“Multiculturalism: How, then, does the universe of Capital relate to the form of Nation State in our era of global capitalism? Perhaps, this relationship is best designated as ‘auto-colonization’: with the direct multinational functioning of Capital, we are no longer dealing with the standard opposition between metropolis and colonized countries; a global company as it were cuts its umbilical cord with its mother-nation and treats its country of origins as simply another territory to be colonized. This is what disturbs so much the patriotically oriented right-wing populists, from Le Pen to Buchanan: the fact that the new multinationals have towards the French or American local population exactly the same attitude as towards the population of Mexico, Brazil or Taiwan. Is there not a kind of poetic justice in this self-referential turn? Today’s global capitalism is thus again a kind of ‘negation of negation’, after national capitalism and its internationalist/colonialist phase. At the beginning (ideally, of course), there is capitalism within the confines of a Nation-State, with the accompanying international trade (exchange between sovereign Nation-States); what follows is the relationship of colonization in which the colonizing country subordinates and exploits (economically, politically, culturally) the colonized country; the final moment of this process is the paradox of colonization in which there are only colonies, no colonizing countries—the colonizing power is no longer a Nation-State but directly the global company. In the long term, we shall all not only wear Banana Republic shirts but also live in banana republics.” – Slavoy Zizek: Multiculturalism: The Cultural Logic of Multinational Capitalism.

“Another thing that bothers me about this multiculturalism is when people ask me: 'How can you be sure that you are not a racist?' My answer is that there is only one way. If I can exchange

insults, brutal jokes, dirty jokes, with a member of a different race and we both know it's not meant in a racist way. If, on the other hand, we play this politically correct game - 'Oh, I respect you, how interesting your customs are' - this is inverted racism, and it is disgusting. In the Yugoslav army where we were all of mixed nationalities, how did I become friends with Albanians? When we started to exchange obscenities, sexual innuendo, jokes. This is why this politically correct respect is just, as Freud put it, 'zielgehemmt'. You still have the aggression towards the other. You cannot do the game of erotic seduction in politically correct terms. For me there is one measure of true love: you can insult the other. When multiculturalists tell you to respect the others, I always have this uncanny association that this is dangerously close to how we treat our children: the idea that we should respect them, even when we know that what they believe is not true. We should not destroy their illusions. No, I think that others deserve better - not to be treated like children. -- Slavoj Zizek: *The one measure of true love is: you can insult the other.*

“... and that night, Gore didn't concede and I wondered what the hell, what is going on; I mean Gore is no less of a player than Bush in these scenarios; I mean they all have big money behind them, sometimes the same money. Cause if you smart enough and rich enough, you bet every horse in the race. So why is Gore not conceding? .... and then I realized they want us to see; they want us to know; they want us to get the message and it was just as blatant a message as November 22, 1963. I believe that 63's message is 'Yeah we shot the son of a bitch, and what are you gonna do about it? We can kill the president and we sure as hell can kill you; so sit down, shut up and get out of the way.' That's the subliminal message and a subliminal message of the 2004 election was 'we done here had enough about this dumb duhmckery shit, we already told you who won the election, now sit your duhmckery ass down and shut up.' "Get out of the way" is the message and I think they pulled up the pettycoat and let us and let the rest of the world know.” -- John Judge, Special Projects Assistant to Rep. Cynthia McKinney; as reported in Guns and Butter: *We Remember Michael Ruppert and John Judge.*

particularly the [predatory capitalism](#) part; which deals with the necessity of the great powers cooperating to implement a new economic order; to address the massive impending planetary social conflict problems resulting from climate change, peak food, peak water, peak oil, including how and where to bury 6 billion people.

“If you can't explain it simply, you don't understand it well enough.” - Albert Einstein

1. Economic inequality; psycho-social resource conflict conformity pressures; climate change, food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources, nation states standing army or dissident guerrilla army ‘terrorism’ resource war military aggression, etc – are a direct and indirect consequence of overpopulation and overconsumption.
2. Overconsumption and overpopulation are a direct consequence of humans procreating and consuming above ecological carrying capacity limits.
3. Humans procreate and consume above ecological carrying capacity limits because the current international law social contract; allows nation states to provide their citizens with the implied ‘right to breed and consume with total disregard for ecological carrying capacity limits’.
4. Humans will stop procreating and consuming above ecological carrying capacity limits when legislators amend the current international law and national constitutional social contract statutes that enable procreation and consumption above ecological carrying capacity limits; to specifically require all the worlds/their nations citizens to procreate and consume below ecological carrying capacity limits.

