parent increases their consumption footprint by a factor of 20 for every child procreated.

Carrying Capacity aka Biocapacity Limits: "The maximum number of individuals that can be supported sustainably by a given environment is known as its 'carrying capacity'. Worldwide the total amount of biologically productive land and sea amounts to 12 billion global hectares (gha); or 1.8 gha each if divided by 6.7 billion each. Guerrilla Laws are drawn up in accordance with the proactive conservation policies of Bhutan, who set aside 40% of their biologically productive to be returned to its natural state, for other species and wildlife conservation purposes; then that means that the total amount of biologically productive carrying capacity land available to humans is 60% of 12 billion; which amounts to 7.2 billion gha total; or 60% of 1.8 gha, which is 1 gha each.

Population factor is relevant, because the more humans there are, the less biologically productive land there is for everyone else.

For example:

Biocapacity limits of 6.7, 3.5, 1 Billion, 500, 250 & 100 Million humans: 7.2 billion global hectares of biologically productive land and water divided by (a) 6.7 billion humans, equals: 1.07 gha each; (b) 3.5 billion equals 2.05 gha each; (c) 1 billion equals 7.2 gha each; (d) 500 million equals 14.4 gha each; (e) 250 million equals 28.8 gha; (f) 100 million equals 72 gha each.

EoP – the self respect and buck stops here relationship benefits of honesty in a sea of 30 pieces of silver high costs of bullshit – perspective on the benefits and costs of honesty vs lies and bullshit:

"THE ABILITY TO BE HONEST is a very good point. I understand it as having the strength and time (!) to carry the consequences of being honest. Being honest makes you more vulnerable, for as you become predictable, you are easier to game and you have fewer options to respond to weird/ crazy/ offensive behavior. You need extra time to constantly ask yourself if offers or opinions presented to you (after you have honestly presented your opinion) are true, or marketing versions (BS) that have been tailored for you." -- *The High Cost of Honesty in a Sea of Low-Cost Bullshit – Zero Hedge; Of Two Minds*.

If an individual is capable and willing to be honest with themselves; regarding who they are; who they want to be; their fears, desires, etc, enabling them to 'know themselves':

"If you know the enemy and know yourself, you need not fear the result of a hundred battles. If you know yourself but not the enemy, for every victory gained you will also suffer a defeat. If you know neither the enemy nor yourself, you will succumb in every battle." – Sun Tzu, *The Art of War*

Once an individual knows themselves; they are capable of being honest with others and entering into relating experiences that are based upon honest frank relationships; clearly clarifying what they want and what they are capable of giving; to enable honest reciprocity; leading to stronger and more intimate relationships based upon mutual honesty and trust; or enemies who know where they stand with each other.

Better to be slapped with the truth, than kissed with a lie. – Russian Proverb

I love you, and because I love you, I would sooner have you hate me for telling you the truth than adore me for telling you lies. -- Pietro Aretino, Catholic Church

Better an honest enemy than a false friend. - German Proverb

An enemy, who is honest and shows his/her hate openly is better than a friend who is liar and putting you down secretly. – Unknown

I'd rather have honest enemies than fake friends. – Unknown

Better to be an honest open sinner, than a false saint - Unknown

Wounds from a sincere friend are better than many kisses from an enemy. - Proverbs 27:6

The ultimate outcome of an individual who led an honest or reasonably honest life; may be an individual with few friends; whose relating experiences are to them at least – priceless – in terms of their honesty and sincerity.

Conversely: if an individual is incapable or unwilling to be honest with themselves, regarding who they are; who they want to be; their fears, desires, etc, their entire identity is their bullshit the public relations marketing image.

“I have called this phenomenon the marketing character because it is based on experiencing oneself as a commodity, and one’s value not as ‘use value’ but as ‘exchange value’. The living being becomes a commodity on the ‘personality market’. ... Success depends largely on how well persons sell themselves on the market, how well they get their personalities across, how nice a ‘package’ they are; whether they are ‘cheerful’, ‘sound’, ‘aggressive’, ‘reliable’, ‘ambitious’; furthermore, what their family backgrounds are, what clubs they belong to, and whether they know the ‘right’ people..... must fulfil one conditions: to be in demand. .. The aim of the marketing character is to be desirable under all conditions of the personality market.... The puzzling question why contemporary human beings love to buy and to consume, and yet are so little attached to what they buy, finds its most significant answer in the marketing character phenomenon. The marketing character’s lack of attachment also makes them indifferent to things. What matters is perhaps the prestige or the comfort that things give, but things per se have no substance. They are utterly expendable, along with friends or lovers, who are expendable too, since no deeper tie exists to any of them.” -- Erich Fromm; *To Have or to Be*.