“Capitalist WiP growth destroys the environment decreasing the nation’s lifeboat resources. Communist WiP growth destroys the environment decreasing the nation’s lifeboat resources. The only difference is that capitalist growth does it faster and with greater economic inequality. When nations choose to follow a Masonic capitalist or communist economic growth or population growth plan; they are buying a ticket on the Titanic liferaft. Whether they purchase a capitalist first-class or communist third class steerage Titanic liferaft ticket, they are purchasing a Shrinking Lifeboat Titanic ticket; where the end sinking of the WiP capitalist/communist titanic economy liferaft result is the same.” – amended quote of Albert Bartlett

In Garrett Hardin’s: [Living on a Lifeboat](#) and [Lifeboat Ethics: The Case Against Helping the Poor](#); the basic access to resources leadership decision was ‘nations resource lifeboat is not full yet, whom of those drowning in the water; should we give the opportunity to get into our national lifeboat; and whom should we just allow to drown’.

In US Army’s Lifeboat Ethics while not explicitly stated in the course material; that – in terms of [ecological overshoot](#) resource depletion [tipping points](#) and [resource conflict](#) – all nations on Earth’s resource lifeboats are not only full; but shrinking so now the decision is not ‘whom to let in’ but ‘whom should be removed from the lifeboat aka national genepool; how should they be removed; how many should be removed; by whom and when should they be removed’?

### **Ecology of Peace v WiP NWO Shrinking Lifeboat negotiations questions:**

This is a similar question to two EoP v WiP NWO negotiations questions [[PDF](#)]:

- V. Putin: New-EoP-Gotit or [current Masonic] No-Los-Pepes Evacuation Rules?
- A. Muhrteyn: Revolution in Military Ethics question: Defining just and unjust actions in war and military conflict: the operative question: Whom should the military kill?

### **Summary: Ecology of Peace Culture Shrinking Lifeboat Ethics Answers:**

The Ecology of Peace culture’s answer to these shrinking lifeboat questions:

Summary:

Whom should be removed from the lifeboat & how many should be removed:

- All citizens from whatever nation, race, religion or class whose procreation and/or consumption has been and is above ecological carrying capacity limits; who refuse to commit in writing to reduce their consumption and/or procreation to ecological carrying capacity limits; should be evacuated from the planetary genepool lifeboat by national criminal justice government departments.

How should they be removed; by whom and when should they be removed’?

- Worlds Attorney Generals should cooperate to implement an Ecology of Peace international law social contract that requires all the worlds citizens to procreate and consume below ecological carrying capacity limits.
- Once implemented: all citizens from whatever nation, race, religion or class whose procreation and/or consumption has been and is above ecological carrying capacity limits; who refuse to commit in writing to reduce their consumption and/or procreation to ecological carrying capacity limits; should be evacuated from the planetary genepool lifeboat by national criminal justice government departments.
- If or where any nation's Attorney General obstructs the implementation of Ecology of Peace international law social contract; they should provide reasons for their legal obstruction behaviour to the International Criminal Court; and/if or when they refuse to do so; should be coerced into doing so by the implementation of EoP Axis Military Necessity Mutual Coercion Psychotronic Evacuation processes which shall psychotronically evacuate lotto nations scarcity combatant and breeding/consumption war citizens who have not signed EoP Axis Oaths from the planetary genepool.

\* ~~~~~ \*

In the – amended – wording of Dr. Al Bartlett: Living on a planet where cultures are based upon Masonic War is Peace right to breed/consume social contract principles is like buying a ticket on the Titanic; if you're smart you go Capitalist first class; or you can go cheap Communist or Primitivist steerage third class. In all cases, the sinking of the culture from ecological overshoot resource depletion result is the same. But if the social contract gives the people the choice, most people would go fast, flashy and first class.

As reported in Nasa funded [Human \(Predator\) and Nature \(Prey\) Dynamics \(HANDY\) studies](#): Humans who engage in [totalitarian agriculture](#), engage in Predator-Prey Growth and Collapse of Civilization/Empire cycles: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan. Collapses result from (1) Ecological Strain and (2) Economic Stratification and include the disappearance of between 90-99% of the populations (from famine, disease and organized violence resource wars) including their kings, Gods, calendars and other complex political and cultural institutions.

Economic Stratification Collapse occurs due to unequal consumption of resources generating Elites vs Commoners. As Elites become sizable and keep growing, they consume more; their over-exploitation results in collapse of resources to the Commoners; who experience famine and collapse. Elites -- due to their wealth -- do not suffer the detrimental effects of environmental collapse until much later than Commoners, which allows them to continue 'business as usual', despite the impending catastrophe; explaining how historical collapses were allowed to occur by seemingly oblivious elites (eg Roman & Mayan cases).

As clarified by Garrett Hardin in [Tragedy of the Commons](#); in the absence of a social contract that eliminates 'breeding/consumption' cheaters from the genepool; a social contract that provides for no 'elimination from the genepool' consequences for 'breeding / consumption war cheaters; effectively results in other members of the culture being forced to engage in breeding / consumption war cheating; for offence or defence of their resources purposes; which sets in motion a breeding / consumption war ratrace. This reality was observed shortly after the invention of totalitarian agriculture; and the elite of the time decided rightly or wrongly that

their only option was for the elite to [divide and conquer](#) manage and profit from the 'breeding / consumption war'; which is one of the 'human sacrifice' 'secrets' of 'oroborous mystery phallic worship religions'.

If economists and journalists are sincere about establishing an economic system based upon resource footprint morality; and abolishing the [human factory farming slavery](#) system; I imagine an Ecology of Peace [William Wilberforce](#) and [Eric Liddle](#) would suggest that to free ourselves from [enslavement](#) we shall need to have the courage to give up our addiction to the [false left and right wing moral supremacist bullshit propaganda](#) and individual and corporate welfare at the expense of the ecological resource commons that provides us with survival sustenance; and publicly confront the [phallic human sacrifice War is Peace](#) foundation of our secular or theocratic – capitalist, communist, libertarian, socialist, Christian, Muslim, Catholic, Buddhist, etc – religions; and cooperate with national and international authorities to – hopefully nonviolently – [implement](#) an [Ecology of Peace](#) international law social contract that requires all the worlds citizens from all races, classes, religions and cultures to procreate and consume below ecological carrying capacity limits.

Ecological Reality Facts being: (a) Earth is not flat; (b) Earth renewable and non-renewable resources are finite; (c) When humans breed or consume above ecological carrying capacity limits, it results in resource conflict; (d) To sustainably protect and conserve natural resources in accordance to [local and national carrying capacity limits](#); and restrict [national and international inter-cultural resource war conflict](#); humans must implement an [Ecology of Peace](#) international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

***Ecology of Peace New World Order social contract options:***

***EoP ICC Private Prosecution:***

Ecology of Peace Applicants have notified ICC Judges that they are currently searching for Assistance of Counsel [[PDF](#)] to file the [EoP complaint to ICC](#); to remove the 'right to breed and consume with total disregard for ecological carrying capacity limits'; clauses of the current international law social contract; and replace them with clauses requiring all the worlds citizens of all races, classes and religions to procreate and consume below ecological carrying capacity limits.

As noted in correspondence to ICC Judges [[PDF](#)]:

The purpose of the EoP private prosecution complaint to the International Criminal Court – if or when filed – shall be to implement an Ecology of Peace international law social contract; that requires all the world's citizens to procreate and consume below ecological carrying capacity limits. The complaint shall charge the breeding and/or consumption scarcity combatants with 'Crimes of Aggression Acts of War' for their breeding/consuming above ecological carrying capacity limits; and shall require the respondents to cooperate; to nonviolently de-industrialize and reduce consumption and procreation to ecological carrying capacity limits; through specific actions requested of them. Put simply in terms of ICC Prosecutor Luis Moreno-Ocampos [red/green light international law analogy](#); individuals breeding and/or consuming above ecological carrying capacity limits shall be guilty of procreation/consumption crimes of aggression acts of war; i.e. have crossed the red light.

All documentation including the most recent draft of the complaint: *EoP PoW's -v- Nobel Committee & Peace Laureates et al* [PDF]; can be found at [EoP ICC complaint](#).

As noted in Request for Assistance of Counsel to Philippino Environmentalist lawyer: Tony Oposa [PDF]; if EoP Applicants cannot find any civilian attorneys to support their EoP ICC complaint; EoP Axis authorities may choose to implement the [military necessity](#) mutual coercion last resort option of the [Ecology of Peace NWO social contract options](#).

If EoP Axis authorities – Leaders of Russia, China, USA & NATO – and/or IL Coercion authorities choose to implement the [EoP Axis Military Necessity Evacuation](#) – as detailed in *26 September 2015 Military Necessity Evacuation Lotto Pool Notice to Nation State Supreme Court Judges & Attorney Generals of: Bahrain, Brazil; Brunei, Burundi, China, Germany, India, Japan, Kuwait, Luxembourg, Mali, Malta, Mexico, Monaco, Netherlands, Niger, Philippines, Qatar, Singapore, Somalia, South Korea, Uganda, United Kingdom, United States of America, Vatican City* [PDF]; Proof of Service [PDF] – the first two countries on the EoP Axis Military Necessity Evacuation lotto are: Phillipines [PDF] and India [PDF].