If they are incapable of being honest with themselves; they are incapable of being honest with others; and consequently are incapable of experiencing honest intimate relating experiences; since all their relating experiences are simply different flavours of class, gender, racial or religious passive aggressive bullshit the public relations marketing coolaid sales. The conscious or subconscious suppression of their honest emotions, desires and fears desire to leads to depression and/or search for meaning into conscious and/or unconscious addictions: whether to alcohol, drugs, religion, money, sex, etc.

“I .. suggest that this transformational process requires at least one necessary ingredient without which philosophical counseling would not be possible. Whether implicitly or explicitly, both counselor and client need the virtue of courage in its form as “philosophical courage” in order for the counseling to be successful. Moreover, the degree of such courage in both client and counselor will determine the extent to which issues are brought into question..... there is another form of courage—philosophical courage—required of individuals in dealing with their most fundamental beliefs and values. I believe the best way to demarcate roughly the different forms of courage, is through an analysis of the cost involved with each form of the virtue.... First, with physical courage, the possible cost involved, at the extreme, is the physical loss of life.... Second, with moral courage, the possible cost is social rejection and isolation and/or a loss of “ethical integrity or authenticity”. Third, with “psychological courage,” the possible cost perceived by the individual is “psychic death.” And fourth, with “philosophical courage” the possible cost is philosophical instability where one’s most fundamental beliefs and values are brought into doubt. ... it demands of the individual a confrontation with fundamental beliefs and values”. -- *The Role of Philosophical Courage in Philosophical Counseling*, by Hakam Al-Shawi [PDF]; as quoted in: EoP Clerk to Former EoP Applicant: Francisco Martin [PDF]; 26 Mar 2015; RE: GMC 4643-13; RE: Francisco Martin; Hakam Al-Shawi; CC: RH; RPN; PK; Islamic Scholars.

The ultimate outcome of an individual who led a life addicted to bullshit the public relations image management; would be an individual with hundreds of fake passive aggressive, backstabbing two faced hypocrite's pretending to be each others friends; whose relating experiences – if they had the courage to be brutally honest with themselves – were a total and utter waste of their time, attention and energy. A wasted life.

“But your real crime has nothing to do with a pimp's death. Well then? What is it? Yours is the most terrible crime a human being can commit. I accuse you... ..of a wasted life. Guilty.” – [Papillon](#) based upon the book: [Papillon](#) by Henri Charriere.

Consequently the EoP conclusion: The self respect and buck stops here relationship benefit profits of honesty and the costs of 30 pieces of silver self deception bullshit.

This is a multitasking correspondence: transparency notice to inform (a) all recipients who may not be aware of Ecology of Peace v Masonic War is Peace negotiations; of such negotiations; (b) provide Chernaik v Brown with Ecology of Peace legal perspective observations and suggestions for your and your clients consideration.

Ecology of Peace observations and suggestions: Re: Chernaik v Brown.

EoP culture summary interpretation of [Chernaik application and supporting Amicus arguments](#): The Chernaik complaint [PDF] seeks a declaration from the Oregon court – or ultimately United States Supreme Court – that Oregon’s Governor and State officials have violated their duties to uphold the public trust and protect the State’s atmosphere as well as the water, land, fishery, and wildlife resources from the impacts of climate change; by establishing and enforcing adequate limitations on the levels of greenhouse gas emissions that will reduce the level of carbon dioxide concentrations in the atmosphere to provide a livable future for the plaintiffs and all youth in Oregon.

The Chernaik application and supporting Amicus arguments – however well intended – (a) fail to clearly in simple language any village idiot citizen can understand; clarify that the root cause of any and all secular or theocratic State’s failure to protect the atmosphere as well as the water, land, fishery, and wildlife resources from the impacts of climate change; are the ‘right to breed and consume with total disregard for ecological carrying capacity limits clauses of the Masonic War is Peace international law social contract’; (b) ignore [Tragedy of the Commons](#) principles; namely that the ultimate outcome of ‘Environmental law’ that does not clearly and explicitly restrict procreation and consumption to ecological carrying capacity limits; enabling breeding and/or consumption loophole for one cheater; is [nuclear war](#).