Lotto Military Necessity Evacuation implementation shall result in half of India and Phillipines – or subsequent lotto draw nations – scarcity combatants and breeding/consumption war extremist's – whom Masonic War is Peace legislators, lawyers and judges formerly provided with [Breeding/Consumption Innocence for sale Indulgences](#) – being psychotronically humanely killed en masse; unless their nation, city or the citizen has signed EoP Axis Oaths and provided such oaths to EoP Axis authorities as documented at [EoP Supporters](#).

An EoP Military Necessity Evacuation:

- (a) Scarcity combatant is any citizen who is a member of the following professions: (i) Law: Judges, Prosecutors & Lawyers; (ii) Mental Health: Psychologists & Psychiatrists; (iii) Media: Print, TV or Radio: Editors, Producers & Journalists; (iv) Religious & Non Profit: Officials and Employees of any religious worship or charity organization with State non-profit status.
- (b) Breeding / consumption war extremist is any adult individual over the age of 18 who has co-procreated more than 3 children who survived beyond the age of 5; and/or who possesses capital assets amounting to more than US \$ 2.55 million.

### ***Psychotronic Technology:***

There are neurological biological similarities between waterboarding and psychotronic manipulation of brain messages to the body. In waterboarding the interrogator physically restricts the body being tortured from receiving messages from the brain for a period of time ranging from 10 to 40 seconds; by restricting the brains access to oxygen; by covering the beings nose with water. In psychotronic manipulation of brain messages to the body; the brain EMF frequencies are manipulated by shutting them down for a period of time ranging from 10 to 40 seconds; by psychotronically restricting the brain from sending 'continue doing your work to allow the body to survive' messages to the necessary body parts.

In [Covert Operations of the NSA](#) John St Clair Akwei; a former NSA employee describes how the NSA can psychotronically manipulate the thoughts and bodily functions of any individual on the planet. Put differently; the NSA or any other nations intelligence agencies; such as Britain's MI6, or Russia's FSB/KGB; or Israel's Mossad; can remotely manipulate the thoughts of any one

or more persons; and/or kill any one or more persons; by psychotronically shutting off the brain's signals to the heart; lungs, etc to 'survive and continue living'. They can also remotely psychotronically manipulate internal organs in the body; such as induce a heart attack or stroke, pull a tendon or muscle; fill the lungs with water to induce pneumonia; and aggravate an already inflamed intestine to activate an gastrointestinal bleeding attack. ### ***EoP or WiP Deindustrialization and Depopulation:***

If humane psychotronic deindustrialization and depopulation is implemented internationally as per ***EoP Cop21 Simple Root Cause Problem Solving Recommendation*** [PDF] submitted to UNFCCC & Cop 21; and/or [EoP complaint to ICC](#); it would have greater positive effects on reforestation, biodiversity and climate change than the extremely violent depopulation implemented by Genghis Khan the Green; which only occurred in Eurasia; but resulted in massive reforestation and the plummeting of carbon levels.

Excerpts from: [Coupled climate-carbon simulations indicate minor global effects of wars and epidemics on atmospheric CO2 between AD 800 and 1850](#) study by Julia Pongratz; article: [Genghis Khan the GREEN: Invader killed so many people that carbon levels plummeted](#); Carnegie: [War, Plague No Match for Deforestation in Driving CO2 Buildup](#).

----- Excerpt: Carnegie Genghis Khan study-----

Genghis Khan has been branded the greenest invader in history - after his murderous conquests killed so many people that huge swathes of cultivated land returned to forest. The Mongol leader, who established a vast empire between the 13th and 14th centuries, helped remove nearly 700 million tons of carbon from the atmosphere, claims a new study. The deaths of 40 million people meant that large areas of cultivated land grew thick once again with trees, which absorb carbon dioxide from the atmosphere. And, although his methods may be difficult for environmentalists to accept, ecologists believe it may be the first ever case of successful manmade global cooling.

Genghis Khan and his Mongol hordes had an impact on the global carbon cycle as big as today's annual demand for gasoline. The Black Death, on the other hand, came and went too quickly for it to cause much of a blip in the global carbon budget. Dwarfing both of these events, however, has been the historical trend towards increasing deforestation, which over centuries has released vast amounts of carbon dioxide into the atmosphere, as crop and pasture lands expanded to feed growing human populations. Even Genghis Kahn couldn't stop it for long.