"The difficult part of this is at least until now, certainly we have had a sufficient reservoir of natural resources, intellectual capacity to adapt, you name it, so we have stayed on the front side of that curve, for the most part, as a planet. But what happens when you put a financial crisis with a climate problem; with a weapon of mass destruction? Do you get to the point where you are at the so-called Tipping Point? Where is that tipping point? How close are we today versus our ability to adapt? So for me,

in my career, we've gone from worrying about the potential of losing a nation state to a war; to the so-called cold war of Mutual Assured Destruction; to a world today, where unfortunately today in forums like these we hear the words 'species ending'." -- General James Cartwright, Vice Chairman, Joint Chiefs of Staff: [Leading Organizational Changes to Meet New Challenges](#); John Hopkins: Carey Business School: Leaders and Legends; 16 October 2008. Infographic: [16-09-08-JamesCartwright-LeadersLegends \[Info\]](#)

Consequently, even if the United States Supreme Court overdose on LSD overnight; and issue the Chernaik requested declaratory order, tomorrow; the declaratory order may as well be printed on toilet paper, for – in a socio-cultural, religious and legal environment that considers non-Europeans as cognitively incapable of a sincere and honest conversation about responsible freedom procreation, as detailed extensively in among others: EoP Axis: Van Jones [[PDF](#)], EoP PoW: Anti-War, Disclosure & Race Relations Experts [[PDF](#)] – it will not provide on the ground State officials with the ability to do what needs to be done; to lawfully implement humane, transparent and orderly deindustrialization and depopulation; which is what is required for the protection of the planets remaining natural resources; and healing of the destroyed natural resources.

If or when the Chernaik Applicants amend their application to request the Court to issue a declaratory order that (a) clearly in simple language any village idiot citizen can understand; clarifies that the root cause of all Nation States failure to protect the atmosphere as well as the water, land, fishery, and wildlife resources from the impacts of climate change; are the 'right to breed and consume with total disregard for ecological carrying capacity limits clauses of the Masonic War is Peace international law social contract'; (b) grants declaratory legal and community support to State Governors and the President to officially and publicly begin International negotiations – by adopting any of the [Ecology of Peace New World Order Negotiations social contract options](#) used individually or in select combination or collectively; or other more suitable options – to implement an Ecology of Peace international law social contract; that shall (i) abolish the root 'right to breed and consume with total disregard for ecological carrying capacity limits clauses of the Masonic War is Peace international law social contract' causes of planetary resource depletion in all nations; affecting the future of all youths of all races, classes, religions in all nations; and (ii) replace them with Ecology of Peace clauses that require all of the worlds citizens from all races, classes and religions to [procreate and consume below ecological carrying capacity limits](#); and anyone convicted of breeding and/or consumption violations shall be eliminated from the planetary genepool; (c) then Chernaik Applicants shall sincerely demonstrate their willingness to cooperate with their Nation State Officials to implement an international law social contract enabling State Officials to embark upon honourable, transparent and humane international cooperative de-industrialization and depopulation of the planet to return to living in accordance to ecological carrying capacity limits; thereby enabling the protection of planetary resources for all species, including those who call themselves 'humans'.

Summary: EoP v WiP Negotiations:

A detailed overview of EoP v WiP Negotiations can be found in EoP Acting Clerk's [EoP PoW's – v– Nobel Committee & Peace Laureates et al](#) documentation. A summary can be found in EoP Acting Clerk correspondence to International Criminal Court Judges [[PDF](#): 29 Dec 2015]; which

includes details of EoP procreation and consumption below ecological carrying capacity suggested clauses.

A less formal Ecology of Peace culture submission was also made to US Army Reserve Command: Ft Bragg [PDF] which clarifies EoP culture answers with regard to EoP v WiP culture issues in dispute: Revolution in Military and Legal Ethics: Defining just and unjust actions in war and military conflict: the operative question: Whom should the military kill? Put differently: In terms of [ecological overshoot](#) resource depletion [tipping points](#) and resource conflict – all nations on Earth’s national resource lifeboats are not only full; but shrinking. So now the decision is not ‘which immigrants to let in’ but ‘which citizens should be removed from the lifeboat aka national genepool. How should they be removed; how many should be removed; by whom and when should they be removed’?

EoP v WiP negotiations are updated at: [MILED Clerk Notice](#).

A copy of this correspondence shall be documented in: (i) EoP Applicants [PDF]: James Cartwright and Peter Olsen; (ii) EoP Axis: Cop 21 [PDF]; (iii) EoP v WiP NWO Negotiations: [Comments Correspondence](#) [PDF]: OR: Chernaik v Brown.