"It's a common misconception that the human impact on climate began with the large-scale burning of coal and oil in the industrial era," says Julia Pongratz of the Carnegie Institution's Department of Global Ecology, lead author of a new study on the impact of historical events on global climate published in the January 20, 2011, online issue of *The Holocene*. "Actually, humans started to influence the environment thousands of years ago by changing the vegetation cover of the Earth's landscapes when we cleared forests for agriculture."

Clearing forests releases carbon dioxide into the atmosphere when the trees and other vegetation are burned or when they decay. The rise in atmospheric carbon dioxide resulting from deforestation is recognizable in ice cores from Greenland and Antarctica before the fossil-fuel era.

But human history has had its ups and downs. During high-mortality events, such as wars and plagues, large areas of croplands and pastures have been abandoned and forests have re-grown, absorbing carbon dioxide from the atmosphere.

Pongratz decided to see how much effect these events could have had on the overall trend of rising carbon dioxide levels. Working with colleagues at the Max Planck Institute for Meteorology in Germany and with global ecologist Ken Caldeira at Carnegie, she compiled a detailed reconstruction of global land cover over the time period from 800 AD to present and used a global climate-carbon cycle model to track the impact of land use changes on global climate. Pongratz was particularly interested in four major events in which large regions were depopulated: the Mongol invasions in Asia (1200-1380), the Black Death in Europe (1347-1400), the conquest of the Americas (1519-1700), and the Fall of the Ming Dynasty in China (1600-1650).

“We found that during the short events such as the Black Death and the Ming Dynasty collapse, the forest re-growth wasn’t enough to overcome the emissions from decaying material in the soil,” says Pongratz. “But during the longer-lasting ones like the Mongol invasion and the conquest of the Americas there was enough time for the forests to re-grow and absorb significant amounts of carbon.”

The global impact of forest re-growth in even the long-lasting events was diminished by the continued clearing of forests elsewhere in the world. But in the case of the Mongol invasions, which had the biggest impact of the four events studied, re-growth on depopulated lands stockpiled nearly 700 million tons of carbon absorbed from the atmosphere. This is equivalent to the world’s total annual demand for gasoline today.

Pongratz points out the relevance of the study to current climate issues. “Today about a quarter of the net primary production on the Earth’s land surface is used by humans in some way, mostly through agriculture,” she says. “So there is a large potential for our land-use choices to alter the global carbon cycle. In the past we have had a substantial impact on global climate and the carbon cycle, but it was all unintentional. Based on the knowledge we have gained from the past, we are now in a position to make land-use decisions that will diminish our impact on climate and the carbon cycle. We cannot ignore the knowledge we have gained.”

According to Werner Erhard: “If we have any desire to create an alternative future, it is only going to happen through a shift in our language. If we want a change in culture, for example, the work is to change the conversation—or, more precisely, to have a conversation that we have not had before, one that has the power to create something new in the world.”

\*~~~~~\*

*Our dilemma is that of defining just and unjust actions within our wars and conflicts. It is time to reexamine habits that have come to pass for ethics and ask the sort of questions that are as controversial as they are uncomfortable to the man or woman of conscience ... We must reexamine our concepts of the ethical and the legal. .. The whispered warning that we do not condone "assassinations" because we do not want our own leader assassinated is a counsel of unspeakable cowardice. First, if leaders will not risk the fate they ask of their privates, they are not fit to lead*

*their people. Second, if foreign criminals, official or private, knew that retribution would be generally swift and always sure, attacks on US leaders -- or US citizens overall -- would likely decrease wonderfully. And such a policy would return us once again to an objectively moral path.*

*These issues demand serious debate. Traditionalists who decry even the possibility of attacking these sources of human misery in such a manner generally do so from campuses or comfortable offices. They are out of contact with our citizenry and its needs, as they are phenomenally out of contact with the sheer violence of this world. They will immediately push the issue to absurd extremes, crying out that such a doctrine would amount to giving our military, .. a license to kill. But the purpose of a military is to kill, and if you cannot stomach that, you should not have a military.*

*The only operative question is whom the military should kill.*

*“Fate: Unintended Consequences: Catton: Seyright Mills of Columbia Univ's sociological definition of fate. Fate is what happens when innumerable people make innumerable small decisions about other matters that have the collective cumulative effect that nobody intended. That's what happened when we overpopulated the world. .... a fusion of forces that separated us from the laws of life... that told us that we could live apart from those laws of limits, without rules.” -- [What a Way to Go: Life at the End of Empire.](#)*
